Attachment B

STATE OF COLORADO

DEPARTMENT OF HIGHER EDUCATION

John Hickenlooper
Governor

Lt. Gov. Joseph A. Garcia
Executive Director

PLEASE SUPPORT Senate Bill 53
"Exchange of Student Data K-12 and Postsecondary"
Kerr/Hamner

- SB 13-053 builds on and clarifies existing legislation that enables K-12 and higher education to share data.
  - Existing laws:
    - SB 06-024 (Spence / Paccione): Required all public colleges and universities to collect K-12 ids (SASID)
    - HB 08-1364 (Benefield & Massey / Windels): Enabled the development of statewide longitudinal data systems
    - HB 09-1285 (Benefield / King, K.): Created Education Data Subcommittee to develop a statewide comprehensive P-20 education data system
- The concept for SB 13-053 was developed in collaboration with campus and department research officers.
- With no fiscal impact, SB 13-053, charges state departments with creating procedures to assist college campuses with collecting information required by existing state law.
- SB 13-053 enables state departments to collaborate to improve efficiencies in college admission and placement processes.
- SB 13-053 creates no additional costs to institutions of higher education or local education agencies.

Supporters

- Governor Hickenlooper and Lt. Governor Garcia
- State Board of Education & Colorado Department of Education
- Colorado Department of Higher Education
- Education Data Subcommittee

Please contact Chad Marturano with the Department if you have any questions at 720-233-7795.
