COLORADO NURSE HOME VISITOR PROGRAM / NURSE FAMILY PARTNERSHIP AGENCIES

NURSE HOME VISITOR PROGRAM / NURSE-FAMILY PARTNERSHIP

The Nurse Home Visitor Program is a state grant that funds nurse home visitation services, specifically Nurse-Family Partnership. Nurse-Family Partnership (NFP) is a home visitation, case-management program. Nurses follow specific visit-by-visit guidelines that focus on six domains: personal, health, life course development, maternal role, family and friends, and health and human services. The program goals are to improve pregnancy outcomes, child health and development, and parental life course.

Registered nurses make regular home visits throughout this intensive, long-term program. They provide maternal and child health assessments and extensive teaching on health, parenting, safety, and environmental health. They also provide links to other community services and support as needed.

Criteria for enrollment are first-time (defined as no previous live births), pregnant women or whose first child is less than one month old and who are at or below 200% of the Federal Poverty Level. Although NFP encourages enrollment as early in pregnancy as possible, enrollment can be within one month postpartum, until the child is age 2.

For more information about this program please visit
the Nurse Home Visitor Program website at:
www.cdphe.state.co.us/ps/nursehome/index.html
