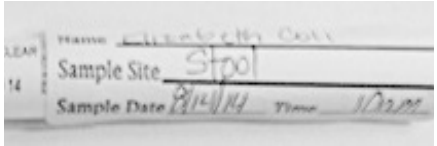
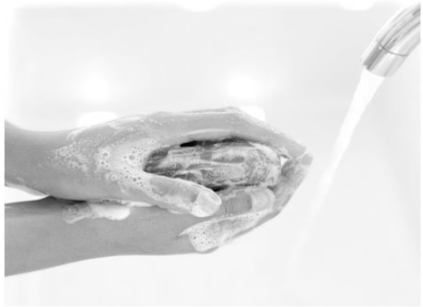
Collect stool (poop) using a swab

1 Label container

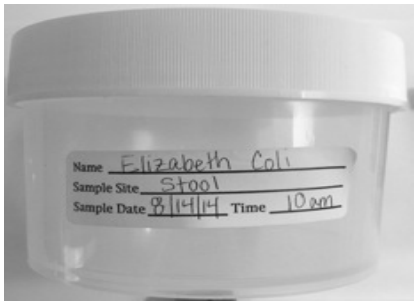


(your name, date & time of sample)

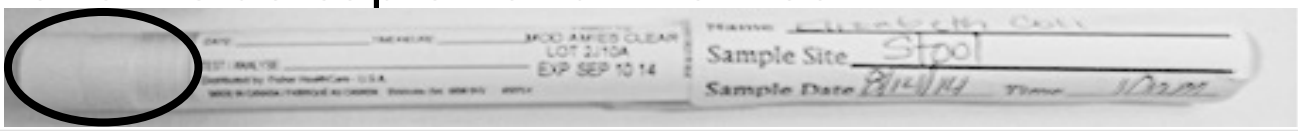
2 Wash hands



3 Follow steps 3-5 for bulk stool



4 Take inside cap off and throw out



5 Cover this part (end of q-tip) with stool

6 Insert swab into tube

(make sure it touches gel in bottom)

Close lid tightly

7 Put container in biohazard bag

Keep cool, not frozen

8 Throw out extra stool and supplies

9 Wash hands

10 Call _____ at (___)___-____ to return stool for testing
