KARCHER NORTH AMERICA, INC. (KNA)
ENVIRONMENTAL POLICY

The production facilities of KNA are committed to protecting human health and natural resources, promoting environmental stewardship and utilizing innovative environmental technologies and practices. Environmental stewardship is an essential part of KNA business practice, facility operation and each job. The implemented Environmental Management System promotes continual improvement toward environmentally beneficial practices, the prevention of pollution and conformance to all local, state and federal environmental laws and regulations.

All employees assess their roles and responsibilities in order to fulfill, to their utmost abilities, these commitments. All visitors/vendors are expected to adhere to our Environmental Policy.
