(1) ASU was developed using Program Year 2008 data

(2) Poverty data is based on most recent available figures, for January 2007 - December 2007. Poverty figures used here include those aged 16-21

(3) Unemployment data is based on most recent available figures, for January 2007 - December 2007
The federal formula for WIA allocation defines excess unemployment as the number of unemployed people in a region in excess of 4.5% unemployment

(4) Optional Federal Formula hold harmless calculated by federal rules to maintain each region at a minimum of 90% of it's average share of the last two years funding (after HH).

Colorado Dept. of Labor and Employment, April 18, 2008
