COLLEGE IN COLORADO ICAP CHARACTERISTICS

1. Comprehensive career exploration, college, financial aid and workforce planning
    - Free
    - Completely portable as students transfer or age
    - Targeted activities for middle & high school, college, adult
    - Lifelong personal portfolio
    - Online professional and mentor oversight
    - Spanish language toggle for most of the site
    - Cross-walked for ILP, ALP etc.

2. ICAP is fully customizable by local schools; system default setting may be used, advisement documents may be added

3. 81 coursework plan templates provided in interactive online planning tool, one for each career cluster/pathway (CCCS designed), fully customizable by local schools including:
    a. Local course catalog
    b. Graduation requirement sets
    c. Coursework plans for local school, career cluster, pathway
    d. Concurrent enrollment opportunities

4. Milestones are fully customizable by local schools, tracking reports, system defaults available

5. Professional reporting, analysis, communication and calendaring tools for ICAP activities, milestones, plan of study activities

6. Aggregate reporting tool for district, CDE and State on dozens of activities and data points

7. Read-only access and commenting for portfolio and coursework plan sign-off for parent or legal guardian

8. 30 Mb of file storage space for additional student documents

9. ICAP or entire portfolio may be pdf'd, printed or e-mailed and students can navigate to all ICAP and milestone activities directly from the ICAP

10. More than 80 lesson plans and activities, all ASCA correlated and indexed

11. *Roads to Success* aligned and sequenced career and college planning curriculum (approximately 30 lessons each for grades 7 – 12) configured to use CollegeInColorado.org as the tool, research and standards-based, ASCA correlated

12. Free partial- to two-day trainings, Webinars and online tutorials for professionals with ICAP planning resources and worksheets for Website use with ICAP implementation

13. In-school support and training for students and professionals

14. Electronic student portfolio creation from SIS export file

15. Coming fall 2012; schools may set up multiple ICAPs to assign by grade level, automated all data point and outcome tracking and reporting
