STATEMENTS OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE (For Part A)

XVIII. Adopted: May 16, 2013

This Statement of Basis, Specific Statutory Authority, and Purpose complies with the requirements of the Colorado Administrative Procedures Act, Section 24-4-103, C.R.S., and the Colorado Air Pollution Prevention and Control Act, Sections 25-7-110 and 25-7-110.5, C.R.S.

Basis

The EPA promulgated new standard 40 C.F.R. Part 60, Subpart Ga and amendments to 40 C.F.R. Part 60, Subparts F, J, Ja, CCCC, DDDD, IIII, and Appendix A.

The State of Colorado is required under Section 110 of the Clean Air Act ("CAA") to adopt such New Source Performance Standards ("NSPS") into its regulations in order to maintain agency authority with regard to the standards. The CAA Section 111(c) provides broad flexibility for states to seek, and EPA to grant, delegation of authority to implement the NSPS.

Specific Statutory Authority

The Colorado Air Pollution Prevention and Control Act, Sections 25-7-105(1)(b) and 25-7-109, C.R.S. authorize the Colorado Air Quality Control Commission to adopt emission control regulations, including emission control regulations relating to new stationary sources, for the development of an effective air quality control program. Further, Section 25-7-106(6) authorizes the Commission to require testing, monitoring, and recordkeeping.

Basis and Purpose

Adoption of the federal rules in 40 C.F.R. Part 60 makes these rules and revisions enforceable under Colorado law. Adoption of the rules will not impose upon sources additional requirements beyond the minimum required by federal law and may benefit the regulated community by providing sources with up-to-date information.
