FM & CHP+ 200
Workbook

Income Deductions

Medicaid Deduction Exercise 1:
1 adult 2 child household
$1,098 in earned income
$400 in child support
How much earned income is going to count against the case? _____

How much child support is going to count against the case? _____

How much total income is going to count against the case? _____

Medicaid Deduction Exercise 2:
2 adult 1 child household
Mom earns $1,896
Dad earns $984
Pays $400 day care for child age 5
How much income will count against the case? _____

What will the child care deduction be? _____

What is the total amount of income to count against the case? _____

CHP+ Deduction Exercise 1:
2 adult 1 child household
Mom earns $1,429
Dad earns $784
Pays $400 per month daycare for child age 7.
Pays child support for a child outside the home of $300 per month.
Mom had a prescription charge of $74.
How much income will count against the case? _____

What will the child care deduction be? _____

What will the child support deduction be? _____

What will the prescription deduction be? _____

What is the total amount of income to count against the case? _____

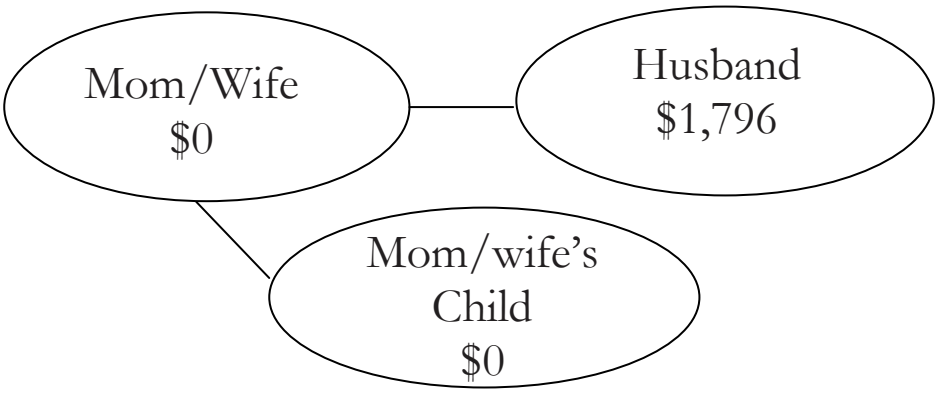
CHP+ Deduction Exercise 2:
Household with Mom, 1 child, and grandmother. All contributing 50% to household.
Mom earns $2,634
Grandmother receives $759 Social Security.
Grandmother has medical expenses of $430 per month
Pays $345 per month for a home health aid for Grandmother.
How much income will count against the case? _____

What will the medical deduction be? _____

What is the total amount of income to count against the case? _____

Calculation Rules

For the following exercises, use the 113 rule to determine who, if anyone is eligible. Incomes listed are after disregards.
113 Rule Exercise 1:



1931 Eligibility:

Family size = _____

Income limit = _____

Family income= _____

Is anyone 1931 eligible? Yes / No
Who? _____

113 rule calculation:

Can anyone's income be removed? Yes / No
Who? _____

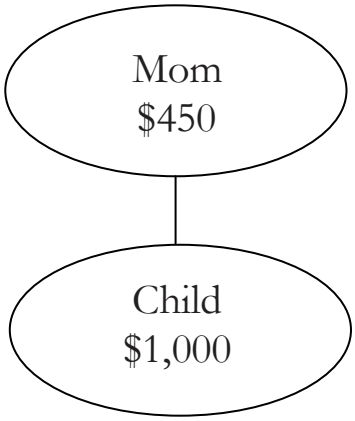
Family size = _____

Income limit = _____

HH income= _____

Is anyone 1931 eligible? Yes / No
Who? _____

113 Rule Exercise 2:



1931 Eligibility:

Family size = _____

Income limit = _____

Family income= _____

Is anyone 1931 eligible? Yes / No

113 rule calculation:

Can anyone's income be removed? Yes / No

Who? _____

Family size = _____

Income limit = _____

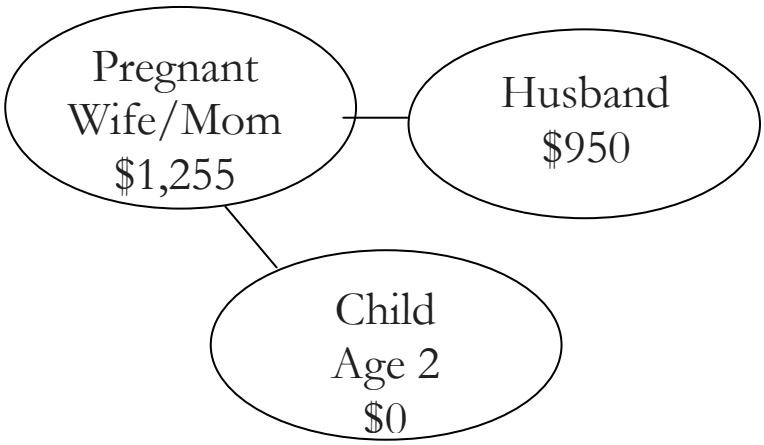
HH income = _____

Is anyone 1931 eligible? Yes / No

Who? _____

Using Proportionate Share, calculate who in the following exercise would be eligible.
Incomes listed are after disregards

Proportionate Share Exercise 1:



Determine proportionate share of income to count against each member:

Wife = _____ ÷ _____ = _____

Husband = _____ ÷ _____ = _____

Child = _____ ÷ _____ = _____

Determine individual's proportionate share of household income:

Wife = _____+ _____ = _____

Husband = _____ + _____ = _____

Child = _____ + _____ = _____

Unborn = _____ + _____ = _____

Proportionate share income limit:

Family size = _____

_____% FPL = _____÷ _____ = _____

Is anyone eligible?

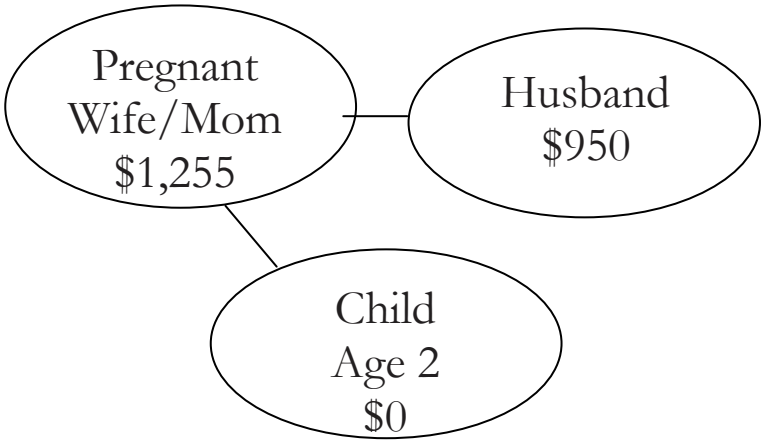
Wife =

Husband =

Child =

Using the Boatwright rule, determine who in the following exercises is eligible:
Incomes listed are after disregards

Boatwright Exercise 1:



(Same example as in proportionate share exercise, use the proportionate share totals determined in that calculation)

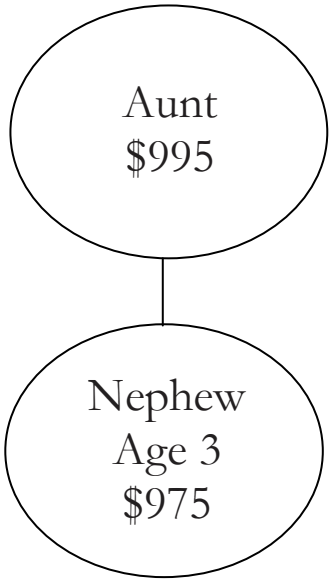
_____+ _____ + _____ + _____ = _____

Is anyone eligible?
Wife =

Husband =

Child =

Boatwright Exercise 2: Aunt applying for her nephew.
Incomes listed are after disregards
NOTE: Aunt is applying, but over income for 1931 using 113 rule



Determine proportionate share of income to count against each member:

Aunt = _____ ÷ _____ = _____

Nephew = _____ ÷ _____ = _____

Determine individual's proportionate share of household income:

Aunt = _____+ _____ = _____

Nephew = _____ + _____ = _____

Proportionate share income limit:
Family size = _____

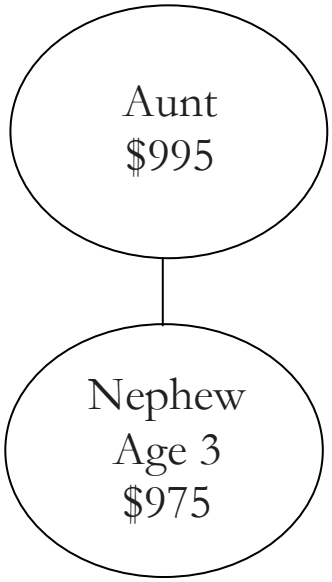
_____% FPL = _____÷ _____ = _____

Is the nephew eligible?

Boatwright calculation:
_____+ _____ = _____

Is the nephew eligible?

CHP+ Exercise:



Household Income:

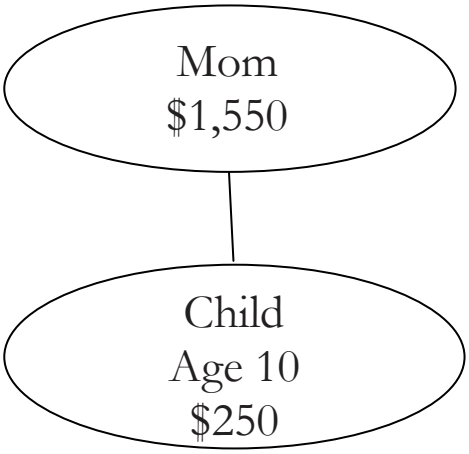
Aunt = _____

Nephew = _____

Total Household income = _____

Is the nephew eligible?

All 3 in action:
Using all 3 calculations determine who in the following exercise is eligible, and for what programs
Incomes listed are after disregards



1931 Eligibility:

Family size = _____

Income limit = _____

Family income= _____

Is anyone 1931 eligible? Yes / No

113 rule calculation:

Can anyone's income be removed? Yes / No
Who? _____

Family size = _____

Income limit = _____

HH income = _____

Is anyone 1931 eligible? Yes / No
Who? _____

Proportionate share calculation:
Determine proportionate share of income to count against each member:

Mom = _____ ÷ _____ = _____

Child = _____ ÷ _____ = _____

Determine individual's proportionate share of household income:

Mom = _____+ _____ = _____

Child = _____ + _____ = _____

Proportionate share income limit:
Family size = _____

_____% FPL = _____÷ _____ = _____

Is anyone eligible?
Mom =

Child =

Boatwright Rule:

_____+ _____ = _____

Is anyone eligible?

Mom =

Child =

CHP+ Eligibility:
Household Income:

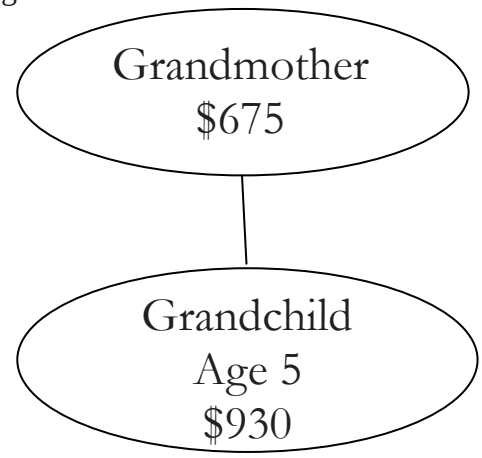
Mom = _____

Child = _____

Total Household income = _____

Is the child eligible?

All 3 in action:
Using all 3 calculations determine who in the following exercise is eligible, and for what programs
Incomes listed are after disregards



1931 Eligibility:
Family size = _____

Income limit = _____

Family income= _____

Is anyone 1931 eligible? Yes / No

113 rule calculation:
Can anyone's income be removed? Yes / No
Who? _____

Family size = _____

Income limit = _____

HH income = _____

Is anyone 1931 eligible? Yes / No
Who? _____

113 rule calculation:

Can anyone's income be removed? Yes / No

Who? _____

Family size = _____

Income limit = _____

HH income = _____

Is anyone 1931 eligible? Yes / No

Who? _____

Proportionate share calculation:

Determine proportionate share of income to count against each member:

Grandmother = _____ ÷ _____ = _____

Child = _____ ÷ _____ = _____

Determine individual's proportionate share of household income:

Grandmother = _____+ _____ = _____

Child = _____ + _____ = _____

Proportionate share income limit:

Family size = _____

_____% FPL = _____÷ _____ = _____

Is anyone eligible?

Grandmother =

Child =

Boatwright Rule:

_____+ _____ = _____

Is anyone eligible?

Grandmother =

Child =

All 3 in action:
Using all 3 calculations determine who in the following exercise is eligible, and for what programs.

> Pregnant client applying for herself, her husband, and his 2 children. Client is earning $600 per month, her husband is earning $2,000 per month, and his children each receive $225 per month in child support. Mom has a medical bill for $245. Who is eligible, and for what programs?

Income – disregards =

Wife = $_____- _____ = _____

Husband = $_____- _____ = _____

Child age 3 = $_____- _____ = _____

Child age 8 = $_____- _____ = _____

1931 Eligibility:

Family size = _____

Income limit = _____

Family income= _____

Is anyone eligible? Yes / No

113 rule calculation:

Can anyone's income be removed? Yes / No

Whose? _____

Family size = _____

Income limit = _____

HH Income = _____

Is anyone eligible? Yes / No

Who? _____

113 rule calculation:

Can anyone's income be removed? Yes / No

Whose? _____

Family size = _____

Income limit = _____

HH Income = _____

Is anyone eligible? Yes / No

Who? _____

113 rule calculation:

Can anyone's income be removed? Yes / No

Whose? _____

Family size = _____

Income limit = _____

HH Income = _____

Is anyone eligible? Yes / No

Who? _____

Proportionate Share Calculation:

Determine proportionate share of income to count against each member:

Wife = _____ ÷ _____ = _____

Husband = _____ ÷ _____ = _____

Child age 3 = _____ ÷ _____ = _____

Child age 8 = _____ ÷ _____ = _____

Determine individual's proportionate share of household income:

Wife = _____ + _____ = _____

Husband = _____ + _____ = _____

Child Age 3 = _____ + _____ = _____

Child Age 8 = _____ + _____ = _____

Unborn = _____ + _____ = _____

Proportionate share income limit:
Family size = _____

_____% FPL = _____ ÷ _____ = _____

_____% FPL = _____ ÷ _____ = _____

Is anyone eligible?
Wife:

Husband:

Child age 3:

Child age 8:

Boatwright rule calculation:

_____ + _____ + _____ + _____ + _____ = _____

Income limit =
_____% FPL = _____
_____% FPL = _____

Is anyone eligible?
Wife:

Husband:

Child age 3:

Child age 8:

CHP+ Eligibility:
Household income =

Wife = _____

Husband = _____

Child age 3 = _____

Child age 8 = _____

Total household income = _____

Total CHP+ disregards = _____

Total income after disregards = _____

Is anyone eligible for CHP+?
Wife:

Husband:

Child age 3:

Child age 8:
