Webinar: Preventive Care & UHC, 3/22 & 3/27

Preventive care has long been a concern for people, but such concerns have heightened in the last year, as provisions of federal healthcare reform (the Accountable Care Act or ACA) have come into being. The federal legislation has increased the number of services considered preventive, but it can still be confusing.

On Thursday, March 22, and Tuesday, March 27 UnitedHealthcare (UHC) will conduct a webinar focused on preventive care, what it is, how claims are paid, and how to help employees with questions about it.

Katie Wilson, UHC field account manager for the State, will conduct these webinars. These sessions are part of an ongoing training series UHC offers every other month. Future webinar topics will include: the Source4Women online program, Healthy Mind-Healthy Body newsletter, and how to review plan summaries. If you have questions for Katie, or want to suggest future webinar topics, please contact her at katie_wilson@uhc.com.
