2013 Budget Message

Introduction

The budget reflects the projected spending plan for the 2013 fiscal year based on available revenues. This budget provides for the annual debt service on the District's general obligation debt as well as the general operation of the District.

The current District's assessed value increased by 79.7% to $12,109,790 in 2012 while the assessed value of the property associated with the debt increased by 31.6% to $58,458,070. The District's mill levy remains at 40.000 mills for tax collection in the 2012 fiscal year with 36.000 mills certified to the General Fund and 4.000 mills certified to the Debt Service Fund.

The District was formed in 1986 for the purpose of providing design, financing, acquisition, and construction, of certain infrastructure improvements within the District and Beebe Draw Farms Metropolitan District No. 2.

Budgetary Basis of Accounting

The District uses Funds to budget and report on the financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions. The various funds determine the total District budget. The District's General Fund and Debt Service Funds are considered Governmental Funds and are reported using the current financial resources and the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures, other than the interest on long term obligations, are recorded when the liability is incurred or the long-term obligation paid.

Fund Summaries

General Fund is used to account for resources traditionally associated with government such as property taxes, specific ownership tax and expenditures which include district administration, legal services and other expenses related to statutory operations of a local government. The General Fund transfers to Beebe Draw Farms Authority all annual revenues net of certain operating expenditures under the Authority Establishment Agreement.

Debt Service Fund is used to account for property taxes and other revenues dedicated to pay the fiscal year's debt expense which includes administrative costs associated with debt issues. The primary source of revenue comes from property taxes and specific ownership taxes. In 2012, the District entered into a tax-free loan that refunded the Series 1998 General Obligation Bonds. Below is a summary of the District's revised long term debt obligation.
