Subject: 3rd Quarter 2010 Dose calculations

Docket #9601

Radiation Management Unit staff have reviewed the occupational dose calculations for the subject period. Occupational doses continue to be low. Remedial activities and exposures at the site are being monitored. Dust suppression is of utmost importance on soil removal projects as well as building demolition efforts. Minor corrections for cell references for organ dose summary on two lines is noted and accepted.

If you have any additional questions relative to this review, please contact me at (303) 692-3423 or steve.tarlton@state.co.us or Phil Egidi at (970) 248-7162 or phil.egidi@state.co.us.

Sincerely,

Steve Tarlton, Manager
Radiation Program
