Colorado Department
of Public Health
and Environment

Mr. Jim Cain, RSO
Cotter Cañon City Milling Facility
P.O. Box 1750
Cañon City, CO 81215-1750

Subject: Review of Final Master Demolition Plan, 3-11.

Docket # 9754

Mr. Cain,

Radiation Management Unit staff has reviewed the final version of the subject document. Staff provided comments on the draft report that were to be included in this final version, including the need for a project schedule. Implementation of the plan will be assessed through site inspections.

- We note that despite the requirement that a project schedule be included, we see no schedule in this report or under separate cover. We have been asking for a project schedule for over a year. The Division does not understand Cotter's refusal or reluctance to provide a project schedule.

Cotter shall provide an overall site demolition and reclamation project schedule within 45 days of receipt of this letter. No additional extensions will be considered.

- Changes to the plans as described in Section 4.12 shall be documented and provided to the Department for the record.

If you have any additional comments, please contact Phil Egidi at (970) 248-7162 or electronically at phil.egidi@state.co.us or myself at 303-692-3423 or at steve.tarlton@state.co.us.

Sincerely,

Steve Tarlton, Manager
Radiation Program

Mr. Jim Cain
