Subject: Appendix D of Reclamation Plan, Radon Emanation Modeling

Docket #9937

Mr. Cain,

As discussed in our meeting of July 18, 2011, the previous cap designs for the impoundments need improvement and are now under design review by Cotter's consultants. Therefore, we will table the radon flux calculations that were submitted around June 29. The Division will expect a revised Appendix D after the cap design is agreed to.

Please feel free to contact myself at (303) 692-3423 or electronically at steve.tarlton@state.co.us or Phil Egidi at (970) 248-7162 or phil.egidi@state.co.us if you have any questions concerning this letter.

Sincerely,

Steve Tarlton, Manager
