Executive Summary: *TO BE DEVELOPED*

1. Statutory Requirement From HB12-1119:
   the Division shall collaborate with the construction industry and other interested persons to develop more responsive and streamlined processes for preventing violations of provisions of this article and of permits issued under this article and for enforcing such provisions when violations occur. No later than **December 1,2012**, the Division shall submit to the general assembly a written report that includes the results of the collaboration, the actions it plans to take to develop more streamlined and responsive processes, and any legislative recommendations that it may have.

2. Process Summary
   a. Meetings
      i. Dates and Summary of topics
      ii. List of participants (as appendix)
3. Summary of Current Division Program *Derived from Division materials and discussions from first meeting.*
   a. Federal and State Statute and Regulation
   b. Environment/Health Goals
   c. Compliance Assistance
      i. Courses
      ii. Administrator Programs (Stormwater Excellence)
   d. Oversight/Inspections
      i. Process
      ii. Statistics
      iii. Examples
   e. Enforcement
      i. Process
         1. Division Decision Making
         2. ERG
         3. Expedited Settlement
         4. Examples with Photos
      ii. Statistics
      iii. Examples
   f. MS4s
4. Summary of Issues/proposals in two sections based on report goals *To be populated from issues/proposals table*
   a. Preventing Violations
      i. Issues
      ii. Proposals: How does the Division decrease Noncompliance?
   b. Developing a more Streamlined and Responsive Process
      i. Issues
      ii. Proposals: How does the Division Streamline Process and increase Responsiveness
   c. Additional Issues and Proposal
      i. E.g, Impacts on MS4 Permittees
5. Specific Recommendations *TO BE DEVELOPED*
   a. Implementation Achievable with Current Resources
   b. Implementation Requires Additional Resources/Legislative Action
