LOW BACK PAIN/CERVICAL SPINE INJURY MEDICAL TREATMENT GUIDELINES BIBLIOGRAPHY

Revised: April 25, 2007

GENERAL OVERVIEW

1. Airaksinen O, Brox, JI, et al. Chapter 4. European guidelines for the management of chronic nonspecific low back pain. *Eur Spine J.* 15 (Suppl. 2): S192-S300, 2006.
2. Awad JN, Moskovich R. Lumbar disc Herniations. *Clinical Orthopaedics and Related Research*. 443, 183-197, 2006.
3. *BMJ* Clinical Evidence. Summer 2006.
4. Bogduk N. Why I Pursue Discogenic Pain* *International Spine*. 15-27, 2005.
5. Carragee EJ. Persistent Low Back Pain. *New England Journal of Medicine*. 352; 1891-1898, 2005.
6. Deyo RA, Diehl AK. Cancer as a Cause of Back Pain: Frequency, Clinical Presentation, and Diagnostic Strategies. *Journal of General Internal Medicine.* 3, 230-238, 1988.
7. Errico TJ. Syntegration: a "more complete" knowledge-based approach to the practice of medicine-North American Spine Society Presidential Address, Chicago, IL *The Spine Journal.* 5, 6-12, 2005.
8. Faculty of Occupational Medicine. *Occupational Health Guidelines for the Management of Low Back Pain at Work. Evidence Review and Recommendations.* March 2000.
9. Genovese E. Acupuncture – Medical Literature Analysis and Recommendations. *ACOEM's Practice Guidelines APG Insights.* 2-10, Winter 2005.
10. Hansen HC, Helm, II S. Sacroiliac Joint Pain and Dysfunction. *Pain Physician*. 6; 179-189, 2003.
11. Institute for Clinical Systems Improvement (ICSI). Adult low back pain. Sept. 2005.
12. Indahl A, Velund L. et al. Good Prognosis for Low Back Pain When Left Untampered. *Spine.* 20; 4, 473-477, 1995.
13. ISIS. 13th Annual Scientific Meeting. Syllabus. July 2005, pp. 9-48.
14. Jordan J, Konstantinou K. et al. Herniated lumber disc. *Clin Evid.* 14; 1-4, 2005.
15. Koes BW, van Tulder MW, et al. Clinical Guidelines for the Management of Low Back Pain in Primary Care. An International Comparison. *Spine.* 26; 22, 2504-2514, 2001.
16. Koes BW, van Tulder MW, et al. Diagnosis and treatment of low back pain. *BMJ*. 332: 1430-4, 2006.
17. NCQA. Back Pain Recognition Program (BPRP). 2007 BPRP Standards and Guidelines. 2007.
18. North American Spine Society (NASS) Phase III Clinical Guidelines For Multidisciplinary Spine Care Specialists. 2000.
19. North American Spine Society (NASS) Training Recommendations for New Technology. General Principles. April 2005.
20. Roland & Fairbank. The Roland disability questionnaire. *The Back Pain Revolution.* 40; 2000.
21. Ricci JA, Stewart WF, et al. Back Pain Exacerbations and Lost Productive Time Costs in United States Workers. *Spine.* 31; 26, 3052-3060, 2006.
22. Speed K. ABC of rheumatology Low Back Pain. *BMJ.* 328, 1119-1121, 2004.
23. van Tulder M, Becker A, et al. Chapter 3. European guidelines for the management of acute nonspecific low back pain in primary care. *Eur Spine J.* 15 (Suppl. 2): S169-S191. 2006.
24. van Tulder M, Koes B. Low back pain (chronic). *Clin Evid.* 14; 1458-1477, 2005
25. van Tulder M, Koes B. Low back pain (acute). *Clin Evid.* 14; 1446-1457, 2005.

26. Wiesel SW, et al. *Back Letter.* Lippincott Williams & Wilkins. 20; 9: 97-108, 2005.
27. Work Loss Data Institute. Low back – lumbar & thoracic (acute & chronic) *National Guideline Clearinghouse.* 2005.

EPIDEMIOLOGY/EVIDENCE-BASED MEDICINE

1. Battie MC, et al. Lumbar Disc Degeneration: Epidemiology and Genetics. *Journal of Bone and Joint Surgery*. 88-A, 2, 2006.
2. Errico T. Syntegration: a "more complete" knowledge-based approach to the practice of medicine-North American Spine Society Presidential Address, Chicago, IL. *The Spine Journal.* 5 (2005) 6-12.
3. Guyatt G, Rennie D. Users' Guides To The Medical Literature. A Manual for Evidence-Based Clinical Practice. *JAMA & Archives Journals.* 2002.
4. McGuirk B, King W, et al. Safety, Efficacy, and Cost Effectiveness of Evidence-Base Guidelines for the Management of Acute Low Back Pain in Primary Care. Spine. 26; 23: 2615-2622, 2001.
5. Rothman KJ. Epidemiologic Methods in Clinical Trials. *Cancer.* 39:1771-1775, 1977.
6. Sackett DL, Haynes RB. Evidence base of clinical diagnosis. The architecture of diagnostic research. BMJ. 324; 539-541, 2002.
7. van Tulder M, et al. Updated Method Guidelines for Systematic Review in the Cochrane Collaboration Back Review Group. *Spine*. 28; 12, 1290-1299, 2003.
8. Wupperman R, Davis R, et al. Level of Evidence in Spine Compared to Other Orthopedic Journals. *Spine.* 32, 3 338-393, 2007.

CAUSALITY

1. Freeman MD, Croft AC, et al. A Review and Methodologic Critique of the Literature Refuting Whiplash Syndrome. *Spine.* 24; 1, 86-98, 1999.
2. Hall H, et al. Spontaneous Onset of Back Pain. *The Clinical Journal.* 14; 2, 129-133, 1998.
3. Krause N, Ragland DR, et al. Physical Workload and Ergonomic Factors Associated with Prevalence of Back and Neck Pain in Urban Transit Operators. *Spine.* 22:18, 2117-2127, 1997.
4. Krause N, Ragland DR, et al. Psychosocial job factors associated with back and neck pain in public transit operators. *Scand J Work Environ Health.* 23; 179-86, 1997.
5. Krause N, Ragland DR, et al. 1998 Volvo Award Winner in Clinical Studies. Psychosocial Job Factors, Physical Workload, and Incidence of Work-Related Spinal Injury: A 5-Year Prospective Study of Urban Transit Operators. *Spine.* 23; 23, 2507-2516, 1998.
6. Krause N, Rugulies R, et al. Physical Workload, Ergonomic Problems, and Incidence of Low Back Injury: A 7.5-Year Prospective Study of San Francisco Transit Operators. *American Journal of Industrial Medicine.* 46:570-585, 2004.
7. Linton SJ. A Review of Psychological Risk Factors in Back and Neck Pain. *Spine.* 25; 9, 1148-1156, 2000.

Special Note:

1. This bibliography reflects the articles, abstracts, and literature reviewed during the Low Back Pain and Cervical Spine medical treatment guidelines revision process. The bibliography does not indicate the weight or strength of evidence of the articles; therefore, conclusions posited by individual articles may be different from those ultimately used in the medical treatment guidelines.

2. Several of the articles reviewed apply to more than one category, and therefore, are listed more than once.
