APPENDIX II PLANS DOCUMENT

With the exception of Pet Handlers and Animal Rescues, all new facilities and existing facilities that remodel more than 25% of the square footage of the facility (requiring a building permit) are required to submit a set of plans to the Colorado Department of Agriculture/PACFA Program. Plans need not be professionally drawn, providing the plans are legible, drawn or sketched to consistent scale, with dimensions indicated, accurately depicting the intended construction or remodeling. ***Noncompliance will delay the issuance of your license.***

The plans that you submit for your facility must be detailed and include, at a minimum:

1. A floor plan
2. A description of the ventilation system and heating and cooling system
3. Location of plumbing equipment, including sink(s) for hand washing and container cleaning and backflow prevention systems
4. Description of waste water drainage system
5. All electrical and lighting supplies and fixtures
6. Description of finishes of floors, walls, and ceilings
7. Location, size and type(s) of cages, runs, or pens
8. Location of an isolation area or room (if applicable)
9. Location of outdoor facilities (if applicable), which shall include a layout and size of cages, runs, or pens
10. Proximity of perimeter protective fence and height of the perimeter fence (if applicable)
11. Location of potable water supply
12. Area lighting
13. Drawings and a detailed description of shelter from the elements in outdoor enclosures, if applicable
14. Location of food storage and food preparation area
