Ask an expert:

How can I get an answer to my sustainable agriculture question?

- Start by checking the list of more than 300 free sustainable agriculture publications available on our webite, *www.attra.ncat.org.*
- Check the ATTRA Question of the Week Archives online to find out if your question has already been answered.

What if I can't find an answer on the website? ATTRA provides personal sustainable agriculture assistance to:

- U.S. farmers and ranchers currently raising and selling agricultural products commercially
- Agricultural educators, extension and field staff
- Organizations that work directly with farmers and food projects

Unfortunately we can't provide in-depth research assistance to the general public.

How can I contact ATTRA sustainable agriculture experts for assistance?

Two options are available:

1. Call our toll-free ATTRA helpline (U.S. only)
   1-800-346-9140 (English) 7 a.m. to 7 p.m. CT
   1-800-411-3222 (Español) 8 a.m. to 5 p.m. PT
2. Ask online at **www.attra.ncat.org**

ATTRA helps U.S. farmers:

- Improve farm income with a diversity of crops and livestock enterprises
- Reduce dependence on costly off-farm inputs
- Assess new direct marketing methods
- Produce alternative crops and livestock
- Implement organic farming practices
- Incorporate value-added and farm-processed products
- Improve soil fertility and water quality
- Rejuvenate rural America through agricultural enterprises

ATTRA, the National Sustainable Agriculture Information Service, was developed and is managed by the National Center for Appropriate Technology (NCAT). The project is funded through a cooperative agreement with the U.S. Department of Agriculture's Rural Business-Cooperative Service. It provides information and technical assistance to farmers, ranchers, Extension agents, educators and others involved in sustainable agriculture in the United States.

We provide FREE information about:

Horticulture crops

Livestock management

Organic standards and certification

Organic farming

Farm energy

Pest management

Soil and water quality

Marketing and business

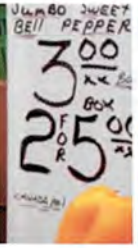
Hundreds of other topics

ATTRA services include:

- Answering questions about specific sustainable farming practices
- Helping farmers, ranchers, agricultural professionals & educators
- Offering toll-free phone assistance service in English and Spanish
- Hosting a website with more than 300 free publications in both English and Spanish
- Responding to thousands of technical assistance requests each year
- Presenting and organizing workshops, seminars and field tours around the U.S.
- eNewsletters on breaking sustainable agriculture news
- Providing expert interviews and a national events calendar
- Providing on-site technical assistance

FREE access to thousands of resources :

- Technical assistance
- Research
- Publications
- Workshops

ATTRA – National Sustainable Agriculture Information Service has compiled the best and most current farm energy research. We tell you where to find technical assistance, funding, and equipment.


ATTRA is a project of the National Center for Appropriate Technology and is funded by a co-op agreement with the USDA.
