The pool is working good as of now. We have 2 more families that have renewed their memberships for the pool. We are having a problem with the bathroom toilets though. If you flush both toilets in the ladies room at once the water backs up. It sucks all the water out of one and goes to the other toilet. The men's toilet backs up as well. I don't know who to talk to about that either. That sums it up!
Thank,
Leah
