We need a fair & just healthcare system in Colorado & America; as opposed to the "profits for the few" system we currently must endure. Healthcare is not a commoditized privilege for the greedy few. Healthcare is a right for all citizens. The Colorado Healthcare Cooperative is a reasonable step forward in this way.

Now that civil unions are legally binding in Colorado, the very most important issue for the People of the State of Colorado, bar none, is Health Care Coverage for All Colorado Citizens. Please listen to Senator Aguilar and support her amazing and comprehensive health care plan! A health care cooperative will get better results, cover everyone and still cost less than the Affordable Health Care Act. President Obama has charged each state to come up with our own plan that improves upon the Affordable Health Care Act. This is it. Colorado will shine as one of the best-led states in the Union if we incorporate this plan which is modeled after the Mesa County plan, rated as one of the top 3 health care plans in the country. Please don't miss this chance to do the right thing. You all know that the Affordable Health Care Act needs tweaking to be financially solid. Please do the right thing. This is the right tweak for Colorado!

I strongly urge your full support that RESOLUTION SCR13-002 be placed on Colorado's November 5, 2013 Ballot. Colorado has opportunity to lead in demonstration to other states what possible cooperative designs might serve health care needs. Individuals across the state must examine possibilities; SCR13-002 on the ballot will generate questions and discussion, which is precisely how a democracy best functions. Thank you.

All Coloradans would be able to access quality health care and the state would save billions. Citizens would not be bankrupted by medical costs. I want to vote on this measure in November 2013.

BY giving Colorado voters the opportunity to VOTE FOR the "Colorado Health Care Cooperative" on November 5, 2013, Colorado voters can defeat the powerful special interests that hold our current health care system hostage for its profits from the pain and suffering of our fellow Coloradans (the same special interests that will emerge as victorious profiteers even after the full implementation of Obamacare)! It's imperative that our State legislators VOTE FOR SCR13-002 to let us voters have the final say on the "Colorado Health Care Cooperative."
