

2.2 – Application Fees

The Task Force recommends that the General Assembly adopt legislation that directs the Colorado Department of Revenue to confer with local jurisdictions when considering whether to raise the \$5,000 cap on application fees to reflect the actual costs of reviewing applications for local approval. The Task Force further requests that the General Assembly **should also enact legislation to clarify that how application fees, regardless of amount, shall be shared equally** greater than the initial \$5,000 amount are to be shared between the state and local jurisdictions.
