

To whom It may concern:

I am glad we are addressing marijuana DUI's and hope that you do so in a way that is an example to the rest of the nation as our MMJ community has been. To that regard a 5ng limit is absurd we need to set a reasonable DUI standard the rest of the county can follow such as 20ng for non-patients and 50ng for patients. We are attempting to regulate this like alcohol and if you take 2 sips of wine or drink half a beer you are not impaired enough to be arrested for drunk driving this should be the same for marijuana. The 5ng limit most mmj patients wake up in violation of but are still very capable of driving, working, and completing everyday tasks. I do believe impaired people should not be on the road for all of our safety but if you pass a 5ng limit you will be putting people in jail and ruining their life for no reason, essentially do a disservice to the people of Colorado. Please consider a 20ng non patient and 50ng patient law or 20ng non patient and mmj patients are exempt.

Thank you so much for your time and consideration,

James Ashkar MMJ Patient and Colorado voter
