Summary of Legislation

This bill aligns state law concerning the inspection of Medicaid providers with federal law. Under current state law, the state is required to provide a minimum of ten days of advance notice of a pending review or audit. Federal law requires that Medicaid providers allow the state to conduct on-site inspections, unannounced and without advance notice, for audit or review reasons or to otherwise ensure compliance with state and federal law.

State Expenditures

This bill could increase the efficiency of inspections from not having to provide advance notice to Medicaid providers. This workload savings is anticipated to be minimal and will not require an adjustment in appropriations for any state agency.
