A BILL FOR AN ACT

101 **CONCERNING INCENTIVES FOR PRECIPITATION HARVESTING, AND, IN**
102 **CONNECTION THEREWITH, MAKING AN APPROPRIATION.**

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/billsummaries>.)

Water Resources Review Committee. In 2009, the general assembly authorized up to 10 precipitation harvesting pilot projects for new real estate developments of residential housing or mixed uses. Only one project has been approved. To encourage more projects, the bill:

! Includes the redevelopment of residential housing or mixed uses and new or redeveloped multi-building nonresidential

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters indicate new material to be added to existing statute.
Dashes through the words indicate deletions from existing statute.

- ! property as potential pilot projects;
- ! Directs the Colorado water conservation board to update its approval criteria and guidelines, including regionally applicable factors that sponsors can use for substitute water supply and augmentation plans that specify the amount of evapotranspiration of preexisting natural vegetative cover, to which the state engineer and water judges must give presumptive effect, subject to rebuttal;
- ! Reduces the amount of water needed for a project's temporary substitute water supply plan and permanent augmentation plan by the amount of historic natural depletion to the waters of the state, if any, caused by the preexisting natural vegetative cover and evaporation on the surface of the area that will be, or that has been, made impermeable as part of the pilot project; and
- ! Specifies that a project's temporary retention of storm water for the purpose of improving water quality is not subject to an order of the state or division engineers if the retention complies with the board's criteria and guidelines and the applicable requirements of the state's water quality laws.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1.** In Colorado Revised Statutes, 37-60-115, **amend**
 3 (6) (b) introductory portion, (6) (c) (I), (6) (c) (II) (B), (6) (d), and (6) (e);
 4 and **add** (6) (b) (VI) as follows:

5 **37-60-115. Water studies - rules - repeal.** (6) **Precipitation**
 6 **harvesting pilot projects.** (b) An applicant for a development permit, as
 7 that term is defined in section 29-20-103, C.R.S., for a new planned
 8 unit development or new subdivision of residential housing or mixed
 9 uses may submit an application to the board to become a sponsor of
 10 one or more of the ten pilot projects authorized by this section. The board
 11 shall establish criteria and guidelines, AND UPDATE THE CRITERIA AND
 12 GUIDELINES BY JANUARY 1, 2016, WITH THE GOAL OF INCENTIVIZING THE
 13 SUBMISSION OF APPLICATIONS AND APPLYING LESSONS LEARNED FROM
 14 PREVIOUSLY APPROVED PILOT PROJECTS, for applications and the selection

1 of pilot projects, including the following:

2 (VI) REGIONALLY APPLICABLE FACTORS THAT SPONSORS CAN USE
3 FOR SUBSTITUTE WATER SUPPLY PLANS THAT SPECIFY THE AMOUNT OF
4 PRECIPITATION CONSUMED THROUGH EVAPOTRANSPIRATION OF
5 PREEXISTING NATURAL VEGETATIVE COVER. IF AN APPLICANT USES THE
6 FACTORS, THE STATE ENGINEER SHALL GIVE THE FACTORS PRESUMPTIVE
7 EFFECT, SUBJECT TO REBUTTAL. THE BOARD NEED NOT ESTABLISH
8 FACTORS FOR A REGION UNTIL THE SPONSOR OF A PROJECT LOCATED
9 WITHIN THAT REGION HAS SUBMITTED A MINIMUM OF TWO YEARS OF DATA
10 PURSUANT TO SUB-SUBPARAGRAPH (B) OF SUBPARAGRAPH (II) OF
11 PARAGRAPH (c) OF THIS SUBSECTION (6). A SPONSOR THAT MAKES SUCH
12 A SUBMISSION SHALL ALSO SUBMIT THE DATA TO THE BOARD.

13 (c) Notwithstanding any limitations regarding phreatophytes or
14 impermeable surfaces that would otherwise apply pursuant to section
15 37-92-103 (9) or 37-92-501 (4) (b) (III), each of the ten pilot projects
16 shall:

17 (I) During the term of the pilot project, operate according to a
18 substitute water supply plan, if approved annually by the state engineer
19 pursuant to section 37-92-308 (4) or (5). ~~Until the pilot project sponsor~~
20 ~~applies to the water court for a permanent augmentation plan,~~ The pilot
21 project shall be required to replace an amount of water equal to the
22 amount of precipitation captured ~~and measured~~ OUT OF PRIORITY from
23 rooftops and impermeable surfaces for nonpotable uses; EXCEPT THAT,
24 IN DETERMINING THE QUANTITY OF WATER REQUIRED FOR THE SUBSTITUTE
25 WATER SUPPLY PLAN TO REPLACE OUT-OF-PRIORITY STREAM DEPLETIONS,
26 THERE IS NO REQUIREMENT TO REPLACE THE AMOUNT OF HISTORIC
27 NATURAL DEPLETION TO THE WATERS OF THE STATE, IF ANY, CAUSED BY

1 THE PREEXISTING NATURAL VEGETATIVE COVER EVAPOTRANSPIRATION
2 FOR THE SURFACE AREAS MADE IMPERMEABLE AND ASSOCIATED WITH THE
3 PILOT PROJECT. THE APPLICANT BEARS THE BURDEN OF PROVING THE
4 HISTORIC NATURAL DEPLETION; EXCEPT THAT THE APPLICANT MAY USE
5 APPLICABLE REGIONAL FACTORS ESTABLISHED PURSUANT TO
6 SUBPARAGRAPH (VI) OF PARAGRAPH (b) OF THIS SUBSECTION (6).

7 (II) (B) After a minimum of two years of data collection and upon
8 application to the appropriate water court for a permanent augmentation
9 plan, the pilot project sponsor shall file an application for approval of a
10 substitute water supply plan pursuant to section 37-92-308 (4). For any
11 substitute supply plan application filed under section 37-92-308 (4), a
12 ~~pilot project sponsor may seek approval from the state engineer based on~~
13 ~~replacing only the net depletion caused by the capture of precipitation.~~
14 ~~The net depletion shall be calculated as the amount of precipitation~~
15 ~~captured minus the historical consumptive use from preexisting, natural~~
16 ~~vegetation cover on the impermeable area as demonstrated by analysis of~~
17 ~~the data collected by the sponsor during the pilot project~~ THE SPONSOR
18 SHALL FULLY AUGMENT ANY PRECIPITATION CAPTURED OUT OF PRIORITY;
19 EXCEPT THAT, IN DETERMINING THE QUANTITY OF WATER REQUIRED FOR
20 THE SUBSTITUTE WATER SUPPLY PLAN TO REPLACE OUT-OF-PRIORITY
21 STREAM DEPLETIONS, THERE IS NO REQUIREMENT TO REPLACE THE
22 AMOUNT OF HISTORIC NATURAL DEPLETION TO THE WATERS OF THE STATE,
23 IF ANY, CAUSED BY PREEXISTING NATURAL VEGETATIVE COVER
24 EVAPOTRANSPIRATION FOR THE SURFACE AREAS MADE IMPERMEABLE AND
25 ASSOCIATED WITH THE PILOT PROJECT. THE APPLICANT MAY USE
26 APPLICABLE REGIONAL FACTORS ESTABLISHED PURSUANT TO
27 SUBPARAGRAPH (VI) OF PARAGRAPH (b) OF THIS SUBSECTION (6).

1 (d) Each sponsor shall submit an annual preliminary report to the
2 board and the state engineer summarizing the information set forth in
3 paragraph (a) of this subsection (6). The board and the state engineer shall
4 brief the water resources review committee created in section 37-98-102
5 on the reported results of the pilot projects by July 1, 2014. Each sponsor
6 shall submit a final report to the board and the state engineer by January
7 15, 2019 2025. The board and the state engineer shall provide a final
8 briefing to the water resources review committee by July 1, 2019 2025.

9 (e) This paragraph (e), paragraphs (a), (b), and (d), and
10 subparagraph (I) of paragraph (c) of this subsection (6) are IS repealed,
11 effective July 1, 2020 2026.

12

13 **SECTION 2.** In Colorado Revised Statutes, 37-92-308, **amend**
14 (4) (a) (IV) and (5) (a) (IV) as follows:

15 **37-92-308. Substitute water supply plans - special procedures**
16 **for review - water adjudication cash fund - legislative declaration -**
17 **repeal.** (4) (a) Beginning January 1, 2002, if an application for approval
18 of a plan for augmentation, rotational crop management contract, or
19 change of water right has been filed with a water court and the court has
20 not issued a decree, the state engineer may approve the temporary
21 operation of such plan, contract, or change of water right as a substitute
22 water supply plan if the following conditions are met:

23 (IV) (A) The state engineer, after consideration of the comments
24 received, has determined that the operation and administration of such
25 plan will replace all out-of-priority depletions in time, location, and
26 amount and will otherwise prevent injury to other water rights and
27 decreed conditional water rights, including water quality and continuity

1 to meet the requirements of use to which the senior appropriation has
2 normally been put, pursuant to section 37-80-120 (3), and will not impair
3 compliance with any interstate compacts.

4 (B) Notwithstanding any limitations regarding phreatophytes or
5 impermeable surfaces that would otherwise apply pursuant to section
6 37-92-103 (9) or 37-92-501 (4) (b) (III), for any precipitation harvesting
7 pilot project selected pursuant to section 37-60-115 (6) that has filed an
8 application for a permanent augmentation plan in water court, the
9 ~~out-of-priority depletions shall be the net depletion as defined in section~~
10 ~~37-60-115 (6) (c) (H) (B)~~ APPLICANT SHALL FULLY AUGMENT ANY
11 PRECIPITATION CAPTURED OUT OF PRIORITY; EXCEPT THAT, IN
12 DETERMINING THE QUANTITY OF WATER REQUIRED FOR THE SUBSTITUTE
13 WATER SUPPLY PLAN TO REPLACE OUT-OF-PRIORITY STREAM DEPLETIONS,
14 THERE IS NO REQUIREMENT TO REPLACE THE AMOUNT OF HISTORIC
15 NATURAL DEPLETION TO THE WATERS OF THE STATE, IF ANY, CAUSED BY
16 PREEXISTING NATURAL VEGETATIVE COVER EVAPOTRANSPIRATION FOR
17 THE SURFACE AREAS MADE IMPERMEABLE AND ASSOCIATED WITH THE
18 PILOT PROJECT. THE APPLICANT MAY USE APPLICABLE REGIONAL FACTORS
19 ESTABLISHED PURSUANT TO SECTION 37-60-115 (6) (b) (VI). As a
20 condition of approving a substitute water supply plan for a pilot project
21 pursuant to this subsection (4), the state engineer shall have the authority
22 to require the project sponsor to replace any ongoing delayed depletions
23 after the water use plan associated with a precipitation harvesting pilot
24 project has ceased.

25 (C) The state engineer shall impose such terms and conditions as
26 are necessary to ensure that these standards are met. In making such
27 determinations, the state engineer shall not be required to hold any formal

1 hearings or conduct any other formal proceedings, but may conduct a
2 hearing or formal proceeding if the state engineer finds it necessary to
3 address the issues.

4 (5) (a) Beginning January 1, 2002, for new water use plans
5 involving out-of-priority diversions or a change of water right, if no
6 application for approval of a plan for augmentation or a change of water
7 right has been filed with a water court and the water use plan or change
8 proposed and the depletions associated with such water use plan or
9 change will be for a limited duration not to exceed five years, except as
10 otherwise provided in subparagraph (II) of paragraph (b) of this
11 subsection (5), the state engineer may approve such plan or change as a
12 substitute water supply plan if the following conditions are met:

13 (IV) (A) The state engineer, after consideration of the comments
14 received, has determined that the operation and administration of such
15 plan will replace all out-of-priority depletions in time, location, and
16 amount and will otherwise prevent injury to other water rights and
17 decreed conditional water rights, including water quality and continuity
18 to meet the requirements of use to which the senior appropriation has
19 normally been put, pursuant to section 37-80-120 (3), and will not impair
20 compliance with any interstate compacts.

21 (B) NOTWITHSTANDING ANY LIMITATIONS REGARDING
22 PHREATOPHYTES OR IMPERMEABLE SURFACES THAT WOULD OTHERWISE
23 APPLY PURSUANT TO SECTION 37-92-103 (9) OR 37-92-501 (4) (b) (III),
24 FOR ANY PRECIPITATION HARVESTING PILOT PROJECT SELECTED PURSUANT
25 TO SECTION 37-60-115 (6), THE APPLICANT SHALL FULLY AUGMENT ANY
26 PRECIPITATION CAPTURED OUT OF PRIORITY; EXCEPT THAT, IN
27 DETERMINING THE QUANTITY OF WATER REQUIRED FOR THE SUBSTITUTE

1 WATER SUPPLY PLAN TO REPLACE OUT-OF-PRIORITY STREAM DEPLETIONS,
2 THERE IS NO REQUIREMENT TO REPLACE THE AMOUNT OF HISTORIC
3 NATURAL DEPLETION TO THE WATERS OF THE STATE, IF ANY, CAUSED BY
4 PREEXISTING NATURAL VEGETATIVE COVER EVAPOTRANSPIRATION FOR
5 THE SURFACE AREAS MADE IMPERMEABLE AND ASSOCIATED WITH THE
6 PILOT PROJECT. THE APPLICANT MAY USE APPLICABLE REGIONAL FACTORS
7 ESTABLISHED PURSUANT TO SECTION 37-60-115 (6) (b) (VI).

8 (C) The state engineer shall impose such terms and conditions as
9 are necessary to ensure that these standards are met. In making the
10 determinations specified in this subparagraph (IV), the state engineer
11 shall not be required to hold any formal hearings or conduct any other
12 formal proceedings, but may conduct a hearing or formal proceeding if
13 the state engineer finds it necessary to address the issues.

14 **SECTION 3. Appropriation.** For the 2015-16 state fiscal year,
15 \$12,240 is appropriated to the department of natural resources for use by
16 the Colorado water conservation board. This appropriation is from the
17 Colorado water conservation board construction fund created in section
18 37-60-121 (1) (a), C.R.S. To implement this act, the board may use this
19 appropriation for the water conservation program.

20 **SECTION 4. Act subject to petition - effective date -**
21 **applicability.** (1) This act takes effect at 12:01 a.m. on the day following
22 the expiration of the ninety-day period after final adjournment of the
23 general assembly (August 5, 2015, if adjournment sine die is on May 6,
24 2015); except that, if a referendum petition is filed pursuant to section 1
25 (3) of article V of the state constitution against this act or an item, section,
26 or part of this act within such period, then the act, item, section, or part
27 will not take effect unless approved by the people at the general election

1 to be held in November 2016 and, in such case, will take effect on the
2 date of the official declaration of the vote thereon by the governor.

3 (2) This act applies to precipitation harvesting pilot project
4 applications submitted before, on, or after the applicable effective date of
5 this act.
