**If known at this time, please provide a three-sentence description of the proposal that addresses what is being proposed, who and or what in the health system would be affected, and what the basic approach to reform would be.**

The proposal outlines a comprehensive health advancement program for all residents of Colorado, which will reduce overall costs while covering nearly all health expenses.

The proposed system will affect everyone who lives in Colorado, freeing patients from employment-related health care benefits and freeing health care providers from the cost and effort of dealing with numerous health insurance agencies.

The basic approach will be establishment of a single-payer health insurance system, combined with public education on health care cost containment and incentives to raise cost-consciousness by patients and providers.

*The information provided on this form will be posted on the Commission's web site.*
