

Hay continues to be one of Colorado's leading crops. From alfalfa and grass to brome and timothy, Colorado grows a variety of hay to meet the needs of the state's livestock producers.

### **Economics & Rankings**

In 2007 Colorado produced nearly 4.4 million tons of hay valued at \$596.6 million. Colorado ranks 14<sup>th</sup> in hay production nationally.

The top five hay producing counties are:

- Weld
- Conejos
- Saguache
- Washington
- Rio Blanco
