Our Proposal will attempt to address all aspects of Healthcare Reform in Colorado. All patients who are uninsured or underinsured will be affected by our plan, as well as others who might choose our plan over private insurance that they now hold, and the entire healthcare system itself. The basic approach of our plan of reform will be all inclusive, as the entire system will be examined and recommendations will be made as to how to incorporate changes that will make healthcare affordable, cost effective, of outstanding quality, and safe.
