

**KEEP IT OUT  
OF COLORADO!**

## **Exotic Newcastle Disease**

Exotic Newcastle disease (END) is a contagious and fatal viral disease affecting most birds. END is so dangerous that many birds die before showing any clinical signs.

### **END: Clinical Signs**

- w Respiratory: sneezing, gasping for air, nasal discharge, coughing
- w Digestive: greenish, watery diarrhea
- w Sudden death
- w Swelling around eyes and neck

If you see these signs, report them to us promptly. In the meantime, restrict access onto your property to prevent the potential spread of the disease!

Help us  
keep END  
out of  
Colorado!
