

# SPECIAL LOCAL NEED REGISTRATION – 24(c)

SUPPLEMENTAL LABELING FOR DISTRIBUTION AND USE ONLY IN THE STATE OF COLORADO

# ENHANCE®

## Vitavax® - Captan 20-20

For the use of ENHANCE® as a treatment on grass seed: *Bromus* species (such as *B. riparius*, *B. marginatus* and *B. carinatus*) and the genus *Elymus* (Bottlebrush squirreltail, Biq squirreltail etc.) and *Hordeum brachyantherum*.

EPA Reg. 7501-36-42056

EPA SLN No. CO-050001

### ACTIVE INGREDIENTS:

Captan (N-Trichloromethylthio-4-cyclohexene-1,2-dicarboximide).....	19.55%
Related Derivatives.....	0.45%
Carboxin .....	20.00%

INERT INGREDIENTS (Contains Graphite)..... 60.00%

TOTAL..... 100.00%

**STOP – Read the label before use.  
Keep out of reach of children.**

## DANGER

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Causes irreversible eye damage. Harmful if swallowed or inhaled. May cause allergic skin reaction. Do not get in eyes.

#### Personal Protective Equipment:

**Applicators and other handlers (other than mixers and loaders) must wear:** long-sleeved shirt and long pants, waterproof gloves, shoes plus socks, protective eyewear

**Mixers and Loaders must wear:** long-sleeved shirt and long pants, waterproof gloves, protective eyewear, chemical-resistant apron when mixing or loading, dust / mist respirator (MSHA / NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any R, P or HE filter

#### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. In the event that treated seeds are spilled and cannot be salvaged, completely cover them with soil.

**This label and the federal label for this product must be in the possession of the user at the time of pesticide application.**

Follow all applicable directions, restrictions, and precautions on this Supplemental label and the main EPA-registered label. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

## **DIRECTIONS FOR USE**

For the use of ENHANCE® as a treatment on grass seed: *Bromus* species (such as *B. riparius*, *B. marginatus* and *B. carinatus*) and the genus *Elymus* (Bottlebrush squirreltail, Big squirreltail etc.) and *Hordeum brachyantherum*. Not for use immediately before planting (such as through use of hopper boxes, planter boxes, slurry boxes, or tractor-mounted treaters), or any other uses covered by the Worker Protection Standard, 40 CFR part 170.

ENHANCE® helps protect grass seed against seed rot and damping-off diseases such as *Pythium* and *Rhizoctonia solani* and helps to control seedborne smut.

**DIRECTIONS** Measuring cup enclosed (One level cup holds approximately 1 ounce of product.)

GRASS SEED: Apply 6.4 ounces of ENHANCE® per 100 pounds of seed.

This rate is equivalent to using 0.8 grams a.i. of carboxin per kilogram of grass seed, and 0.76 grams a.i. of captan per kilogram of grass seed.

For best results, pre-measure the appropriate amount of ENHANCE® and an EPA-approved dye and place them in a mixing tank or other suitable device with the seed. Mix thoroughly to evenly coat the grass seed.

**SEED LABELING:** The U.S. Seed Act requires that treated seed be labeled with the following information:

“WARNING. This seed treated with carboxin and captan. Do not use treated seed for food, feed, or oil purposes.”

Use with an EPA-approved dye which imparts an unnatural color to the seed.

**USE RESTRICTION:** Do not graze or harvest for food or feed.
