TO: Office of the Governor
RE: Governor's Business & Economic Development Business Package
FROM: Colorado Association of Commerce & Industry
DATE: Tuesday, May 20, 2008

Colorado Association of Commerce & Industry's comments regarding Governor Ritter's Business and Economic Development Package....

“Because CACI’s mission is to champion a healthy business climate, CACI commends Governor Bill Ritter for advocating an economic development package that seeks to help state and local economic development officials recruit and retain companies, thus ensuring good jobs for working Coloradans. In particular, CACI appreciates the Ritter Administration’s efforts to work cooperatively with the CACI Tax Council over several months to improve various technical aspects of HB-1380. In addition, CACI views HB-1225 as the first step towards the eventual elimination--which CACI has championed for many years--of the onerous business personal property tax.”
