TESTIMONIALS

Good Morning Lenora,

I meant to send along this email for your testimonials from Ian Orme at CSU, his remark below on Jenny Bacon's hard work for him. I'm also going to [scan a note](#) and send it to you that I recently received from the Student Leadership/International Programs at CSU. I assisted them in getting 14 students out of Kenya after all the killings started from their political unrest. Many middle of the night emails floated between myself and Kenya, but thank goodness they are home safe now!

Hope all is well with you this new year. Come see us sometime!

Jill,

I'm not sure you are the correct person, so please pass this along if it isn't you. However, I just wanted to let a supervisor know how much our department appreciates Karen Hopf. She has been fabulous. Our department uses your services often and I've never had anything but positive, friendly, very helpful service when I call or email. I am fairly new in my position and I don't know what I am doing and again, she has helped me out immensely. We appreciate all that she does! Thanks

Just wanted you to know that Gini and I have had another great year working together. Gini is always right on it – she finds my MISTAKES! I can always count on her – she is very much into detail and promptness.

She always makes sure I know when she will not be in and makes sure I have Tammy to call. Hopefully we will have many years to work together.

Thanks again Gini for a great year.
