ALTERNATIVE MINIMUM TAX INSTRUCTIONS FOR PART-YEAR AND NONRESIDENTS

In the case of a nonresident, the Colorado alternative minimum tax shall be apportioned in the ratio of the modified federal alternative minimum taxable income from Colorado sources to the total modified federal alternative minimum taxable income.

In the case of a part-year resident, the Colorado alternative minimum tax shall be apportioned in the ratio of the modified federal alternative minimum taxable income applicable to that part of the year he was a resident plus the modified federal alternative minimum taxable income from Colorado sources, if any, during that part of the year he

was a nonresident over the total modified federal alternative minimum taxable income.

Adjustments relative to the standard deduction and itemized deductions would be Colorado adjustments to the extent of the Colorado adjusted gross income ratio as determined on line O of Form 104PN. Other adjustments would be Colorado adjustments to the extent they relate to items of income from Colorado sources. Tax preference items are Colorado items to the extent they relate to a business being carried on in Colorado.

EXAMPLE: Taxpayers are nonresidents of Colorado. Their federal adjusted gross income is \$100,000, \$9,000 of which is U.S. government interest. They have \$4,800 of non-Colorado state bond interest. Their federal itemized deductions are \$31,100, and their federal exemptions are \$5,000. \$29,000 of their federal adjusted gross income is Colorado source income. They have federal alternative minimum tax adjustments of \$27,100 relating to itemized deductions. Their tax preference items are \$28,000, \$24,000 of which relate to Colorado activities.
