

# FYI – For Your Information

## Alternative Fuel Income Tax Credits

### ALTERNATIVE FUEL VEHICLE CREDIT

Colorado income tax credits are available for the purchase of an alternative fuel vehicle, for a motor vehicle that is converted to use alternative fuel, or for the replacement of the power source with a power source that uses alternative fuel. To qualify, the vehicle must be titled and registered in Colorado. (§39-22-516, C.R.S.)

The credit is only available in the year during which the vehicle was purchased or converted. If the credit allowed exceeds the net tax liability for that year, any excess credit may be carried forward and claimed on future year returns for up to five years until the credit is fully utilized.

### Definition of Alternative Fuel

Alternative fuel means compressed natural gas, propane, methanol and ethanol, or any mixture thereof containing 85% or more of methanol or ethanol by volume with gasoline or other fuels, electricity, or any other fuels, which may include, but are not limited to, clean diesel and reformulated gasoline so long as these other fuels make comparable reductions in carbon monoxide emissions and brown cloud pollutants as determined by the air quality control commission.

### Computation of Credit

The credit is a percentage of

- a) the difference between the cost of the vehicle and the cost of the same or most similar vehicle that uses a traditional fuel, or
- b) the cost incurred in converting the vehicle to an alternative fuel, or
- c) the difference between the cost of replacing the power source and the cost of the same or most similar power source that uses a traditional fuel.

In a) and c) above, if the cost of the traditional fuel option is greater than or equal to the cost of the alternative fuel option, the credit will be \$0.

Colorado Department  
of Revenue  
Taxpayer Service Division  
1375 Sherman St.  
Denver, Colorado 80261

Assistance:  
(303)238-SERV(7378)

[www.taxcolorado.com](http://www.taxcolorado.com)

The percentage of the credit depends on the certification level of the vehicle and the year in which the expenditure is made.

Certification level	Tax year beginning prior to January 1, 2010
Low-emitting vehicle (LEV)	50%
Ultra-low-emitting vehicle or Inherently-low-emitting vehicle (ULEV or ILEV)	75%
Zero-emitting vehicle (ZEV or SULEV)	85%

Certification levels have the same meaning as set forth in part 88 of title 40 of the code of federal regulations. A near zero-emitting vehicle shall be treated as a zero-emitting vehicle. At this time the California certified SULEV (Super ultra low emitting vehicle) is the only vehicle rating that qualifies as a near zero-emitting vehicle.

The percentage of the credit is doubled, up to a maximum of 100%, if the vehicle or power source permanently displaces (will never be operated on Colorado highways in the future) a vehicle or power source that is ten years old or older. You must provide a copy of the bill of sale to an out of state buyer or salvage yard to claim this extra credit.

**Non-Qualifying Vehicles**

**"Mild" Hybrid Vehicles**

Mild hybrid vehicles that do not employ an alternative fuel to generate propulsion do not qualify for the alternative fuel vehicle credit.

**Neighborhood Electric Vehicles (NEV)**

NEVs do not qualify for the alternative fuel vehicle credit because they cannot be operated on Colorado highways.

[§39-22-516(2.5)(a)(III), C.R.S.]

**Used Vehicles**

A vehicle can qualify for this credit only one time. To claim the credit on the purchase of a used vehicle a taxpayer must:

(a) Provide a history of the vehicle and receipts indicating the prior owners and why they did not claim this credit.

(b) Provide the cost difference used in computing the credit and the basis on which it is computed.

The cost difference will usually decrease ratably with the decrease in the value of the vehicle. For example, if the price paid for the used vehicle is 40% of the original MSRP, then the credit allowed will be 40% of the credit available for that vehicle when new.

If a ten-year old vehicle had a new alternative fuel engine put in one-year ago, then the vehicle must be compared to the most similar vehicle valued with a one year old gas engine, not a ten-year old engine.

**Common Questions**

*Does a low emitting vehicle that runs on traditional fuel (gasoline or diesel fuel) qualify for this credit?*

No. The low emitting vehicle operates on traditional fuel and therefore could not be distinguished from the same model of car.

*Does the purchase of a vehicle that can operate solely on traditional fuel, but can also operate on alternative fuel at the owner's option, qualify for the alternative fuel vehicle credit?*

No. A vehicle that can operate solely on traditional fuel does not qualify for the alternative fuel vehicle credit. A qualifying vehicle must:

- operate solely on the alternative fuel, or
- operate on alternative fuel and traditional fuel at the same time, or
- operate on alternative fuel some of the time and on traditional fuel some of the time.

Furthermore, the cost of a flex fuel or dual fuel vehicle is the same as the most similar vehicle that can operate exclusively on traditional fuel, which results in a credit of \$0 (e.g. most vehicles that can use E85 fuel or biodiesel).

*Can a leased vehicle qualify for this credit?*

Lessees of qualifying vehicles are eligible for the alternative fuel vehicle credit. The available credit is calculated by subtracting the value of the vehicle when the lease expires from the cost of the vehicle to the lessor at the time of the lease transaction (capitalized cost), and dividing that amount by the cost of the vehicle to the lessor at the time of the lease transaction. This percentage is then multiplied by the qualifying expenses to determine the amount of the expenditure that can be used in computing the amount of the credit. Only the lessor or lessee of the vehicle may claim the credit. If the vehicle is converted at the factory, the lessor has the option of claiming the credit or passing the right to claim the credit to the lessee. If the lessee converts the vehicle, then only the lessee may claim the credit.

**Example:** Becky leases a 2008 Honda Civic Hybrid valued at \$22,600. The vehicle will have a value of \$7,100 when the lease expires. The credit is computed as follows:

a. Value at time of lease	\$22,600
b. Value at end of lease	\$ 7,100
c. Line a minus Line b	\$15,500
d. Line c divided by Line a	68.58%
e. Full credit for vehicle	\$ 2,599
f. Credit available on lease line d times line e	\$ 1,782

See *Credits Available for Selected Common Vehicles* Charts in this FYI.

- Ford Escape Hybrid (2005, 2006, 2007, 2008, 2009)
- Honda Accord Hybrid (2005, 2006, 2007)
- Honda Civic GX (2004, 2005, 2006, 2007, 2008, 2009)
- Honda Civic Hybrid (2003, 2004, 2005, 2006, 2007, 2008, 2009)
- Honda Insight (2002, 2003, 2004, 2005, 2006, 2010)
- Lexus RX 400h Hybrid (2006, 2007, 2008)
- Lexus LX RX 400h Hybrid (2008)

- Saturn Aura Hybrid (2008, 2009)
- Saturn Vue Hybrid (2008, 2009)
- Tesla Roadster (2009)

**ALTERNATIVE FUELS  
REBATE-GOVERNMENTAL AND  
CHARITABLE ORGANIZATIONS**

**NOTE:** See FYI General 20 for rebates resulting from costs incurred on or after July 1, 2009. The following information applies only to rebates resulting from costs incurred prior to July 1, 2009.

If the motor vehicle that qualifies for the alternative fuel vehicle credit is owned by the State of Colorado, a political subdivision of the state, or a tax exempt organization, and is used in connection with the official activities of the entity, the entity will be eligible for a rebate computed in the same manner as the credit that would have been calculated under the guidelines of the alternative fuel vehicle credit using the percentages in the chart on page 4. Each qualified entity is limited to \$350,000 per state fiscal year in total rebates paid. (§39-33-102, C.R.S.).

Qualified entities may apply for this rebate with the following forms:

- Alternative Fuels Rebate Instructions" (DR 0166)
- "Alternative Fuels Rebate Form" (DR 0167)

The percentage of the credit is determined by the tax year in which the costs are incurred:

- Tax year beginning prior to Jan. 1, 2006: 50%
- Tax year beginning prior to Jan. 1, 2009: 35%

**Increased Credit**

- 1) If 70% or more of the alternative fuel dispensed each year by the refueling facility is derived from a renewable energy source for ten years (certification must be provided upon request); and/or
- 2) If the refueling facility is generally accessible for use by persons in addition to the person claiming the credit,

The percentage of the credit will be multiplied by 1.25.

**Limitations to the Credit**

The credit claimed by a taxpayer is limited to \$400,000 in any consecutive five-year period for each refueling facility.

<b>Alternative Fuels Rebate Chart</b>		
<b>Certification level</b>	<b>For costs incurred prior to July 1, 2006</b>	<b>For costs incurred on or after July 1, 2006, but prior to July 1, 2009</b>
Low-emitting vehicle (LEV)	50%	25%
Ultra-low-emitting vehicle or Inherently-low-emitting vehicle (ULEV or ILEV)	75%	50%
Zero-emitting vehicle (ZEV or SULEV)	85%	75%

**ALTERNATIVE FUEL REFUELING FACILITY CREDIT**

For tax years beginning prior to January 1, 2011, Colorado income tax credits are available for the construction, reconstruction, or aquisition of an alternative fuel refueling facility that is directly attributable to the storage, compression, charging or dispensing of alternative fuels to motor vehicles. [§39-22-516(2.7), C.R.S.]

This credit cannot be claimed on a refueling facility, or on any equipment used in connection with that facility, if **any** taxpayer has ever claimed the alternative fuel refueling facility credit for that facility.

To the extent the allowable credit exceeds the tax liability, the excess may be carried forward for up to five years.

### ***Common Questions***

*What percentage of the costs of a new facility will be eligible for the credit when the project includes a convenience store and traditional gas pumps?*

Only the incremental costs of the alternative fuel distribution system will qualify for the credit. No portion of the cost of the convenience store and other fuel systems will qualify for the credit.

*What costs qualify for the alternative fuel refueling facility credit when a facility for which a credit was previously claimed is updated and / or expanded?*

None. The law does not allow a credit to be claimed on a facility for which the credit was previously claimed.

### ***ENERGY CONSERVATION REBATE***

Any expenses reimbursed by a rebate issued by the Office of Energy Conservation or any other entity will not qualify for the income tax credits or rebate described in this FYI.

### **Credits Available for Selected Common Vehicles**

The amount of the credit available has been computed based on a price comparison with the most similar vehicle using manufacturer and industry data.

#### **Ford Escape Hybrid**

2005 Ford Escape (Front Wheel Drive):  
Incremental price difference \$3,245  
Tax credit available \$ 2,758

2005 Ford Escape (Four Wheel Drive):  
Incremental price difference \$3,290  
Tax credit available \$2,797

2006 Ford Escape (Front Wheel Drive):  
Incremental price difference \$3,325  
Tax credit available \$ 2,826

2006 Ford Escape (Four Wheel Drive):  
Incremental price difference \$3,360  
Tax credit available \$2,856

2007 Ford Escape (Front Wheel Drive):  
Incremental price difference \$2,285  
Tax credit available \$ 1,942

2007 Ford Escape (Four Wheel Drive):  
Incremental price difference \$2,320  
Tax credit available \$1,972

2008 Ford Escape:  
Incremental price difference \$4,020  
Tax credit available \$3,417

2009 Ford Escape:  
Incremental price difference \$4,595  
Tax credit available \$3,906

#### **Honda Accord Hybrid**

2005 Honda Accord:  
Incremental price difference \$3,915  
Tax credit available \$ 2,936

2006 Honda Accord:  
Incremental price difference \$3,775  
Tax credit available \$ 3,209

2007 Honda Accord:  
Incremental price difference \$3,775  
Tax credit available \$ 3,209

#### **Honda Civic GX**

2004 Honda Civic GX (Natural Gas):  
Incremental price difference \$4,500  
Tax credit available \$3,825

2005 Honda Civic GX (Natural Gas):  
Incremental price difference \$4,500  
Tax credit available \$ 3,825

2006 Honda Civic GX (Natural Gas):  
Incremental price difference \$4,000  
Tax credit available \$ 3,400

2007 Honda Civic GX (Natural Gas):  
Incremental price difference \$6,830  
Tax credit available \$ 5,806

2008 Honda Civic GX (Natural Gas):  
Incremental price difference \$6,995  
Tax credit available \$ 5,946

2009 Honda Civic GX (Natural Gas):  
Incremental price difference \$7,100  
Tax credit available \$ 6,035

#### **Honda Civic Hybrid**

2003 Honda Civic (Automatic):  
Incremental price difference \$3,215  
Tax credit available \$2,411

2003 Honda Civic (Manual 5-speed):  
Incremental price difference \$3,015  
Tax credit available \$2,261

2004 Honda Civic (Automatic):  
Incremental price difference \$3,440  
Tax credit available \$2,580

2004 Honda Civic (Manual 5-speed):  
Incremental price difference \$3,240  
Tax credit available \$2,430

2005 Honda Civic (Automatic):  
Incremental price difference \$3,075  
Tax credit available \$ 2,306

2005 Honda Civic (Manual 5-speed):  
Incremental price difference \$2,875  
Tax credit available \$ 2,156

2006 Honda Civic:  
Incremental price difference \$3,375  
Tax credit available \$2,531

## Credits Available for Selected Common Vehicles

The amount of the credit available has been computed based on a price comparison with the most similar vehicle using manufacturer and industry data.

### ***Honda Civic (continued)***

2007 Honda Civic:  
Incremental price difference \$3,675  
Tax credit available \$2,756

2008 Honda Civic:  
Incremental price difference \$3,465  
Tax credit available \$2,599

2009 Honda Civic:  
Incremental price difference \$3,520  
Tax credit available \$ 2,640

### **Honda Insight**

2002 Honda Insight:  
Incremental price difference \$3,970  
Tax credit available \$3,375

2003 Honda Insight (Automatic):  
Incremental price difference \$3,670  
Tax credit available \$3,120

2003 Honda Insight (Manual 5-speed):  
Incremental price difference \$3,470  
Tax credit available \$2,603

2004 Honda Insight (Automatic):  
Incremental price difference \$5,070  
Tax credit available \$4,310

2004 Honda Insight (Manual 5-speed):  
Incremental price difference \$5,070  
Tax credit available \$3,803

2005 Honda Insight (Automatic):  
Incremental price difference \$5,545  
Tax credit available \$4,713

2005 Honda Insight (Manual 5-speed):  
Incremental price difference \$5,575  
Tax credit available \$ 4,181

2006 Honda Insight (Automatic):  
Incremental price difference \$5,220  
Tax credit available \$4,437

2006 Honda Insight (Manual 5-speed):  
Incremental price difference \$5,020  
Tax credit available \$ 3,765

### ***Honda Insight (continued)***

2010 Honda Insight  
Incremental price difference \$3,480  
Tax credit available \$ 2,958

### **Lexus GS 450h Hybrid**

2007 GS 450h:  
Incremental price difference \$7,590  
Tax credit available \$ 6,452

2008 GS 450h:  
Incremental price difference \$6,515  
Tax credit available \$ 5,538

2009 GS 450h:  
Incremental price difference \$7,625  
Tax credit available \$ 6,481

### **Lexus LS 600h Hybrid**

2008 LS 600h L:  
Incremental price difference \$16,210  
Tax credit available \$ 13,779

2009 LS 600h L:  
Incremental price difference \$23,990  
Tax credit available \$ 20,392

### **Lexus RX 400h Hybrid**

2006 Lexus RX 400h  
(purchased prior to 11/1/05):  
Incremental price difference \$4,395  
Tax credit available \$ 3,736

2006 Lexus RX 400h:  
(purchased on or after 11/1/05):  
Incremental price difference \$4,050  
Tax credit available \$ 3,443

2007 Lexus RX 400h:  
Incremental price difference \$4,595  
Tax credit available \$ 3,906

2008 Lexus LX RX 400h:  
Incremental price difference \$3,780  
Tax credit available \$ 3,213

*Chart continued on page 8. . .*

### Credits Available for Selected Common Vehicles

The amount of the credit available has been computed based on a price comparison with the most similar vehicle using manufacturer and industry data.

#### Mercury Mariner Hybrid

2006 Mercury Mariner:  
Incremental price difference \$3,715  
Tax credit available \$3,158

2007 Mercury Mariner:  
Incremental price difference \$2,665  
Tax credit available \$2,265

2008 Mercury Mariner:  
Incremental price difference \$4,105  
Tax credit available \$3,489

2009 Mercury Mariner:  
Incremental price difference \$4,650  
Tax credit available \$3,953

#### Toyota Camry Hybrid

2007 Toyota Camry:  
Incremental price difference \$2,665  
Tax credit available \$2,265

2008 Toyota Camry:  
Incremental price difference \$2,322  
Tax credit available \$1,974

2009 Toyota Camry:  
Incremental price difference \$2,404  
Tax credit available \$2,043

#### Toyota Highlander Hybrid

2006 Toyota Highlander (Base Grade)  
(purchased prior to 11/1/05):  
Incremental price difference \$4,555  
Tax credit available \$3,872

2006 Toyota Highlander (Limited Grade)  
(purchased prior to 11/1/05):  
Incremental price difference \$4,500  
Tax credit available \$3,825

2006 Toyota Highlander (Base Grade)  
(purchased on or after 11/1/05):  
Incremental price difference \$4,305  
Tax credit available \$3,659

2006 Toyota Highlander (Limited Grade)  
(purchased on or after 11/1/05):  
Incremental price difference \$4,220  
Tax credit available \$3,587

2007 Toyota Highlander (Base Grade):  
Incremental price difference \$4,525  
Tax credit available \$3,846

2007 Toyota Highlander (Limited Grade):  
Incremental price difference \$4,075  
Tax credit available \$3,464

2008 Toyota Highlander (Base Grade):  
Incremental price difference \$4,815  
Tax credit available \$4,093

2008 Toyota Highlander (Limited Grade):  
Incremental price difference \$5,180  
Tax credit available \$4,403

2009 Toyota Highlander:  
Incremental price difference \$5,515  
Tax credit available \$4,688

#### Toyota Prius

2001 Toyota Prius:  
Incremental price difference \$4,172  
Tax credit available \$3,546

2002 Toyota Prius:  
Incremental price difference \$4,622  
Tax credit available \$3,929

2003 Toyota Prius:  
Incremental price difference \$3,612  
Tax credit available \$3,070

2004 Toyota Prius:  
Incremental price difference \$3,150  
Tax credit available \$2,678

2005 Toyota Prius:  
Incremental price difference \$4,040  
Tax credit available \$ 3,434

2006 Toyota Prius:  
Incremental price difference \$3,865  
Tax credit available \$ 3,285

2007 Toyota Prius:  
Incremental price difference \$3,545  
Tax credit available \$ 3,013
