DENVER – November 24, 2009 – The Department of Health Care Policy and Financing announced today that it has awarded \$16,920,000 to 32 health care providers who serve the uninsured. Funding for the awards is possible through the Primary Care Fund.

The Primary Care Fund was established when voters approved an increase in Colorado's tobacco tax in 2004. This fund supports providers to build infrastructure and provide health services to uninsured Coloradans who are not eligible for Medicaid, the Child Health Plan *Plus* (CHP+) program or any other insurance.

"MCPN has been incredibly grateful for being able to expand its services to the uninsured in Colorado through the Primary Care Fund," said Dave Myers, president and CEO of the Metro Community Provider Network. "Since the first grant award, we have been able to increase the number of people served by 30%. Those are a significant number of people receiving health care who would otherwise not have access were it not for the Primary Care Fund." Services provided include medical, dental, pharmacy services, care-coordination, and case management.

The following health care providers received funding for the current State Fiscal Year 2009-10; July 1, 2009 through June 30, 2010:

	Applicant / Service Area	Medically Indigent Persons Served	Percent of Funds Awarded	Total Anticipated Payment
