

CO-CHAMP

Colorado Comprehensive Health Access Modernization Program HRSA State Health Access Program (SHAP) Grant

June 1, 2010

Overview

A five year competitive grant awarded from Health Resources & Services Administration (HRSA) to HCPF in September 2009. Colorado has requested \$42.9 million over the five-year period, but states must reapply for funding every year. Subsequent years of funding are contingent upon meeting performance measures and the availability of federal funding.

Program Status:

- Applied for Year 2 funding in March 2010.
- Staff Expansion (grant funded)
 - 16 employees hired
 - 2 contractors hired
 - 6 positions on-hold
 - 4 positions in progress

Colorado Health Care Affordability Act (HB 09-1293)

Several CO-CHAMP projects are linked to the implementation of the Health Care Affordability Act, which expands coverage to more than 100,000 uninsured Coloradans over the next five years. HRSA SHAP grant funding will support the following three HB 09-1293-related activities and include: (1) Maximizing Outreach, Retention & Enrollment, (2) Eligibility Modernization, and (3) Benefit and program design: Adults without Dependent Children & Disabled Buy-In.

1. Maximizing Outreach, Retention and Enrollment (MORE)

Outreach and marketing campaigns to inform the expansion populations of the availability of public health insurance programs and assist newly eligible expansion populations with the application process and how to access health care services in appropriate settings.

- MORE Grant Application to be released in June.
- Purchase Orders for 2 Focus Groups and a Needs Assessment to be executed in June.
- PEAK Tool-kit Purchase Order SOW in Procurement.
- In process of scheduling fall stakeholder meetings (state-wide).

2. Eligibility Modernization: Streamlining the Application Process

With the additional 100,000 Coloradans potentially applying for health care coverage, the Department has identified new strategies to make the eligibility and enrollment process more efficient and cost-effective. Under this project, the Department plans to create interfaces with other state and federal databases to electronically verify required client documentation. An online application for the expansion populations will be implemented to eliminate the need for applicants to submit paper application.

- **Interfaces**
 - Year 1 Scheduled Release
 - IEVS (Income Verification): On Target
 - SSA (Citizenship Verification): On Target
 - Vital Statistics (Citizenship Verification): Behind Schedule
 - Year 2 Scheduled Release
 - DMV (Identity Verification): Ahead of Schedule
- **Express Lane Eligibility**
 - Year 1 Scheduled Release
 - Free and Reduced Lunch: Behind Schedule
 - Year 2 Scheduled Release
 - Income Tax Records: On Target
 - Passive Re-enrollment: On Target

- **Executive Order D2010-002 'Streamlining the Application Process'**
 - Held the Steering Committee Kick-off meeting on May 12, 2010 (DOR, DPHE, HCPF & OIT).
 - Agreed to break out into several smaller meetings to focus on specific interfaces.
 - Follow-up meetings will be held in July.

3. **Benefit and Program Design: Adults without Dependent Children (AwDC) & Buy-In for Individuals with Disabilities (Buy-In) Programs**

The Department will develop potential program designs, including models for premium structures, and cost-sharing provisions for the adults without dependents and the buy-in for individuals with disabilities expansion populations. The Department will hire contractors to conduct an actuarial study and fiscal analysis in the development of possible program models.

- AwDC and Buy-In *Benefit Design and Actuary* RFP in Procurement.
- *Mathematica* was hired in May to analyze the client population and benefit design features for the development of the AwDC program. A draft report was delivered May 31, 2010. A final report is expected the by June 25, 2010.
- Purchase Order for Peregrine Management Corporation to supply data management services for Expanded Population providers currently in Clearance and scheduled to be executed in June.

Premium Assistance

Through federal authority, public health insurance programs for children can help eligible persons pay the premiums required to enroll in their private health insurance plans. The Department will expand its pilot premium assistance program, CHP+ at Work, statewide. The current program design allows for a direct subsidy (not to exceed \$100 per eligible child per month) to families who enroll their CHP+ child in the parents' employer-sponsored health insurance plan.

- Currently working on CBMS Amendment and MMIS to solidify launch date.
- FTE for the CHP+ Premium Assistance Contract Manager was posted on 04/14/2010; interviews currently in progress. This position will focus on the expansion of the program to multiple employers.

Three-Share Community Projects

A three-share health coverage plan is a basic plan that brings together employers, workers without coverage and outside funding to create a coverage plan for those workers who have no other access to health insurance. HRSA SHAP grant funds will support 2 three-share community projects.

1. **Health Access Pueblo (HAP)**

A community-based non-profit organization created to provide high quality, affordable, basic health coverage for the uninsured who work for employers based in Pueblo County. Grant funding will be used to increase participation in HAP through a robust marketing and advertising plan.

- Executing contract in June

2. **San Luis Valley Three Share (CarePoint)**

The goal of CarePoint is to provide a health coverage program aimed at the working uninsured in employer groups where the median hourly wage is \$15 per hour or less and the employer group currently provides no health insurance. Grant funding will be used to initially fund the community share in this pilot program.

- Executing contract in June
- Acquired legal entity on May 1, 2010.
- Currently have 4 employers (30 enrollees) participating.

Evidence Based Benefit Design

Many states are working to develop new, less expensive, portable benefit packages for small employers and part-time and seasonal workers. With HRSA SHAP funding, the Dr. A.J. Kawwar Foundation will work with providers, insurers, and consumers to develop an evidence-based tool that can be used to design health benefit packages in private and public insurance products. These products will be offered to a targeted population of uninsured Coloradans through a regional pilot program and could eventually be offered statewide.

- Contract currently in Clearance and scheduled to be executed in June.
