Colorado Department of Revenue	

#### ANNUAL REPORT OF THE EXECUTIVE DIRECTOR

During Fiscal Year 1997-98, the Department of Revenue demonstrated again that we are committed to providing the best possible service to the citizens of Colorado. We do so by competently fulfilling our statutory duties, creating new innovations and continually improving our organizational efforts.

As one of our greatest challenges, the department was instrumental in helping the Governor and Legislature plan for the first TABOR refund pursuant to Section 20, Article X of the State Constitution. This effort required making recommendations regarding eligible population groups, implications of possible federal taxation, efficient methods of administering the refund and the cost of various alternatives. After an October 1997 special session enacted a refund law, the department led public information efforts to tell an estimated 2.6 million people about how to claim this refund. The department then successfully issued those refunds, in addition to its normal income tax processing workload.

In charting its course to the future, Revenue has already begun preparing for the changes that will, over the next few years, significantly affect operations and personnel.

Use of technology to improve service continued at the Motor Carrier Service Division, which installed computers to increase efficiency for both the agency and the trucking industry.

Continuous Improvement Teams of Driver's License employees have implemented or recommended organizational changes regarding office design, process flow to reduce wait times, the central telephone information system and even new uniforms, to improve service and convey a professional demeanor.

We provided training, informational materials and opportunities for discussion to prepare all DOR employees for the major changes that will come when Revenue implements the state's new compensation plan, Colorado Peak Performance.

Also, the taxation and information technology divisions spent considerable effort on the development of a new income tax computer system that will replace the current 30-year-old infrastructure. Although completion of the system remains a goal and challenge for the department, in January 1999, taxpayers will have two new choices for filing returns: Telefile (over the telephone) and Netfile (over Internet). Some qualifying taxpayers may also direct the department to calculate their tax for them (File-4-Me). Colorado is the first state to offer all three options.

As Revenue looks to the millennium, I feel confident we have set the right course toward efficiency, service and fairness in discharging our responsibilities to the public.

I am pleased to present to the Governor and the General Assembly the 58th annual report covering Department of Revenue operations and activities from July 1, 1997 to June 30, 1998.

Respectfully,

Renny Fagan Executive Director

Kenny Jeegen

### COLORADO DEPARTMENT OF REVENUE

### CHARTING A COUSRE TO THE FUTURE

Every viable organization, whether public or private, must balance present accomplishments with future goals. The right mixture of short and long-term planning results in steady progress toward a defined "destination" - excellence. In charting its course to the future and in meeting its current responsibilities, the Department of Revenue achieved much in Fiscal 1998.

Along with most other agencies, Revenue felt the impact of a burgeoning population in need of and entitled to quality service. A great deal of energy, thought and action went into meeting these demands. At the same time, the department devoted the same energy and imagination toward plans for coping with the impact of future growth in Colorado. As an example, teams of Driver's License employees implemented several changes in processes and office design to reduce wait times and speed up delivery of service.

As the state was obliged for the first time to refund a budget surplus, Revenue helped the Governor and General Assembly set the pattern by which that surplus was distributed to the public in January 1998. The same formula, somewhat modified, will again be utilized in returning an even larger surplus in 1999.

The Department continues efforts to modernize the income tax accounting computer system and prepare for Y2K. As a result, taxpayers will be able to file by telephone or Internet in 1999.

In a move toward improving working relations with the industry, Motor Carrier Services, in conjunction with the Colorado Motor Carriers Association, formed an advisory committee made up of public and private agencies to help shape and guide public policy regarding motor carrier operations in the state. This and other actions earned MCS a Friend of Trucking award from CMCA, the first state agency to be so honored.

Virtually every Revenue division now has an Internet web page. Hits rose from 186,245 in FY97 to 675,947 in FY98. The department foresees future incremental growth as the Internet becomes the preferred means of information access.

Due to a legislative appropriation, the department acquired land and completed preliminary plans for consolidating all divisions, except the Lottery, at our Lakewood headquarters.

All employees received information and training in preparation for Colorado Peak Performance and resulting changes in methods of compensation.

Among other accomplishments in FY 98:

- Income tax electronic filings increased by 34 percent, from 127,204 in FY97 to 170,901 in FY98. (In 1994, the first year of electronic filing, the department received 2,300 returns.)
- Taxpayer Service used major switching enhancements and innovations in staffing to handle a 25 percent increase in telephone calls and extended phone hours to evenings and Saturdays.
- For speed in handling and faster cash processing, the department purchased a new machine that can detect and sort unopened envelopes containing checks.
- For the second consecutive year, the Lottery posted record sales. The General Assembly renewed the Lottery for another 10 years.

- The Tax Auditing & Compliance Division began a sticker compliance program in cooperation with the Denver Police Department to curb sales of contraband cigarettes and instituted programs to curtail fuel tax evasion while protecting the consumer. The Division also purchased equipment needed to investigate fraud involving computers and automated systems.
- In conjunction with the State Controller's Office the department participated in a vendor offset program that intercepts payments to satisfy delinquent taxes owed by vendors contracting with the state. The program collected \$1.3 million during FY98.
- The Gaming, Racing and Liquor Divisions continue to provide competent and fair enforcement of the laws regulating their respective industries. The Liquor Division led a recodification of the complicated liquor laws. Racing streamlined its regulations, eliminating redundant and obsolete rules. Gaming acted to maintain integrity in the growing casino business.

The Department of Revenue strives consistently to meet its goals and fulfill its mission. As we head to the millennium our course will remain clear.

# OUR MISSION.

Our mission is to provide exceptional service in an effective, innovative and fair manner that instills the public with confidence, while fulfilling our duties to collect revenues, license qualified persons and enforce the laws in an atmosphere that promotes dynamic solutions through meaningful employee involvement.

Individuals, Fiduciaries, 5% of Colorado taxable and Corporations income\*

\*Colorado taxable income is federal taxable income with Colorado modifications and adjustments.

Imposed upon the privilege of earning/receiving income in (or as resident of) the state. Corporations are not "residents." Individuals and fiduciaries may be residents or non-residents. Residency determines whether 100% or some lesser proportion of the entity's income is allocated to Colorado. Procedures for collections are analogous to federal procedures (e.g., withholding, estimated tax declarations, etc.). Residents are allowed credits for tax payments to other states. Return requirements are annual, in general, and are due on the 15th day of the 4th month following the tax year's close. Other requirements are imposed for withholding and estimated tax payments.

The tax is one mill for each passenger transported for a distance of one mile outside the boundaries of a city. A quarterly tax return is due on the last day of the month following the end of each quarter. Gasoline tax is imposed on licensed distributors acquiring gasoline for storage and subsequent sale based on gross gallons acquired less a 2% shrinkage allowance. Using net gallons, the tax is computed less a 1/2% allowance for collection costs. Special fuel tax is imposed on the first sale and is based on gross gallons. Both gasoline and special fuel tax are reported each month on the gasoline and special fuel distributor's monthly report, which is due on the 25th day following the end of the reporting month. Owners and operators of commercial vehicles pay the special fuel tax each quarter based on the amount of fuel used on Colorado roads. A quarterly special fuel use tax return is due only if nontaxed fuel is used on Colorado roads. The return is due the last day of the month following the end of the guarter.

#### State Sales and Use Taxes: Title 39. Article 26

Local taxes are additional.

Sales/Use 3.0% of taxable value

Sales tax is levied upon purchase price of retail sales of tangible personal property. Sales tax is imposed upon the purchaser of tangible personal property and collected and remitted by vendors. If no sales tax is paid, the buyer must remit use tax to DOR. Sales and use tax also applies to certain defined services (e.g., telephone service). Taxable items include lodging, restaurant food/drink sales, rental autos, and similar items. Sales tax returns are due monthly (if tax liability is \$300 or more) or quarterly (if tax liability is less than \$300). Wholesalers file annually. Vendors are given a discount of 3 1/3% of taxes due to cover collection expense.

Consumer use tax must be paid by the purchaser of goods in cases when the seller did not or could not collect sales tax (for example, purchases from an out-of-state retailer who does not collect Colorado sales tax). Use tax is deemed to be owed when the article purchased is actually used or after delivery is completed, as well as when keeping, storing, withdrawing from storage, moving, installing, or performing any other act by which control of the article is assumed by the purchaser. Retailer use tax applies to out-of-state vendors that solicit or sell tangible personal property to Colorado residents but that do not maintain a place of business in Colorado.

#### Sales Tax Glossary:

> services, both taxable and nontaxable, from Colorado retail sales tax returns.

purpose of resale.

### LEGISLATIVE DIGEST

Following is a list of new laws enacted by the General Assembly during its 1998 regular session and 1997 extraordinary session that pertain to the Department of Revenue. Effective dates are listed after each summary.

#### CIGARETTE AND TOBACCO PRODUCTS LAWS

HB 1328-Authorizes county commissioner boards to enact local resolutions or ordinances prohibiting minors from possessing cigarettes or tobacco products. 07/01/98

**HB** 1387–Prohibits businesses that sell tobacco at retail from selling it to persons under 18 years of age. Establishes a defense for retailers selling tobacco who reasonably relied on false identification. Designates the liquor enforcement division as the lead state enforcement agency. Establishes procedures for hearing and appeals for alleged violations. Specifies penalties and directs fines. 07/01/98

#### **ESTATE TAX LAWS**

**HB 1271**–Amends the definitions of "federal additional estate tax return" and "qualified heir" for the purposes of the Colorado estate tax laws. Prevents the federal government from collecting estate tax revenues that the state would normally receive under the federal internal revenue code. Applies to estates of decedents who die on or after January 1, 1998. 07/01/98

#### **INCOME TAX LAWS**

HB 1112-On or after January 1, 1999, increases the maximum property tax and rent assistance grants for elderly and disabled persons from \$500 to \$600 and from \$160 to \$192, respectively. The combination of the increase in the amount of the credit and the reduced phaseout percentage (from 20% to 10%) increases the number of individuals who qualify for the grants. Single persons with incomes up to \$11,000, rather than \$7,500, and married persons with incomes up to \$14,700, rather than \$11,200, will qualify for the grants or a portion thereof. 08/05/98

**HB 1120**–Reestablishes and continues for 2 years, the state income tax voluntary contribution designation in support of the United States olympic committee for the income tax year commencing January 1, 1998. Subjects the olympic tax checkoff program to automatic elimination if the program does not meet or exceed 10% of the amount contributed to all voluntary tax checkoffs during the 2-year period. 03/23/98

**HB 1169**– Modifies the formula for calculating the income tax credit allowed for purchasing a motor vehicle that uses an alternative fuel or for converting a vehicle to use

an alternative fuel. Modifies the definition of "alternative fuel" to conform with the definition used for the clean fuel fleet program. The new definition includes ethanol or any fuel mixture containing at least 85 percent ethanol. Modifies the qualifications for the income tax credit, limiting it to vehicles used for business purposes. Additionally, vehicles purchased or converted under the requirements of the clean fuel fleet program do not qualify for the credit. Provides an income tax credit for a portion of the cost incurred in constructing or acquiring an alternative fuel refueling facility. Establishes an alternative fuels cash rebate program for state and local governments and tax-exempt entities for the purchase of vehicles that utilize, or the conversion of vehicles to utilize, alternative fuels. Authorizes the executive director of the department of revenue to promulgate rules for granting the rebates. 06/01/98

### LIMITED STAKES GAMING

The Division of Gaming regulates limited stakes gaming in the three mountain towns of Cripple Creek, Central City, and Black Hawk. Pursuant to a constitutional amendment, passed in November of 1990, gaming became legal in licensed establishments as of October 1, 1991.

Before any monies are distributed from the limited gaming fund, the administrative expenses of the Division of Gaming are paid, and statute requires that two months of operating expenses for the administration of gaming to be held in escrow at the end of each fiscal year. Tax revenues and fees deposited in the limited gaming fund are based on a graduated tax levied upon adjusted gross gaming proceeds, application and licensing fees, device fees, and any fines levied by the Division.

### LOTTERY

In Fiscal Year 1998, the Lottery produced record-setting sales of \$374.2 million. Scratch games sales accounted for \$225.2 million, Lotto sales reached \$127.4 million, Cash 5 produced sales of \$16.1 million, and sales of Keno and Perfecto games together were \$5.5 million.

In April 1998, Perfecto games were launched. Colorado is the first state to offer the Perfecto concept, which combine the play action of scratch games with the drawing action of an on-line lotto game, like Lotto and Cash 5. About every 13 weeks a new Perfecto game is introduced.

Lottery games paid out an average of 59 percent in prizes in Fiscal Year 1998, for an annual total of \$222.4 million. Lottery retailers received \$25.4 million in commissions and bonuses over the same period.

Results from a five-month audit of the Colorado Lottery showed that it has operated in a manner that is consistent with Colorado statutes. In its report to the Legislative Audit Council, the State Auditor's Office wrote, "Nothing came to our attention that indicated the Lottery should not be continued." The Colorado Assembly used the results of the audit when it decided to renew the Lottery for another ten years.
