

Severance Tax - Oil and Gas Severance Tax Account

Question: How do I close an oil and gas severance tax account?

Answer: To close an oil and gas severance tax account (or any severance tax account), submit form DR 1102 to indicate the day the account should be closed. Failure to close a severance tax account, whether the account is for an individual or business entity, will result in a nonfiler notice for future unfiled returns and potential billing notices.

You may also close your account by contacting the Customer Support Call Center at (303) 238-SERV (7378).
