THIS SECTION FOR APPOINTING AUTHORITY ONLY

Appointing authority, your input will be verified and approved by the human resources office before any items in these sections are accepted as official.

V. STAFF AUTHORITY

Some positions are delegated non-supervisory authority where agency management routinely relies on essential consultation when deciding broad, critical program or policy direction. These relatively rare and unique positions have a level of influence such that management decisions are **not** made without the position's essential advice and counsel, as demonstrated by direct impact and consequences of failure on agency mission, finances, productivity, and constituents. This authority **is not** a function of longevity, outstanding performance, or service as a resource by virtue of being the only position or most knowledgeable person in the unit who performs this work. Additional information or supplemental forms may be required, along with this section.

Check the applicable category of staff authority. A written endorsement or delegation from agency management (division director or equivalent, or higher) is required.

_____ **Staff Authority** directly influences department or campus-wide management decisions in programmatic areas of expertise. Staff authorities have a specialized level of expertise for the program that does not exist in any other unit, program, or assignment. Management and peers agency-wide regularly rely on the staff authority when considering program direction.

What major program area of expertise is the basis for staff authority designation?

Provide at least one example of where this position's guidance or recommendations resulted in the subsequent adoption of a new or revised program or policy direction that had programmatic impact on the entire agency.

_____ **Senior Authority** directly influences management decisions statewide. Senior authorities have a unique level of expertise that does not exist in any other agency.

What major program area of expertise is the basis for senior authority designation?

Provide at least one example of a strategy, guideline, rule, etc., where this position's findings resulted in the subsequent adoption of a new or revised program or policy that had programmatic impact in a different department(s).

_____ **Leading Authority** directly influences management decisions beyond State boundaries. Leading authorities have a rare level of expertise that does not exist in Colorado, and possibly other state governments. This position is recognized as a regional, national, or international expert.

What major program area of expertise is the basis for leading authority designation?

How is this position recognized as an expert regionally, nationally, or internationally?

Why does the agency and State of Colorado need this position to function as a leading authority?
