

Building Healthy Meals

Try these tips to build your low-fat meals

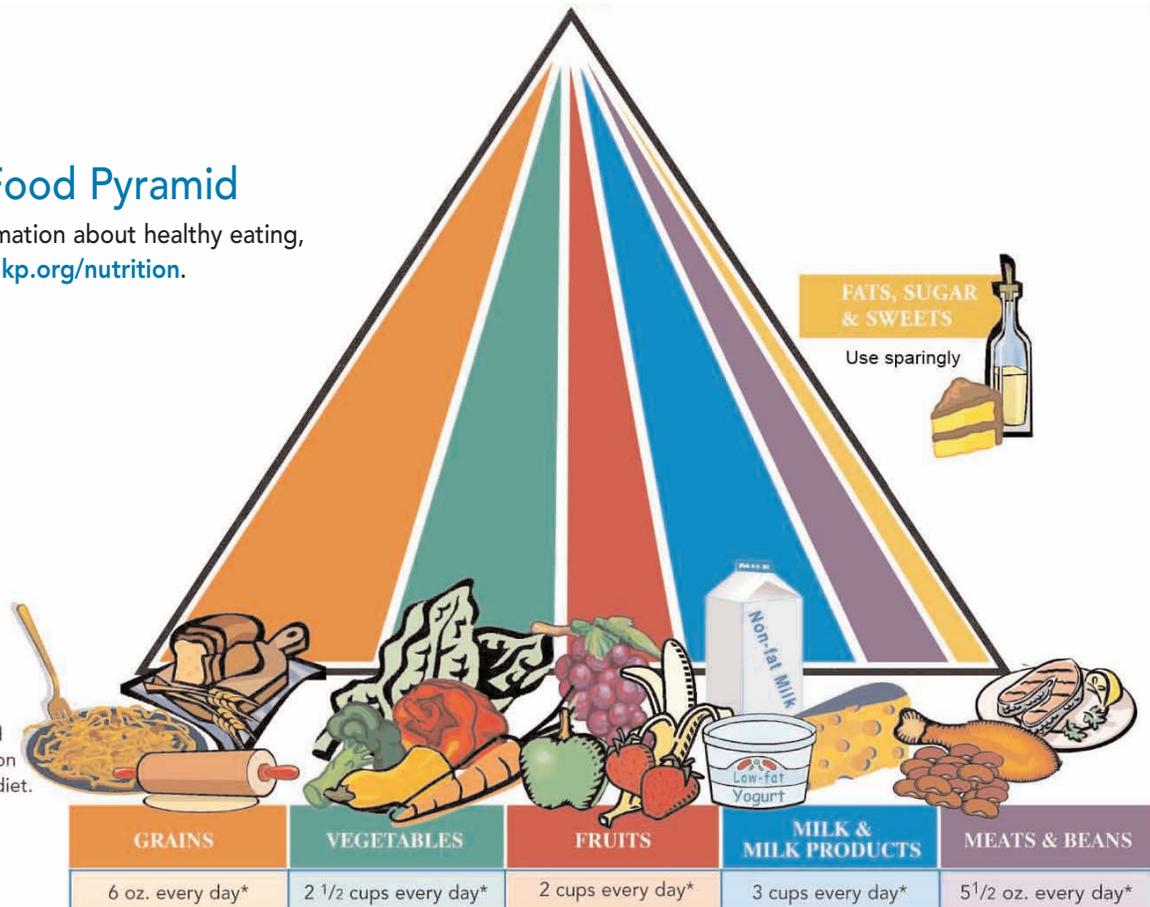

- Eat grains, especially whole grains, at every meal.
- Enjoy a fruit or vegetable at each meal and as snacks during the day.
- Limit meat and poultry to 4 to 6 ounces per day. Limit egg yolks to four per week. Eat fish (not fried) two times per week. Eat beans, tofu, or other soy products, fat free or low-fat (1 percent) dairy products.
- Eat less fat overall, especially less saturated and trans fat (from animal products, processed foods, and fast

food). Choose monounsaturated fat first, then polyunsaturated fats.

- Don't skip meals.
- Use the food pyramid below to plan your meals. Try to eat the minimum amounts from each food group every day.
- In general, women and those who want to lose weight need smaller amounts; men and active women need larger amounts.
- See the food pyramid for daily recommended amounts based on a 2,000 calorie/day diet.

The Food Pyramid

For more information about healthy eating, visit kp.org/nutrition.

* These recommended amounts are based on a 2,000 calorie/day diet.

Ideas for meals and snacks

These sample meals and snacks follow the recommendations on the other side. Use these samples to help you build the healthy, low-fat meals you would enjoy.

<i>Breakfast</i>		<i>Lunch and Dinner</i>	
		Add 1 cup nonfat or 1% milk to each meal.	
<ul style="list-style-type: none"> • small whole wheat bagel with low-fat or nonfat cream cheese • 3/4 cup orange juice • 1 cup nonfat or low-fat yogurt 	<ul style="list-style-type: none"> • 1 poached or boiled egg • 1 English muffin • 1 tsp. tub margarine • 3/4 cup orange juice • 1 cup milk (nonfat or 1%) 	<ul style="list-style-type: none"> • 1 baked potato topped with low-fat or nonfat sour cream or cottage cheese • salad with fresh vegetables, 1/2 cup beans, nonfat or low-fat salad dressing 	<ul style="list-style-type: none"> • 3 oz. skinless baked chicken • 1 cup steamed greens with a dash of hot sauce • 1/2 cup brown rice • 1 slice cornbread (low-fat type) • 1 fresh fruit
