Independent Laboratory

Providers must be enrolled as a Colorado Medical Assistance Program provider in order to:

- Treat a Colorado Medical Assistance Program client
- Submit claims for payment to the Colorado Medical Assistance Program

An independent laboratory is a certified laboratory that performs diagnostic tests and is independent both of the attending or consulting physician's office and of a hospital. All clinical laboratory providers must furnish their Clinical Laboratory Improvement Amendment (CLIA) certification numbers to the Colorado Medical Assistance Program fiscal agent at the time of enrollment.

Medically necessary, physician-ordered laboratory services are a benefit of the Colorado Medical Assistance Program.

Providers should refer to the Code of Colorado Regulations, [Program Rules](#) (10 CCR 2505-10), for specific information when providing independent laboratory services.

Important: All lab tests performed for non-citizens must be emergencies. Claims that are not marked with the "92 - Emergency" code will not be paid.

Billing Information

National Provider Identifier (NPI)

The Health Insurance Portability and Accountability Act (HIPAA) requires that covered entities (i.e., health plans, health care clearinghouses, and those health care providers who transmit any health information electronically in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard) use NPIs in standard transactions.

Paper Claims

Electronic claims format shall be required unless hard copy claims submittals are specifically prior authorized by the Department of Health Care Policy and Financing (the Department). Requests may be sent to Affiliated Computer Services (ACS), P.O. Box 90, Denver, CO 80201-0090. The following claims can be submitted on paper and processed for payment:

- Claims from providers who consistently submit 5 claims or fewer per month (requires prior approval)
- Claims that, by policy, require attachments
- Reconsideration claims

Paper claims do not require an NPI, but do require the Colorado Medical Assistance Program provider number. Electronically mandated claims submitted on paper are processed, denied, and marked with the message "Electronic Filing Required".

Electronic Claims

Instructions for completing and submitting electronic claims are available through the following:

- X12N Technical Report 3 (TR3) for the 837P, 837I, or 837D wpc-edi.com/ (HIPAA EDI Technical Report 3 (TR3))
- Companion Guides for the 837P, 837I, or 837D in the Provider Services [Specifications](#) section of the Department's Web site.
- Web Portal User Guide (via within the Web Portal)

The Colorado Medical Assistance Program collects electronic claim information interactively through the Colorado Medical Assistance Program Secure Web Portal (Web Portal) or via batch submission through a host system.

Interactive Claim Submission and Processing

Interactive claim submission through the Web Portal is a real-time exchange of information between the provider and the Colorado Medical Assistance Program. Colorado Medical Assistance Program providers may create and transmit HIPAA compliant 837P (Professional), 837I (Institutional), and 837D (Dental) claims electronically one at a time.

These claims are transmitted through the Colorado Medical Assistance Program OnLine Transaction Processor (OLTP).

The Colorado Medical Assistance Program OLTP reviews the claim information for compliance with Colorado Medical Assistance Program billing policy and returns a response to the provider's personal computer about that single transaction. If the claim is rejected, the OLTP sends a rejection response that identifies the rejection reason.

If the claim is accepted, the provider receives an acceptance message and the OLTP passes accepted claim information to the Colorado Medical Assistance Program claim processing system for final adjudication and reporting on the Colorado Medical Assistance Program Provider Claim Report (PCR).

The Web Portal contains online training, user guides and help that describe claim completion requirements, a mechanism that allows the user to create and maintain a data base of frequently used information, edits that verify the format and validity of the entered information, and edits that assure that required fields are completed.

Because a claim submitter connects to the Web Portal through the Internet, there is no delay for “dialing up” when submitting claims. The Web Portal provides immediate feedback directly to the submitter. All claims are processed to provide a weekly Health Care Claim Payment/Advice (Accredited Standards Committee [ASC] X12N 835) transaction and/or Provider Claim Report to providers. The Web Portal also provides access to reports and transactions generated from claims submitted via paper and through electronic data submission methods other than the Web Portal. The reports and transactions include:

- Accept/Reject Report
- Provider Claim Report
- Health Care Claim Payment/Advice (ASC X12N 835)
- Managed Care Reports such as Primary Care Physician Rosters
- Eligibility Inquiry (interactive and batch)
- Claim Status Inquiry

Claims may be adjusted, edited and resubmitted, and voided in real time through the [Web Portal](#) located at colorado.gov/hcpf, Secured Site. For help with claim submission via the Web Portal, please choose the *User Guide* option available for each Web Portal transaction. For additional electronic billing information, please refer to the appropriate Companion Guide in the Provider Services [Specifications](#) section.

Batch Electronic Claim Submission

Batch billing refers to the electronic creation and transmission of several claims in a group. Batch billing systems usually extract information from an automated accounting or patient billing system to create a group of claim transactions. Claims may be transmitted from the provider's office or sent through a billing vendor or clearinghouse.

All batch claim submission software must be tested and approved by the Colorado Medical Assistance Program fiscal agent.

Any entity sending electronic claims to ACS Electronic Data Interchange (EDI) Gateway for processing where reports and responses will be delivered must complete an EDI enrollment package. This provides ACS EDI Gateway the information necessary to assign a Logon Name, Logon ID, and Trading Partner ID, which are required to submit electronic claims. You may obtain an EDI enrollment package by contacting the Medical Assistance Program fiscal agent or by downloading it from the Provider Services [EDI Support](#) section.

The X12N 837 Professional, Institutional, or Dental transaction data will be submitted to the EDI Gateway, which validates submission of American National Standards Institute (ANSI) X12N format(s). The TA1 Interchange Acknowledgement reports the syntactical analysis of the interchange header and trailer. If the data is corrupt or the trading partner relationship does not exist within the Medicaid Management Information System (MMIS), the interchange will reject and a TA1 along with the data will be forwarded to the ACS State Healthcare Clearinghouse (SHCH) Technical Support for review and follow-up with the sender. An X12N 999 Functional Acknowledgement is generated when a file that has passed the header and trailer check passes through the ACS SHCH.

If the file contains syntactical error(s), the segment(s) and element(s) where the error(s) occurred will be reported. After validation, the ACS SHCH will then return the X12N 835 Remittance Advice containing information related to payees, payers, dollar amount, and payments. These X12N transactions will be returned to the Web Portal for retrieval by the trading partner, following the standard claims processing cycle.

Testing and Vendor Certification

Completion of the testing process must occur prior to submission of electronic batch claims to ACS EDI Gateway. Assistance from ACS EDI business analysts is available throughout this process. Each test transmission is inspected thoroughly to ensure no formatting errors are present. Testing is conducted to verify the integrity of the format, not the integrity of the data; however, in order to simulate a production environment, EDI requests that providers send real transmission data.

The number of required test transmissions depends on the number of format errors on a transmission and the relative severity of these errors. Additional testing may be required in the future to verify any changes made to the MMIS have not affected provider submissions. Also, changes to the ANSI formats may require additional testing.

In order to expedite testing, ACS EDI Gateway requires providers to submit all X12N test transactions to Edifecs prior to submitting them to ACS EDI Gateway. The Edifecs service is free to providers to certify X12N readiness. Edifecs offers submission and rapid result turnaround 24 hours a day, 7 days a week. For more information, go to edifecs.com (Edifecs).

Laboratory Services

Clinical Laboratory Improvement Amendments (CLIA) Claims

Laboratory providers submitting procedures covered by CLIA must have a CLIA number of the laboratory where the procedure was done on the claim or claim line.

- Providers billing on the 837P format should refer to the updated [837P Companion Guide](#) which is posted in the Provider Services [Specifications](#) section of the [Department's Web site](#). Providers billing on the 837P format and billing agents should update their billing systems for 837P transactions.
- Providers billing an 837P through the Colorado Medical Assistance Program Web Portal (Web Portal) are able to enter CLIA numbers on the Detail Line Item tab (claim line). Entry on the Client's Info tab (header level) will be available soon. Further information on Web Portal functionality for CLIA is available in the February 2011 provider bulletin ([B1100296](#)).
- Providers billing on the Colorado 1500 paper claim form should enter their valid CLIA number in the REMARKS field (# 30). Enter "CLIA" before the CLIA number.

Please note: Only one CLIA number can be included on each paper claim form. It is applied to all CLIA covered procedures on the claim. Procedures covered by different CLIA numbers need to be submitted on separate claims. Enter the CLIA number in the REMARKS field only.

The tax ID (TID) on record with the Centers for Medicare and Medicaid Services (CMS) for the CLIA number must correspond to the TID on record with the Department. Questions regarding claims processing or responses should be directed to ACS Provider Services at 1-800-237-0757 or 1-800-237-0044.

Handling, Collection and Conveyance Charges

Specimen collection (including venipuncture) is considered to be an integral part of the laboratory testing procedure when performed by an independent/hospital laboratory and is not reimbursable as a separate or additional charge.

Transfer of a specimen from one independent clinical laboratory to another is a benefit only if the first laboratory's equipment is not functioning or the laboratory is not certified to perform the ordered tests. Modifier -KX used with procedure code 99001 verifies that the lab's equipment is not functioning or that the laboratory is not certified to perform the ordered test.

Specimen collection, handling, and conveyance from the patient's home, a nursing facility, or a facility other than the physician's office or place of service is a benefit only if the patient is homebound, bedfast, or otherwise non ambulatory **and** the specimen cannot reasonably be conveyed by mail. A physician's statement explaining the circumstances and medical necessity is required.

Each independent laboratory will be reimbursed only for those tests performed in the specialties or subspecialties for which it is certified.

Papanicolaou (Pap) smears

Colorado Medical Assistance Program allows one pap smear screening/examination per 12-month period in women under 40 years of age. Benefit for more than one Pap smear in a 12-month period is allowed for women ages 40 and over; women with a history of diethylstilbestrol exposure in utero; women with malignancy of the cervix, vagina, uterus, fallopian tubes or ovaries; women with cervical polyps, cervicitis, neoplastic disease of the pelvic organs, vaginal discharge or bleeding of unknown origin, postmenopausal bleeding, or vaginitis; or if the physician determines that more frequent testing is needed and is medically necessary. Claims will deny if the diagnosis code entered on the claim does not support the testing frequency.

General Requirements

- Fees for blood drawing, specimen collection, or handling are not reimbursable to laboratories.
- Claims for non-payable procedure codes are rejected. Do not submit detail lines for procedure codes that are not payable to laboratory providers. If any detail line on the submitted electronic claim is not payable, the entire claim will be rejected.
- The provider who actually performs the laboratory procedure is the only one who is eligible to bill and receive payment. Physicians may only bill for tests actually performed in their office or clinic. Tests performed by independent laboratories or hospital outpatient laboratories must be billed by the performing laboratory.
- CPT identifies tests that can be and are frequently done as groups and combinations (“profiles”) on automated multi-channel equipment. For any combination of tests among those listed, use the appropriate Level 1 or Level 2 CMS codes.
- For organ or disease oriented panels (check CPT narrative), use the appropriate Level 1 CMS codes. These tests are not to be performed or billed separately when ordered in a group/combination and must be billed with one unit of service.

Procedure/HCPCS Codes Overview

The Department accepts procedure codes that are approved by the Centers for Medicare & Medicaid Services (CMS). The codes are used for submitting claims for services provided to Colorado Medical Assistance Program clients and represent services that may be provided by enrolled certified Colorado Medical Assistance Program providers.

The Healthcare Common Procedural Coding System (HCPCS) is divided into two principal subsystems, referred to as level I and level II of the HCPCS. Level I of the HCPCS is comprised of Current Procedural Terminology (CPT), a numeric coding system maintained by the American Medical Association (AMA). The CPT is a uniform coding system consisting of descriptive terms and identifying codes that are used primarily to identify medical services and procedures furnished by physicians and other health care professionals. Level II of the HCPCS is a standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes, such as ambulance services and durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) when used outside a physician's office. Level II codes are also referred to as alpha-numeric codes because they consist of a single alphabetical letter followed by 4 numeric digits, while CPT codes are identified using 5 numeric digits.

HIPAA requires providers to comply with the coding guidelines of the AMA CPT Procedure Codes and the International Classification of Disease, Clinical Modification Diagnosis Codes. If there is no time designated in the official descriptor, the code represents one unit or session. Providers should regularly consult monthly bulletins located in the Provider Services [Provider Bulletins](#) section. To receive electronic provider bulletin notifications, an email address can be entered into the Web Portal in the (MMIS) *Provider Data Maintenance* area or by completing and submitting a [Publication Email Preference Form](#) in the Provider Services [Forms](#) section. Bulletins include updates on approved procedures codes as well as the maximum allowable units billed per procedure.

Procedure Codes

Services must be reported using HCPCS procedure codes. Use procedure codes listed in the most recent Practitioner HCPCS bulletin located in the Provider Services [Provider Bulletins](#) section.

The fiscal agent updates and revises CMS codes through Colorado Medical Assistance Program bulletins.

Late Bill Override Date

For electronic claims, a delay reason code must be selected and a date must be noted in the “Claim Notes/LBOD” field.

Valid Delay Reason Codes

- 1 Proof of Eligibility Unknown or Unavailable
- 3 Authorization Delays
- 7 Third Party Processing Delay
- 8 Delay in Eligibility Determination
- 9 Original Claim Rejected or Denied Due to a Reason Unrelated to the Billing Limitation Rules
- 11 Other

The Late Bill Override Date (LBOD) allows providers to document compliance with timely filing requirements when the initial timely filing period has expired. Colorado Medical Assistance Program providers have 120 days from the date of service to submit their claim. For information on the 60-day resubmission rule for denied/rejected claims, please see the General Provider Information manual in the Provider Services [Billing Manuals](#) section.

Making false statements about timely filing compliance is a misrepresentation and falsification that, upon conviction, makes the individual who prepares the claim and the enrolled provider subject to fine and imprisonment under state and/or federal law.
