PROCEDURES FOR CORPORATE AMENDMENTS

Colorado has adopted the Uniform Certificate of Authority Application (UCAA) process. Information and the forms are available on the NAIC website at http://www.naic.org/industry_ucaa.htm

The documents on this site can be downloaded. The Corporate Amendments Application is to be used by a company, currently licensed in Colorado that seeks to add or delete lines of authority, change its name, redomesticate, change addresses, or change its city in its domicile state.

The goal of this process is to provide a streamlined filing and approval process for both industry and the Colorado Division of Insurance.
