Ph. (719) 469-7614

Contact: Michael Hirakata  
[mhirakata@yahoo.com](mailto:mhirakata@yahoo.com)

Some say it's the hot sunny days and cool clear nights that make Rocky Ford Cantaloupe™ so sweet, juicy and flavorful. Others claim it's the altitude or perhaps the clay soils and snowmelt irrigation that bestow quality. Regardless, for over a century our melons are honestly considered the best.

We are, and always have been committed to the safety and integrity of our melons. Our safety record has been spotless for the past 125 years. When you see the Rocky Ford Growers Association™ sticker you'll know our cantaloupes, watermelons, and honeydews have been grown and packaged by our member growers following stringent, national safety standards and state-of-the-art methods you can trust.
