Paving moved up for Virginia Drive, Park Lane, MacGregor Avenue and Steamer Drive

The Town of Estes Park and contractor Coulson Excavating are on schedule for the Virginia Drive, Park Lane and MacGregor Avenue project. The roads are now expected to reopen to through traffic by approximately May 18, weather permitting. The project includes water main replacement and road reconstruction along Virginia Drive, as well as curb, gutter and sidewalk improvements and pavement overlays on Park Lane and MacGregor Avenue between Park Lane and Wonderview Avenue. Adjacent businesses remain open and pedestrian access is maintained throughout the project. Pedestrians and motorists should watch construction signage for detour and closure information.

Crews have tied in a new water main on Virginia Drive and have reopened the lower portion of the road to traffic. Paving of Park Lane, MacGregor Avenue and Virginia Drive will now take place approximately May 14-18, weather permitting. Two-way traffic will be maintained with flagging; motorists may experience delays of about 15 minutes or may use detours. Parking spaces along Park Lane and MacGregor Avenue to Wonderview Avenue will be closed while the adjacent lane of traffic is paved. Access to the Town Hall parking lot and the First National Bank parking lot will be maintained, but delays are possible. Lower MacGregor Avenue adjacent to Town Hall remains open to traffic.

Steamer Drive work scheduled May 15-25

Concrete curb and gutter improvements on Steamer Drive near Big Thompson Avenue and the entrance to Stanley Village are expected to begin approximately May 15. Paving of Steamer Drive is scheduled for May 21-25. Two-way traffic will be maintained with flagging. Motorists should watch construction signage and drive carefully through the construction zone.
