

RMCN is offering a FREE benefit to the State of Colorado and it's employees.

Be Debt Free in 7-10 years, including the mortgage.

At RMCN, we believe that you and your family are most important. We want you to spend as much time with your family without the financial stress placed on you, your family and your employer. We can help you reduce that stress and regain the time lost to, “make ends meet”, and the net out of pocket expenses are zero to enroll in the program. We will increase your credit score and decrease your debt.

We offer the Program for Liability Management. With this program, we can help reduce the financial burdens placed on you by restructuring your current liabilities or debt. When we restructure your debt you will receive a plan that:

- Will be at or lower than your current liability payments.
- Will tell you how long you will be in debt and the amount of interest saved.
- Will have six plans to choose from to fit your needs.

The Program for Liability Management is NOT:

- Credit counseling
- Credit consolidation
- Credit negotiation, or for those already in financial distress, (bankruptcy, foreclosure, etc.).

The Program for Liability Management is FOR, those that own their own property, have investment properties, are good wage earners, have good credit scores, (550 or higher), and have a lot of debt.

RMCN offers other programs, for those that do not meet the criteria for the Program for Liability Management, to get people debt free. Please visit our website:
