

Workforce Report FY 2003-2004

Colorado Department of Personnel & Administration

Jeffrey M. Wells
Executive Director

Jeffrey C. Schutt
Director, Division of Human Resources

DPA

The Annual Workforce Report provides critical data and analysis to help human resources, risk, and budget professionals, and all executives and managers assess their current needs and prepare for the future.

Retirement projections continue to show that as much as one third of the workforce will be eligible to retire in the next five years. Although not detailed in this report, when retirement projections are carried forward through 10 years, the data are certainly concerning. This year for the first time in the report, detailed retirement charts on each of the state's occupational groups are included. This can help departments build their succession plans.

Interestingly, the average age of new hires is 41 years old. Combined with the data on retirement, this shows that the state has a younger employee population that is underrepresented. Also, the state must improve its efforts in recruiting employees newly entering the workforce. This raises the questions: How can the state better market itself as an employer of choice? And what can the state do to make state employment more attractive to a new generation of workers?

The DPA Division of Human Resources is working to design integrated systems, policies, and programs that can help the state appropriately manage risk, and become a more competitive employer and more accountable to the public. Our total compensation strategy is one way we are maximizing the state's investments in its workforce and becoming more competitive. Performance-based salary increases, improved health care options, and more portable retirement options should also help.

I know you will find this report valuable. Additional detailed data by individual department and institution has been published in a separate document and is available online at www.colorado.gov/dpa/dhr.

Jeffrey C. Schutt
Director, DPA Division of Human Resources

GENERAL DATA ASSUMPTIONS

The state personnel system workforce can be measured by positions, full-time equivalents (FTE), or employees. A position is an individual distinct set of duties or assignments. FTE is the budgetary equivalent of one permanent position based on 2,080 working hours per fiscal year. Employees are the actual people holding a position and working in the personnel system. For purposes of this report it is important to note that payroll numbers do not necessarily equate to number of employees because an employee may receive more than one paycheck. The data in this report measures employees as further defined below.

Unless otherwise annotated, data include only permanent full-time and part-time employees in the state personnel system (other non-system employees such as administration and faculty of higher education institutions, judicial system employees, and employees of the legislative branch are not included). The Colorado fiscal year (FY) runs from July 1 until June 30. FY 2003-2004 data in this report are based on a June 30, 2004 download from EMPL, the state personnel system employee data base, and data provided by the University of Colorado (CU). For the first time data are also included from Colorado State University (CSU).

General department data includes the Governor's Office and the State Auditor's Office, but does not include the Colorado Commission on Higher Education, which is reported as part of the data on higher education institutions. The Colorado Student Loan Program was renamed Community College Access Network on July 1, 2004. For purposes of this report, however, it continues to be called Colorado Student Loan Program. The former Senior Executive Service occupational group is now included in the Professional Services group.

Average is used as the arithmetic mean, the value of all the entries in a set of data divided by the number of entries; median is the middle value in a set of data, meaning there is an equal number of values above it and below it. Due to rounding, percent totals may not always equal 100 percent.

Definition of an employee of the state personnel system:

- Often referred to as "a state classified employee " or a "civil service employee";
- Works in the state personnel system;
- Permanent full-time or part-time employee;
- Does not include higher education faculty;
- Does not include higher education administrators;
- Does not include legislative or judicial staff (except for benefits information); and,
- Does not include temporary/contingent employees.

Definition of turnover for employees in the state personnel system:

- Employee initiated separations;
- Employer initiated separations;
- Layoffs;
- Retirements; and,
- Deaths.

The state excludes employees who transfer from one department to another (unless otherwise noted) because they are still considered employees of the state personnel system.

Benefits information is gathered and summarized by higher education and non-higher education institutions, derived from an internal report from the DPA/DHR Benefits Unit.

- Only permanent employees are eligible for benefits.
- Temporary employees are not eligible for benefits.
- Note that information includes non-state personnel system employees who are not in higher education, such as judicial and legislative employees, and executive directors.
- New hires are not eligible for benefits until the first month after hire.
- Data do include employees who may be terminated for one month after termination.

Non-state personnel system employee information is derived from a payroll file that reports the number of checks that were issued to state employees. Only those employees paid through the CPPS system are included.

1. GENERAL WORKFORCE STATISTICS

The General Workforce Statistics section provides a snapshot of the state personnel system workforce as of June 30, 2004. Data include the number, percent, average salary, age and years of service of employees, detailed by geographic distribution, department, higher education institution, occupational group, gender, minority/non-minority status, and race/ethnicity.

DPA

1. GENERAL WORKFORCE STATISTICS

STATEWIDE HIGHLIGHTS

Statewide Highlights

Higher Education employs proportionately more females than General Government. This may be due in part to the type of jobs found in Higher Education – Administrative Support & Related and certain jobs in Labor Trades & Crafts.

General Statistics

United States Population	290,809,777
Colorado Population	4,550,688
Population Rank	22nd
Colorado Labor Force	2,150,400

Profile of State Personnel System Employees as of June 2004

	Statewide	Higher Education	General Government
Number of Employees	31,436	9,514	21,922
Average Age	45.6	46.5	45.2

GENERAL GOVERNMENT DEPARTMENTS

Fiscal year 03-04 is the second year in a row that general government has experienced a decline in number of employees – 204. Last year, the number of state personnel system employees decreased by 168.

The Department of Human Services experienced the largest loss of employees – 232.

Ten of the 20 general government departments experienced some job growth.

Two departments experienced growth (20 employees each) Labor & Employment and Natural Resources.

1. GENERAL WORKFORCE STATISTICS

Number of Employees, and Average Annual Salary, Age & Years of Service

Institution	Number of Employees	Average Annual Salary	Average Age	Average Years of Service

University Of Colorado - All Campuses	4,215	\$40,254	46.3	9.6
University Of Northern Colorado	532	\$36,319	47.4	10.9
Western State College	72	\$36,962	46.1	11.5
All Insitutions	9,514	\$38,438	46.5	9.9

HIGHER EDUCATION INSTITUTIONS

Colorado State University (CSU) is included in the Workforce Report for the first time.

All but four institutions saw a decline in the number of employees for FY 03-04.

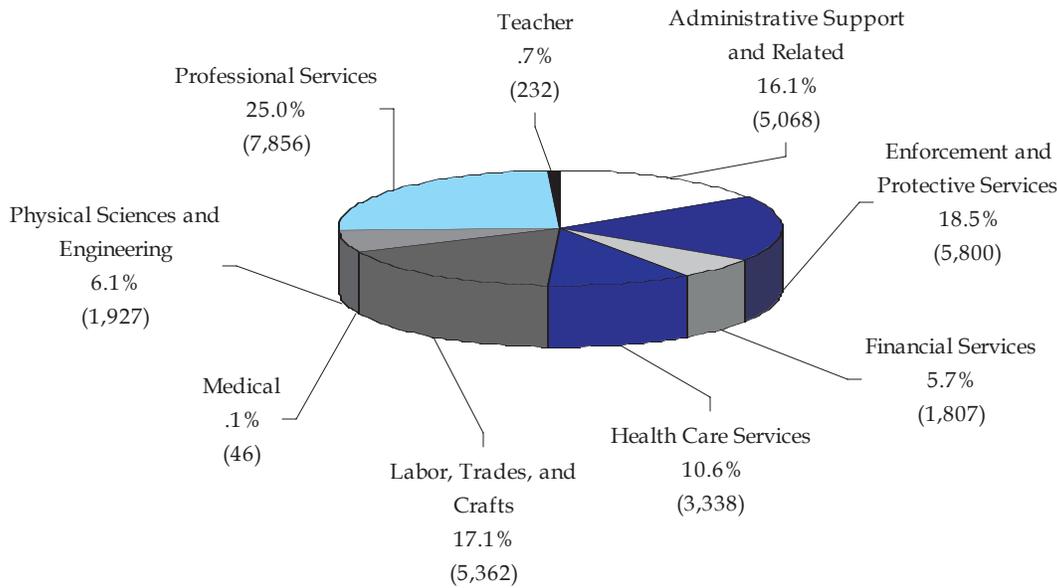

Although the data show that employees of higher education institutions have lower average annual salaries, faculty and administrators are exempt from the state personnel system and are not included in the data.

All but seven institutions experienced a decrease in average annual salary during FY 03-04.

The University of Colorado (CU) experienced the largest decline in number of employees – 51.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

Average Annual Salary, Age & Years of Service of Employees

Occupational Group	Average Annual Salary	Average Age	Average Years of Service
Administrative Support and Related	\$33,496	46.9	9.4
Enforcement and Protective Services	\$46,891	41.8	8.0
Financial Services	\$49,160	46.1	10.4
Health Care Services	\$41,796	45.3	8.0
Labor, Trades, and Crafts	\$33,510	46.5	9.2
Medical	\$117,356	51.4	7.2
Physical Sciences and Engineering	\$64,994	46.1	12.2
Professional Services	\$55,667	46.7	11.7
Teacher	\$44,241	46.7	7.5

OCCUPATIONAL GROUPS – STATEWIDE

Employee growth by occupational group cannot be compared to last year because CSU data were not included in last year's report.

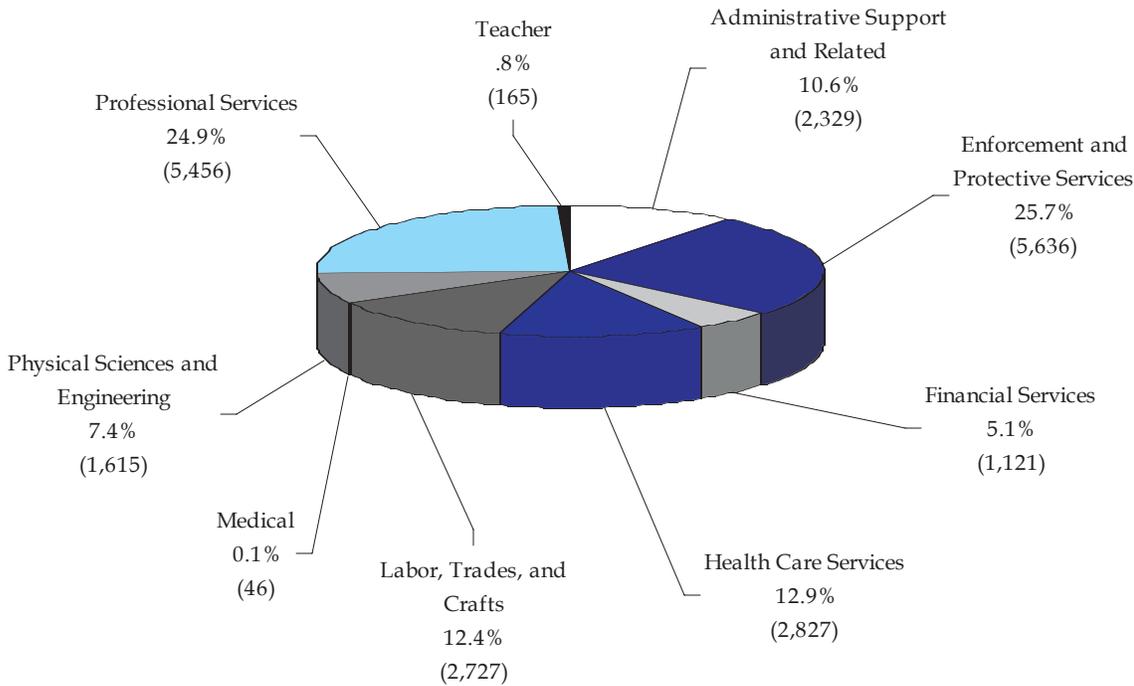

The highest average salaries are reported in the Medical and Physical Sciences and Engineering groups.

The lowest salaries are reported in the Administrative Support and Related and the Labor, Trades, and Crafts groups.

Enforcement and Protective Services has the lowest average age of all occupational groups – 41.8.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

Average Annual Salary, Age & Years of Service of Employees

Occupational Group	Average Annual Salary	Average Age	Average Years of Service
Administrative Support and Related	\$34,097	45.8	9.0
Enforcement and Protective Services	\$46,728	41.8	8.0
Financial Services	\$54,849	46.1	11.0
Health Care Services	\$42,366	45.5	7.9
Labor, Trades, and Crafts	\$36,698	46.5	9.4
Medical	\$117,356	51.4	7.2
Physical Sciences and Engineering	\$66,760	45.8	12.5
Professional Services	\$57,955	47.0	11.7
Teacher	\$53,035	49.6	9.1

OCCUPATIONAL GROUPS – GENERAL GOVERNMENT DEPARTMENTS

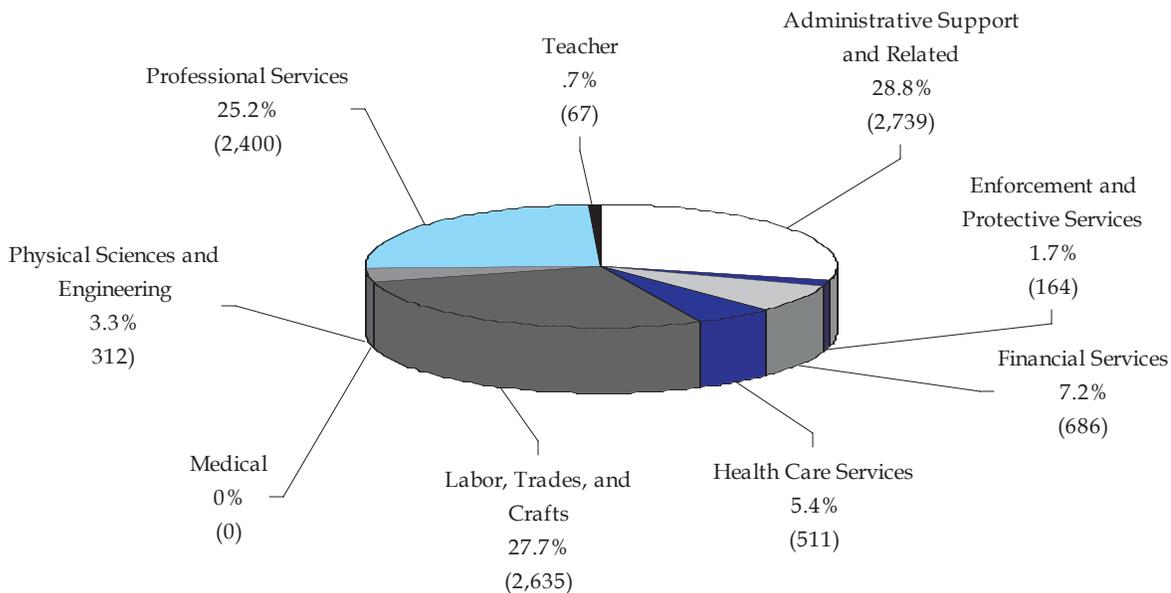

The Professional Services group and Enforcement and Protective Services group have the largest percent of employees, slightly more than half of the state employee personnel system workforce – 50.6%.

Occupations in the administrative Support and Related group have the lowest average salary.

The average age of employees is highest in the Medical (51.4) and the Teacher (49.6) groups, both above the statewide average of 45.6 years.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

OCCUPATIONAL GROUPS – HIGHER EDUCATION INSTITUTIONS

Employee growth by occupational group cannot be compared to last year because CSU data were not included in last year's report.

The Administrative Support and Related group has the highest average age – 47.9 years.

The Professional Services group has the highest average years of service – 11.7 years.

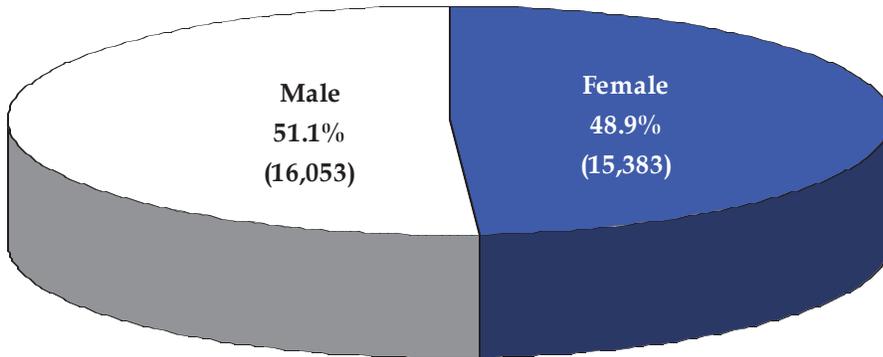

The Physical Sciences and Engineering group has the highest combined average age and years of service – 58.2.

Average Annual Salary, Age & Years of Service of Employees

Occupational Group	Average Annual Salary	Average Age	Average Years of Service
Administrative Support and Related	\$32,985	47.9	9.7
Enforcement and Protective Services	\$52,497	41.2	9.9
Financial Services	\$39,863	46.1	9.3
Health Care Services	\$38,641	44.4	8.2
Labor, Trades, and Crafts	\$30,210	46.4	8.9
Medical	na	na	na
Physical Sciences and Engineering	\$55,851	47.3	10.9
Professional Services	\$50,464	46.1	11.7
Teacher	\$22,584	39.5	3.8

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

GENDER – STATEWIDE

There has been a 0.8% increase in the female workforce over last year. This may be attributable to the inclusion of CSU data for FY 03-04.

Average years of service has remained constant at 9.9 to 9.8 years for males and from 9.4 to 9.6 for females as compared to last year's report. The overall statewide average is 9.7 years.

On average, men continue to earn more than women. The salary for females increased by 1.8% since last year while male average salary increased by 2.2%.

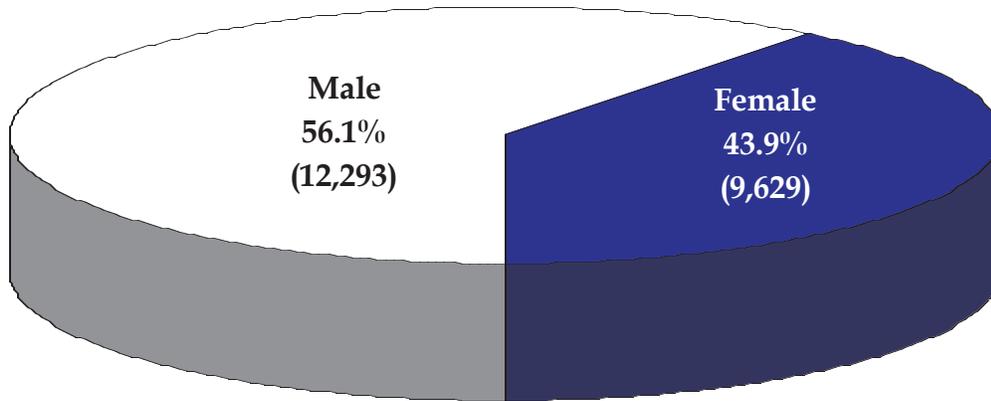

Average age of female and male employees has increased slightly over the past year.

Average Annual Salary, Age & Years of Service of Employees

Gender	Average Annual Salary	Average Age	Average Years of Service
Female	\$42,469	46.0	9.6
Male	\$48,257	45.2	9.8

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

Average Annual Salary, Age & Years of Service of Employees

Gender	Average Annual Salary	Average Age	Average Years of Service
Female	\$45,770	45.3	9.2
Male	\$50,561	45.1	10.0

GENDER – GENERAL GOVERNMENT DEPARTMENTS

The average age of male and female employees in general government is very close, a difference of only .2 years.

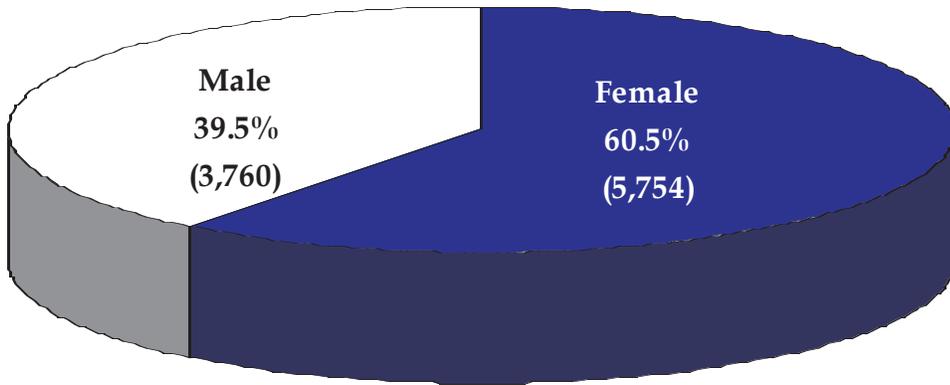

However, the difference in the average years of service is greater with females at 9.2 and males at 10.0.

Females tend to have fewer years of service; yet, are slightly older.

On average, men in general government earn about 10% more than women in general government.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

Average Annual Salary, Age & Years of Service of Employees

Gender	Average Annual Salary	Average Age	Average Years of Service
Female	\$36,945	47.3	10.3
Male	\$40,723	45.3	9.3

GENDER – HIGHER EDUCATION INSTITUTIONS

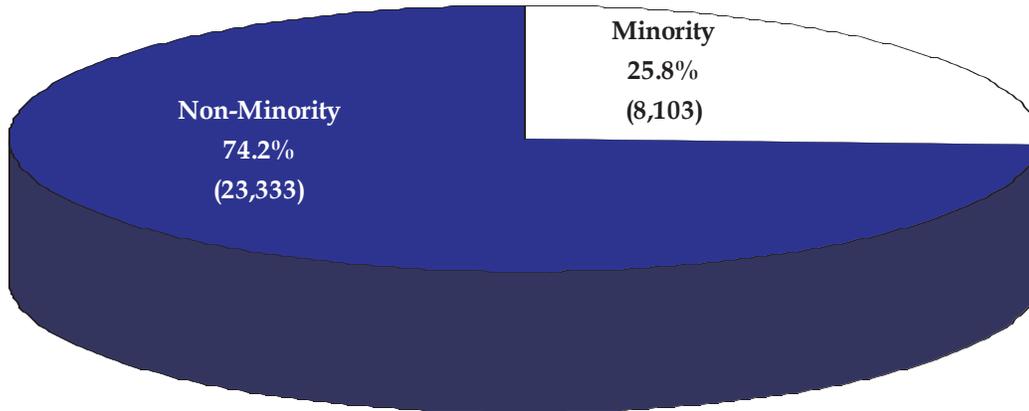

In higher education, the percent of employees is significantly higher than males – 21%.

The average age of female employees is a full two years higher than male employees. Average years of service for female employees is a full year more than male employees.

Average age of female and male employees has increased slightly over the past year.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

Average Annual Salary, Age & Years of Service of Employees

	Average Annual Salary	Average Age	Average Years of Service
Minority	\$40,348	44.1	9.3
Non-minority	\$47,188	46.1	9.9

MINORITY/ NON-MINORITY – STATEWIDE

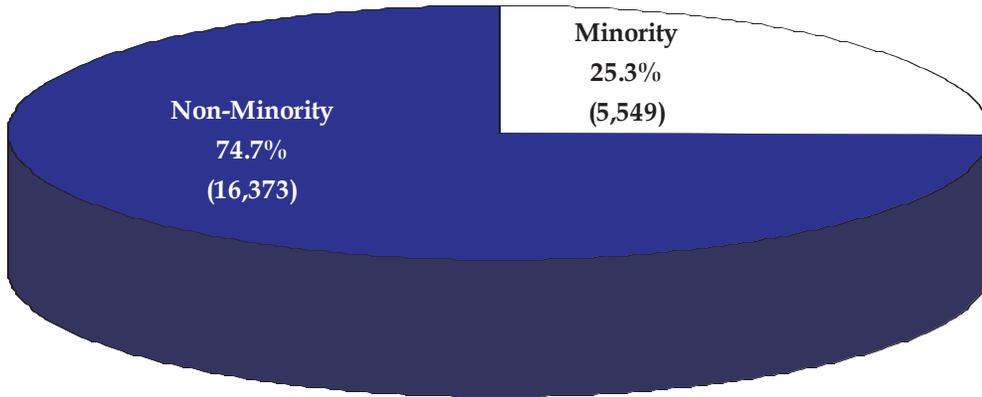

Average annual salary for both minorities and non-minorities decreased during FY 03-04. Minority salaries decreased by less than 1% while non-minority salaries decreased by approximately 2.7%. Still, the average salary of non-minorities is almost 17% more than minority salaries.

Combined, the average age and years of service of the minority population is 2.6 years less than that of non-minorities. Last year the difference was 3.1 years.

There are 0.8% fewer minority employees than last year.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

Average Annual Salary, Age & Years of Service of Employees

	Average Annual Salary	Average Age	Average Years of Service
Minority	\$43,447	43.8	9.4
Non-minority	\$50,155	45.7	9.8

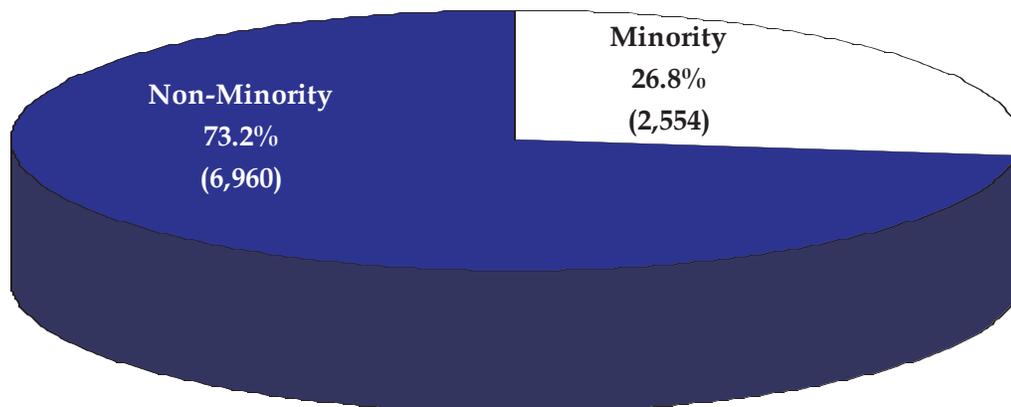

MINORITY/ NON-MINORITY – GENERAL GOVERNMENT DEPARTMENTS

Average salary for minorities in general government is lower than salaries for non-minorities by approximately 15%.

Minorities in general government tend to be younger (by 1.9 years) and have less years of service (.4) than the non-minority population.

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

MINORITY/ NON-MINORITY – HIGHER EDUCATION INSTITUTIONS

The average salary for minorities is less than the average salary for non-minorities by 19.6%.

Combined, the average age and years of service of minorities is 3.5 years less than that of non-minorities.

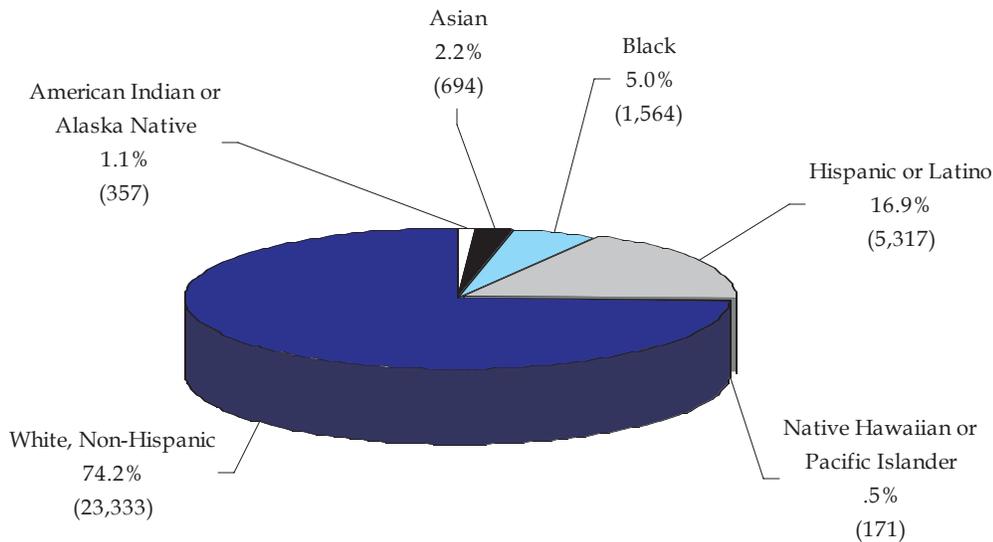

Average Annual Salary, Age & Years of Service of Employees

	Average Annual Salary	Average Age	Average Years of Service
Minority	\$33,614	44.8	9.1
Non- minority	\$40,209	47.2	10.2

1. GENERAL WORKFORCE STATISTICS

RACE/ETHNICITY – STATEWIDE

Percent and Number of Employees

The average age for all racial/ethnic groups, except White, Non-Hispanic, is lower than the statewide average age of 45.6. The average age for minorities is 44.1 years.

The White, Non-Hispanic group is the only group with an average salary that is higher than the statewide average of \$45,425.

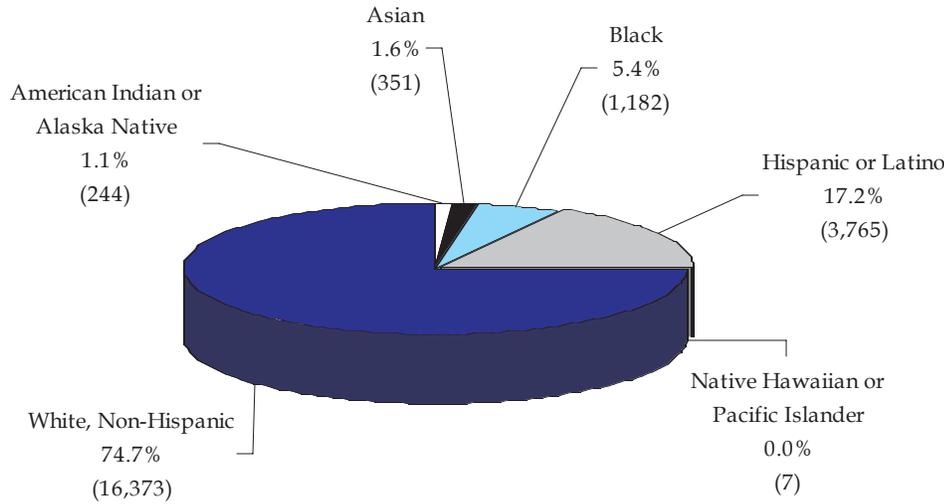

The overall average salaries for all ethnic groups decreased from last year.

Average Annual Salary, Age & Years of Service of Employees

Ethnicity	Average Annual Salary	Average Age	Average Years of Service
American Indian or Alaska Native	\$42,287	45.3	8.9
Asian	\$43,401	44.7	9.8
Black	\$41,390	44.8	8.5
Hispanic or Latino	\$39,630	43.8	9.7
Native Hawaiian or Pacific Islander	\$36,685	42.5	2.5
White, Non-Hispanic	\$47,188	46.1	9.9

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

RACE/ETHNICITY – GENERAL GOVERNMENT DEPARTMENTS

The average age for all racial/ethnic groups, except White, Non-Hispanic, is lower than the general government average age of 45.2. The average age for minorities is 43.8 years. The average age for White, Non-Hispanic employees is 45.7

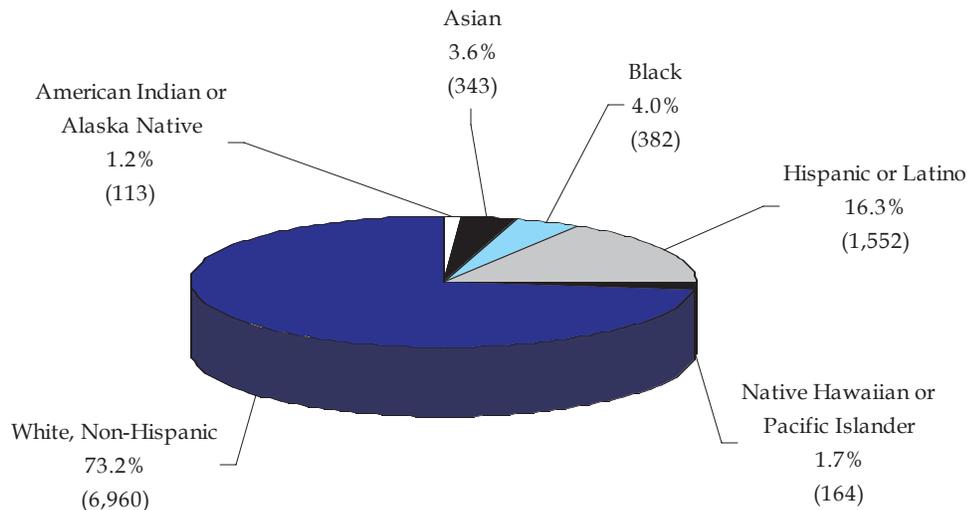

The White, Non-Hispanic and Asian groups are the only groups with an average salary that is higher than the general government average of \$48,457.

Average Annual Salary, Age & Years of Service of Employees

Ethnicity	Average Annual Salary	Average Age	Average Years of Service
American Indian or Alaska Native	\$45,401	45.0	9.3
Asian	\$52,002	44.0	9.7
Black	\$43,547	44.5	8.3
Hispanic or Latino	\$42,476	43.4	9.6
Native Hawaiian or Pacific Islander	\$51,939	43.0	5.6
White, Non-Hispanic	\$50,155	45.7	9.8

1. GENERAL WORKFORCE STATISTICS

Percent and Number of Employees

RACE/ETHNICITY – HIGHER EDUCATION INSTITUTIONS

The average age for all racial/ethnic groups, except White, Non-Hispanic, is lower than the Higher Education average age of 46.5.

The White, Non-Hispanic group is the only group with an average salary that is higher than the statewide average of \$38,438.

The White, Non-Hispanic group is also the group with the highest average years of service - 10.2 - .3 years higher than the overall average recorded for all other higher education employees - 9.9 years.

Average Annual Salary, Age & Years of Service of Employees

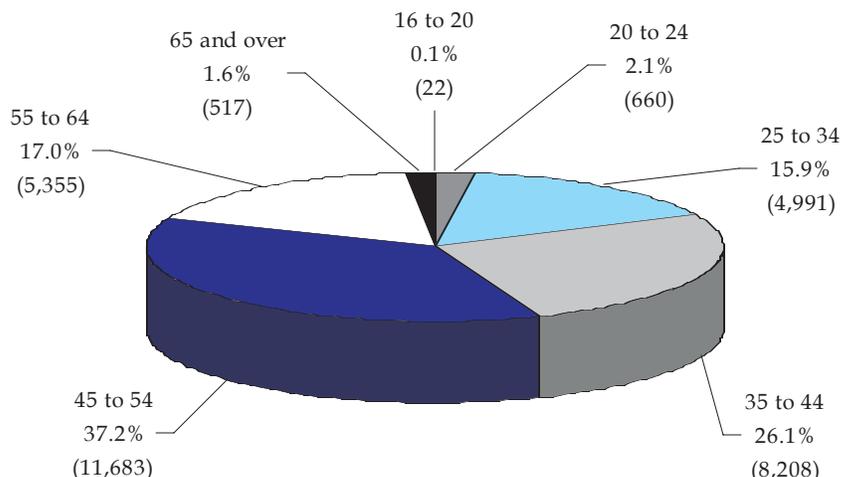

Ethnicity	Average Annual Salary	Average Age	Average Years of Service
American Indian or Alaska Native	\$35,564	45.9	8.0
Asian	\$34,599	45.5	9.9
Black	\$34,716	45.7	9.0
Hispanic or Latino	\$32,727	44.6	9.7
Native Hawaiian or Pacific Islander	\$36,034	42.4	2.4
White, Non-Hispanic	\$40,209	47.2	10.2

The Workforce Trends section closely tracks the age of the state's workforce by analyzing potential retirement. Much has been published recently about the aging workforce, and this issue poses succession planning challenges for the State of Colorado as an employer.

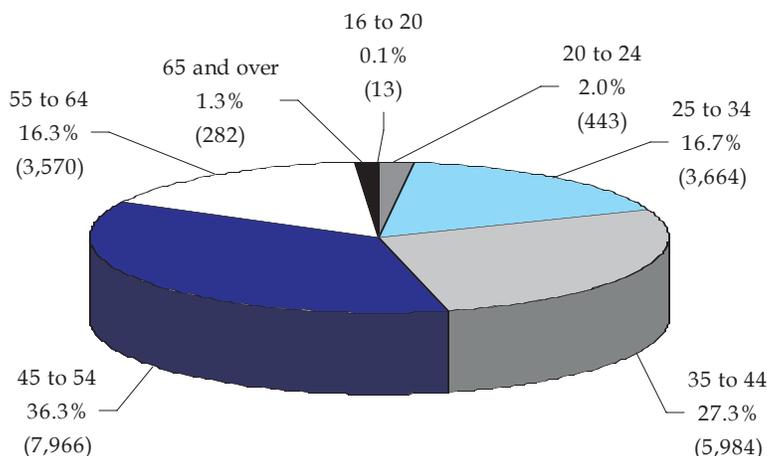

The number of employees who are eligible to retire in the next five years were categorized by age and years of service to reflect the categories in the well-known Public Employees Retirement Association (PERA) benefit chart. This chart clearly illustrates those who are now eligible for full retirement, those who are currently eligible for reduced Retirement and those who will be eligible for full retirement in the next 1 to 5 years. This does not take into account those employees who have purchased, are purchasing, or will purchase service credit or who have worked for other PERA employers. Employees are eligible for reduced PERA retirement at age 55 with 20 years of service and full retirement when their combined age and years of service equal 80 (minimum 50 years of age). PERA reported that for 2003, the average number of years purchased by PERA eligible employees was five.

Turnover and job growth data are also detailed in this section. State turnover is defined as separations from state employment, including employee and employer initiated separations, layoffs, retirements, and deaths. The data excludes transfers (unless otherwise noted) because employees who transfer are still considered employees of state government.

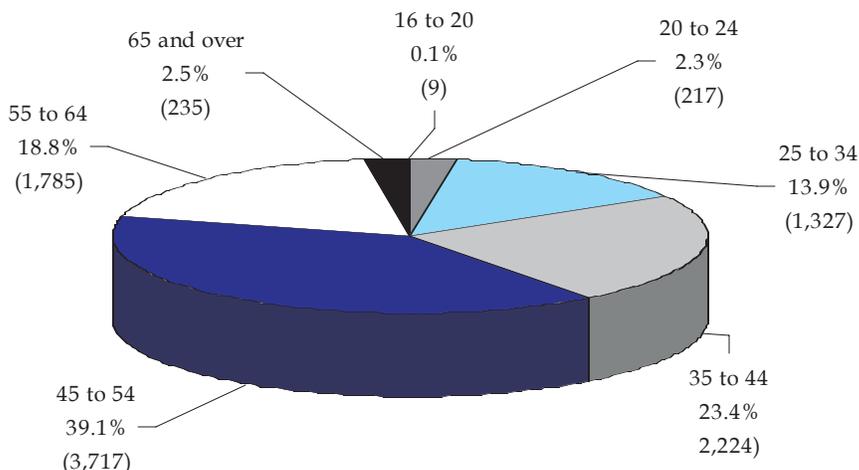

Percent and Number of Employees by Age Group – Statewide

Percent and Number of Employees by Age Group – General Government Departments

Percent and Number of Employees by Age Group – Higher Education Institutions

According to the Bureau of Labor Statistics, the median age of the US labor force will approach 41 years by 2008 – a very high level by historical standards. By comparison, the current state employee median age is 46.2. Average age is 45.6. More than half (55.8%) of state personnel system employees are 45 or older, an average increase in age of 1.1% from last year.

The number of state personnel system employees who are working past the traditional age of retirement (65) has grown from 1.1% in FY 01-02 to 1.6% in FY 03-04.

The percentage of state personnel system employees who are younger than 35 has dropped from 19.5% last year to 18.6% in FY 03-04.

The average age of new hires is 41.1 years.

RETIREMENT PROJECTIONS – STATEWIDE

Traditionally, employees retire when they become eligible for Social Security, around age 65. The retirement age of employees in the state personnel system is around age 55, the age when many employees become eligible for retirement under the Public Employees Retirement Association (PERA).

The percent of employees who will be eligible for full or reduced retirement in five years is 29.5%. This is an increase over the percent eligible to retire in Fy 02-03 (28.2%).

This does not take into account those employees who may have purchased service credit or who have worked for other PERA employers.

RETIREMENT PROJECTIONS – HIGHER EDUCATION INSTITUTIONS

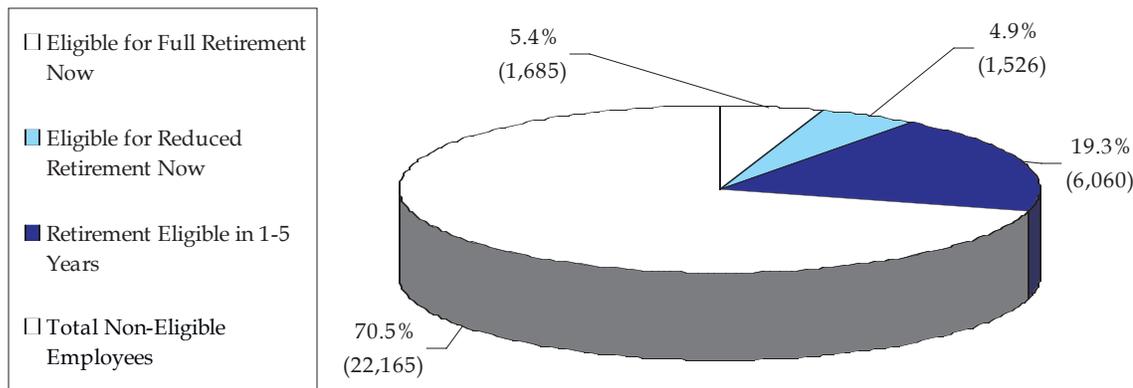

Thirty-two point four percent of general government employees are eligible for retirement in the next five years.

This does not take into account those employees who may have purchased service credit or who have worked for other PERA employers.

2. WORKFORCE TRENDS

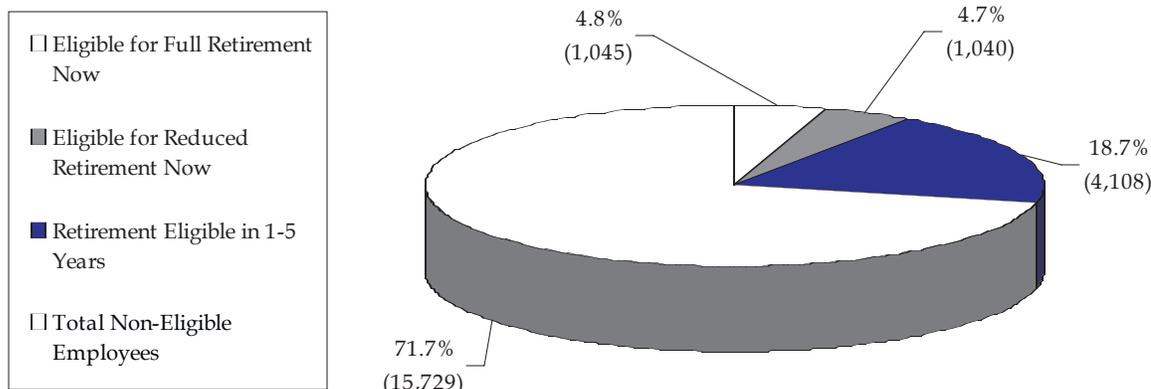

RETIREMENT PROJECTIONS

Percent and Number of Retirement Eligible Employees in the Next Five Years – Statewide

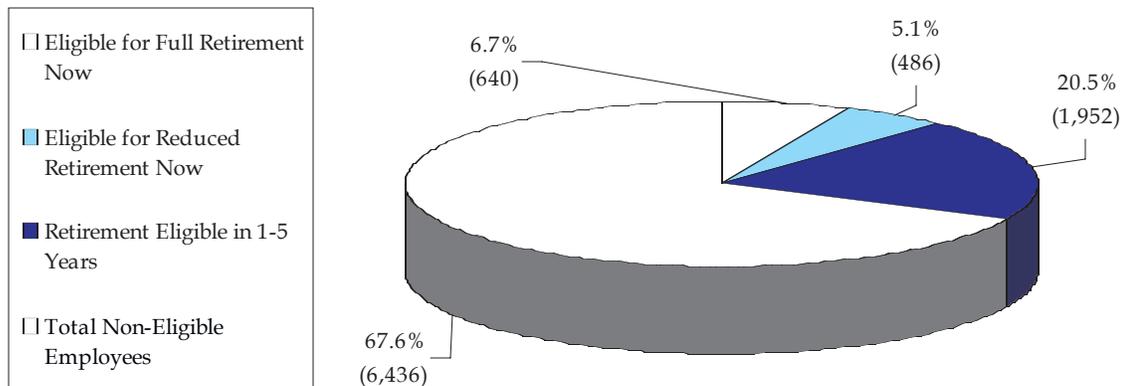

While the chart shows that almost 30% of the statewide workforce is eligible for retirement in the next five years, almost 46% of the workforce is eligible to retire in the next 10 years.

Percent and Number of Retirement Eligible Employees in the Next Five Years – General Government Departments

Although it is not known how many additional service credit years employees have purchased, PERA reported an average of 5 years purchased in 2003.

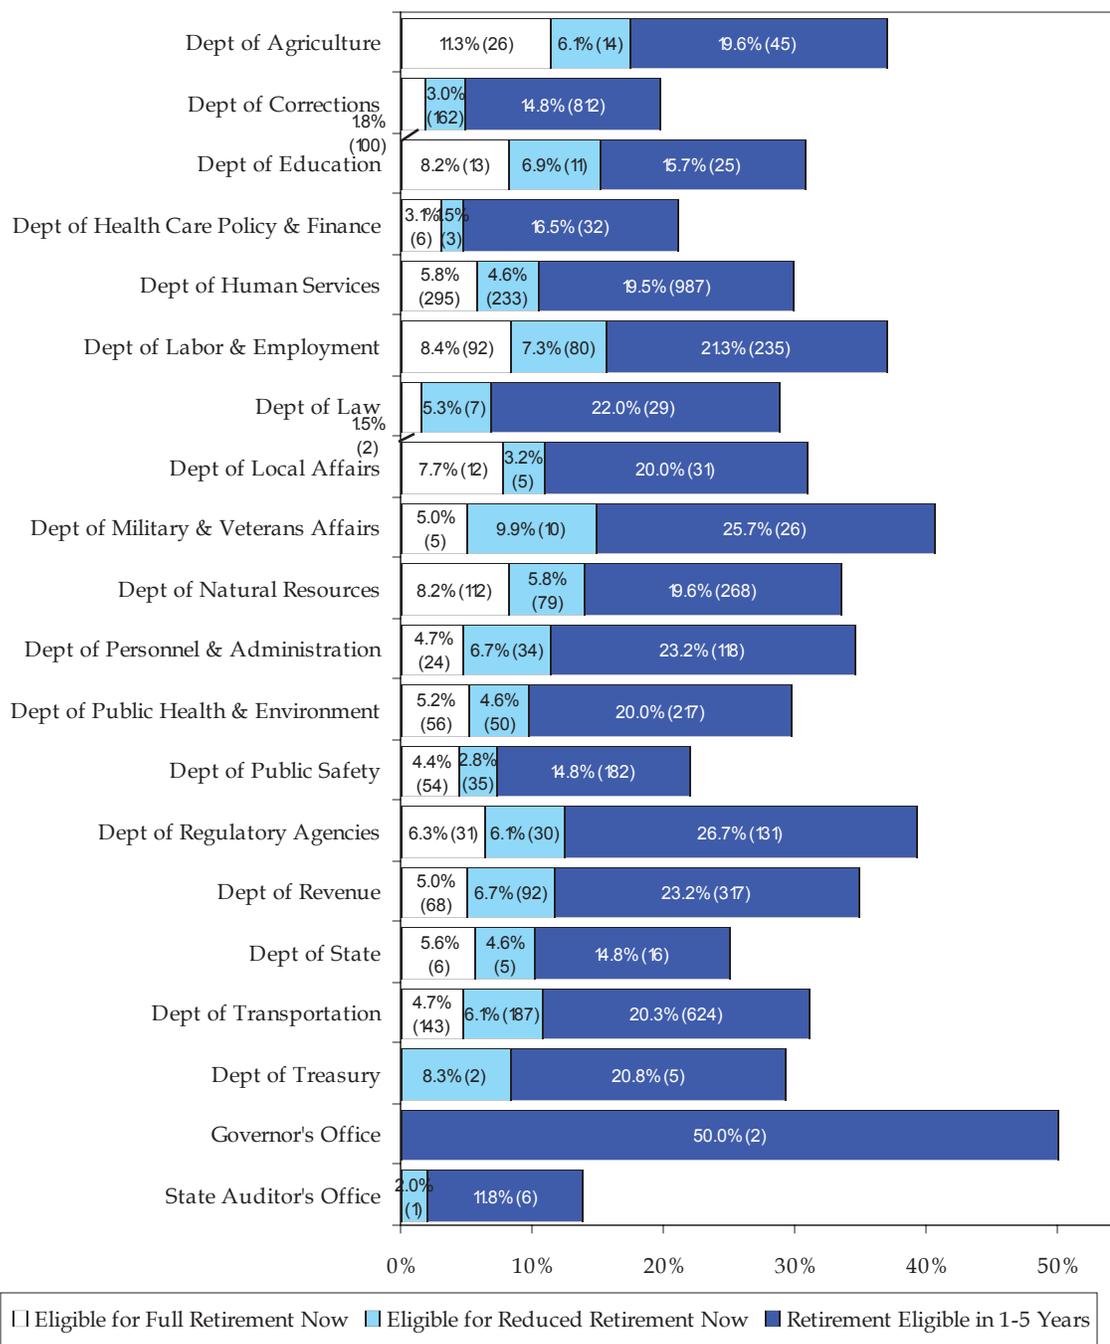

Percent and Number of Retirement Eligible Employees in the Next Five Years – Higher Education Institutions

Higher Education institutions may experience a slightly higher percent of retirement in the coming years as about 32% of employees will be eligible within the next 5 years versus 28.3% for general government.

2. WORKFORCE TRENDS

Percent and Number of Retirement Eligible Employees in the Next Five Years within Each Department*

*6,193 employees are eligible to retire from general government departments in the next five years. Percentages are based on total state personnel employees within each department.

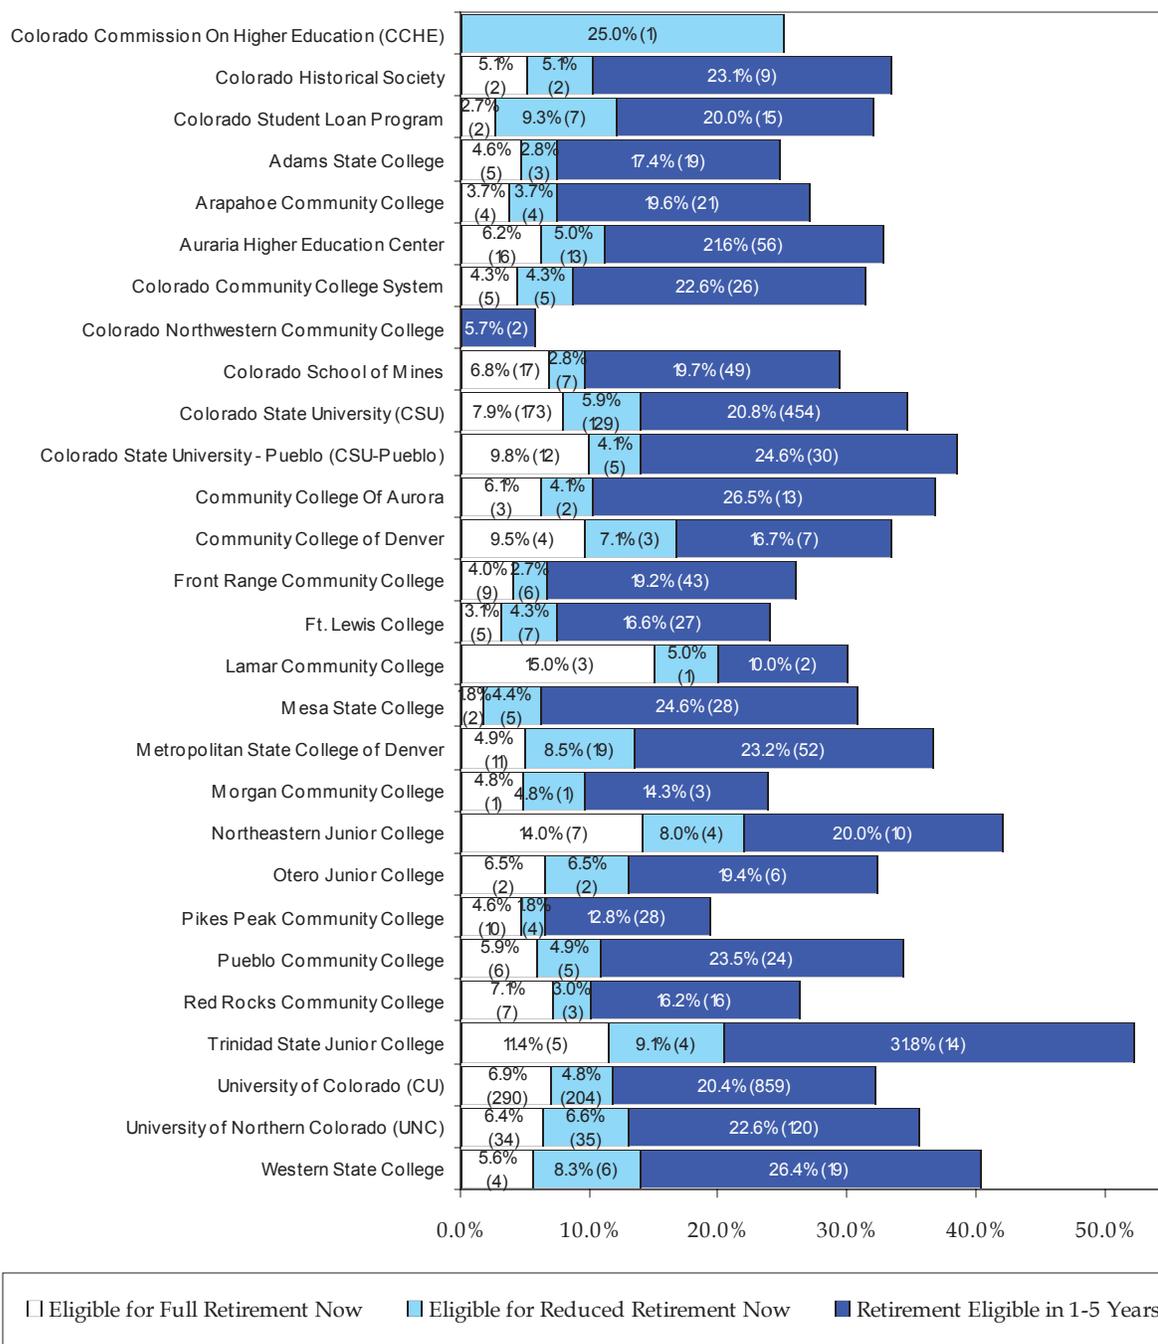

RETIREMENT PROJECTIONS

In the next five years, seven general government departments – Agriculture, Labor & Employment, Military & Veterans Affairs, Natural Resources, Personnel & Administration, Regulatory Agencies, and Revenue – have the potential of seeing more than a third of their entire workforce retire.

The two general government departments with the lowest potential retirements are Corrections and the State Auditor's Office.

2. WORKFORCE TRENDS

Percent and Number of Retirement Eligible Employees in the Next Five Years within Each Higher Education Institution*

*3,078 employees are eligible to retire from higher education institutions in the next five years. Percentages are based on total state personnel employees within each institution.

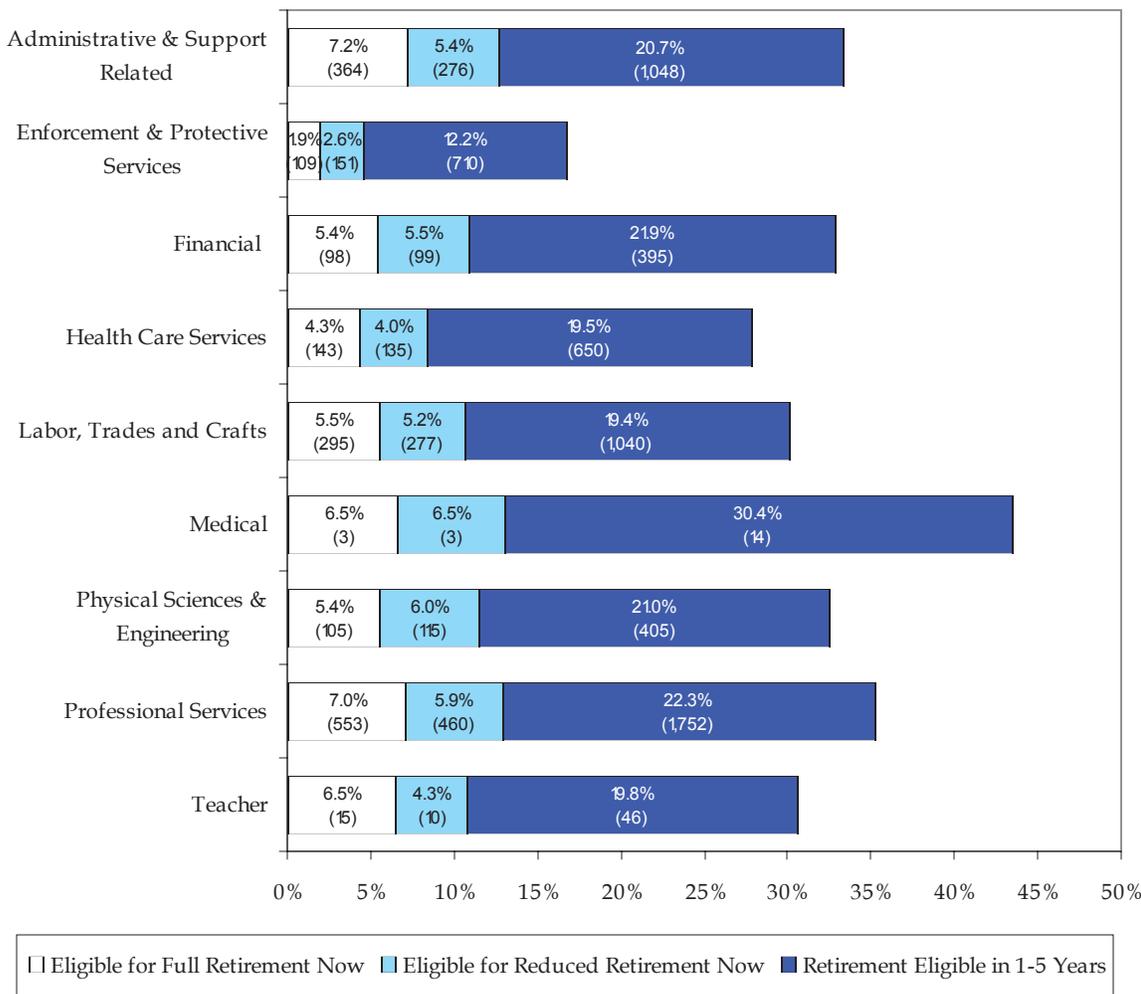

RETIREMENT PROJECTIONS

Within the next five years, 11 institutions – Colorado Historical Society, Colorado State University – Pueblo, Community College of Aurora, Community College of Denver, Metropolitan State College of Denver, Northeastern Junior College, Pueblo Community College, Trinidad State Junior College, University of Northern Colorado, University of Southern Colorado, and Western State College – face the potential retirement of a third or more of their state personnel system workforce.

2. WORKFORCE TRENDS

RETIREMENT PROJECTIONS

Percent and Number of Retirement Eligible Employees within Each Occupational Group in the Next Five Years*

More than one-third of the employees in the Medical and Professional Services occupational groups will be retirement eligible in the next five years.

*Statewide 9,271 employees are eligible to retire in the next five years. Percentages are based on total employees within each occupational group.

RETIREMENT PROJECTIONS BY OCCUPATIONAL GROUP

Thirty-one percent of employees in the Teacher group will be eligible to retire in the next five years.

This chart does not reflect those employees who may have purchased service credit or who have worked for other PERA employers.

2. WORKFORCE TRENDS

RETIREMENT PROJECTIONS – GENDER

Percent and Number of Employees Eligible to Retire in the Next Five Years

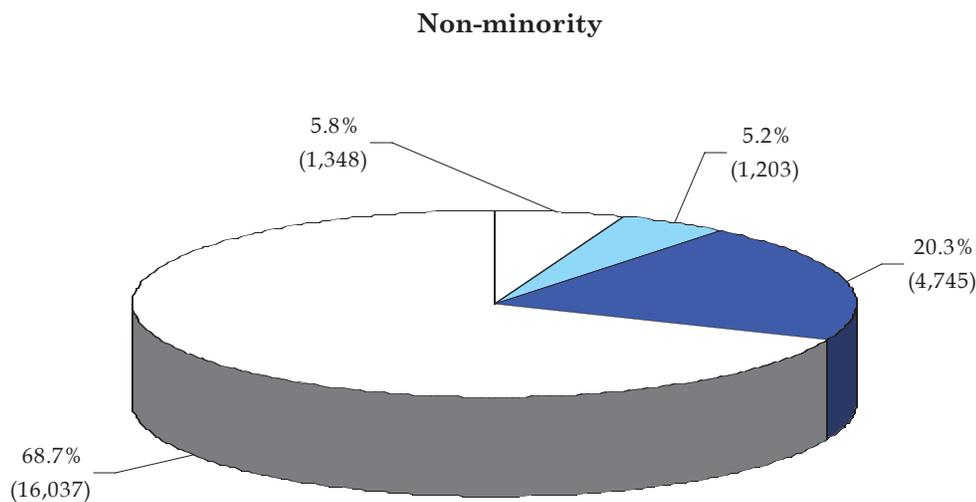

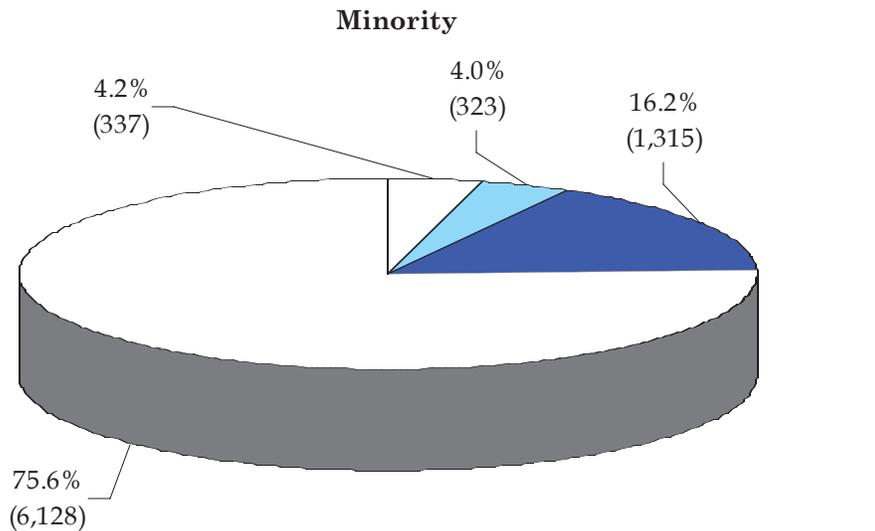

The number of men and women currently eligible to retire is approximately the same. More men than women will be eligible within the next five years.

□ Eligible for Full Retirement Now	■ Eligible for Reduced Retirement Now
■ Retirement Eligible in 1-5 Years	□ Not Retirement Eligible in the Next 5 Years

*Percentages are based on the total of 8,371 employees who are eligible to retire in the next five years.

2. WORKFORCE TRENDS

Percent and Number Employees Eligible to Retire in the Next Five Years

□ Eligible for Full Retirement Now	■ Eligible for Reduced Retirement Now
■ Retirement Eligible in 1-5 Years	□ Not Retirement Eligible in the Next 5 Years

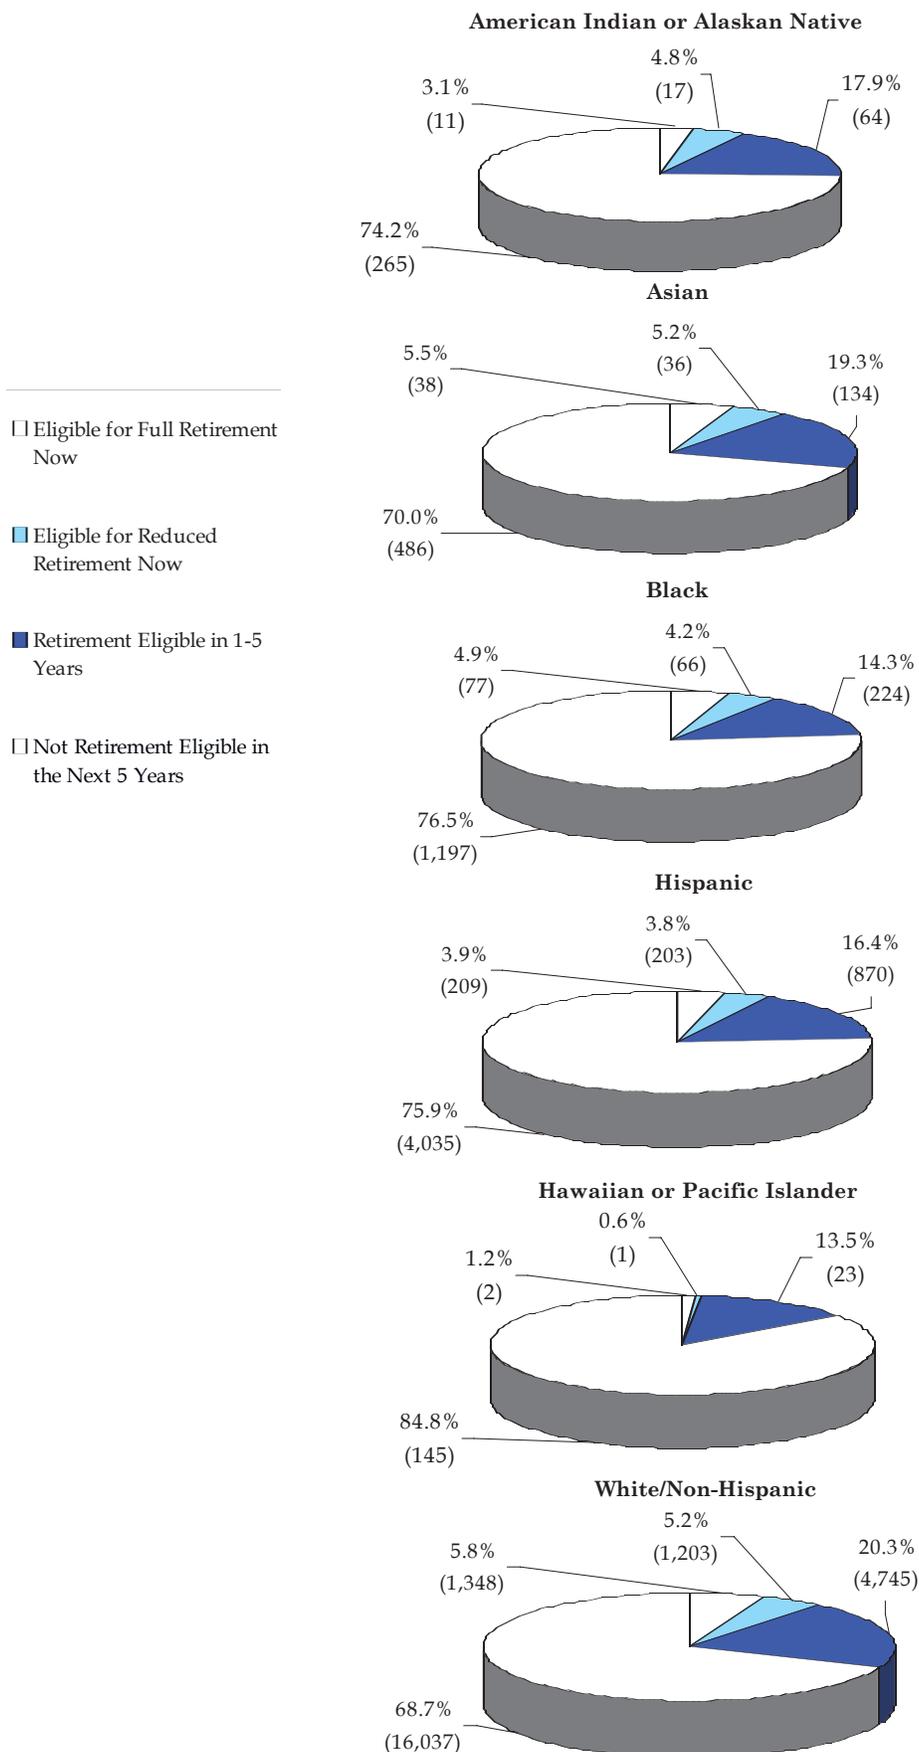

*Percentages are based on the total of 9,271 employees who are eligible to retire in the next five years.

RETIREMENT PROJECTIONS – MINORITY/NON-MINORITY

In five years, 31.3% non-minority employees will be eligible to retire compared to only 24.4% of the minority workforce.

2. WORKFORCE TRENDS

Percent and Number of Employees Eligible to Retire in the Next Five Years

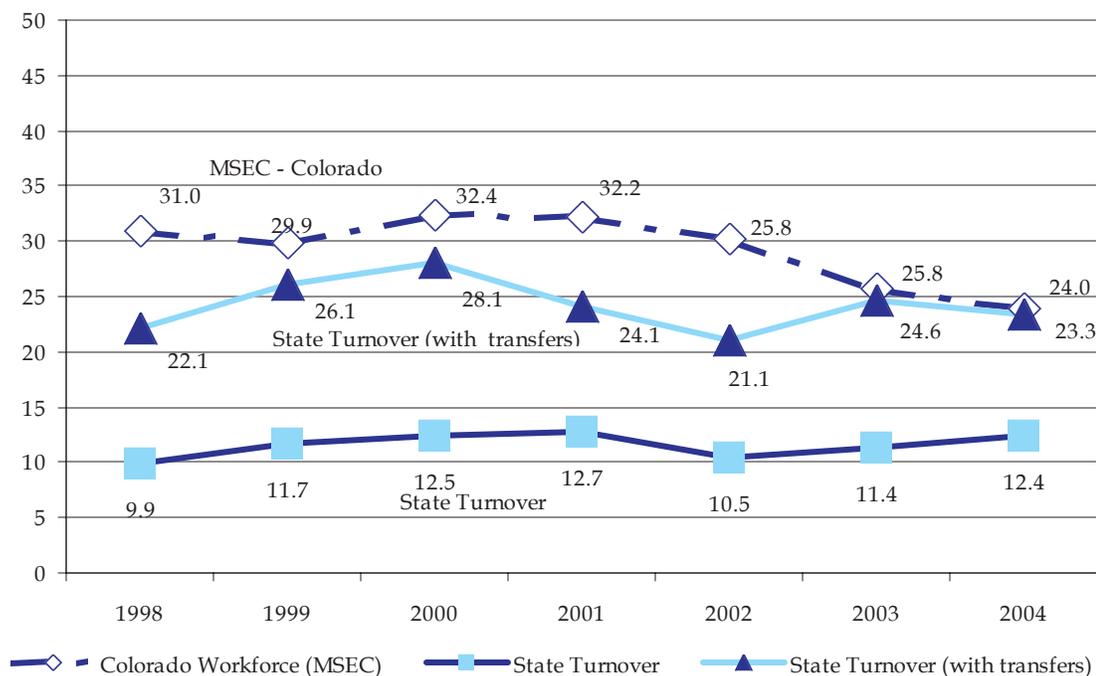

RETIREMENT PROJECTIONS BY ETHNICITY

Following the White, Non-Hispanic ethnic group at 31.3%, the next highest percentage of ethnic group employees who will be eligible to retire within the next five years is the Asian group at 30%.

The Native Hawaiian or Pacific Islander group is the ethnic group predicted to experience the lowest percentage of retirements within the next five years – 15.3%.

2. WORKFORCE TRENDS

Comparison of Turnover Rates for State Personnel System Employees and Colorado Workforce 1998 to 2004*

* Data for turnover in the general workforce was obtained from Mountain States Employers Council (MSEC) and includes private and public employers.

- MSEC data includes transfers within an organization, but to a different location.
- State turnover is defined as separations from state employment, including employee and employer initiated separations, layoffs, retirements, and deaths. The state excludes transfers because these individuals are still considered employees of state government.
- In order to compare with MSEC data, a separate line for turnover with transfers is included.
- Data represents only permanent employees.
- Includes CSU data. Previous reports excluded CSU data. With CSU data overall state defined turnover rate is unchanged at 12.4% and turnover rate; including transfers is 23.3%.

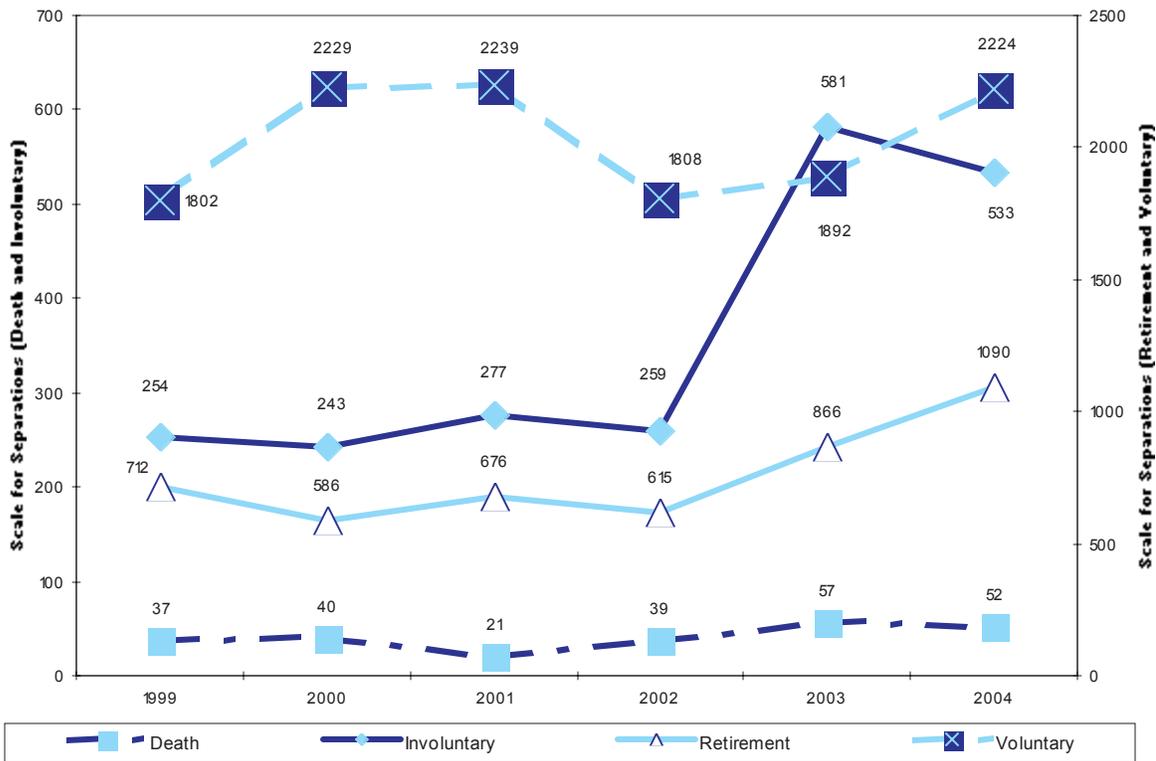

TURNOVER

The state turnover rate of 23.3%, that includes transfers, correlates with the MSEC turnover rate of 24%.

Turnover in terms of employees leaving state government is 12.4% (3,396 employees).

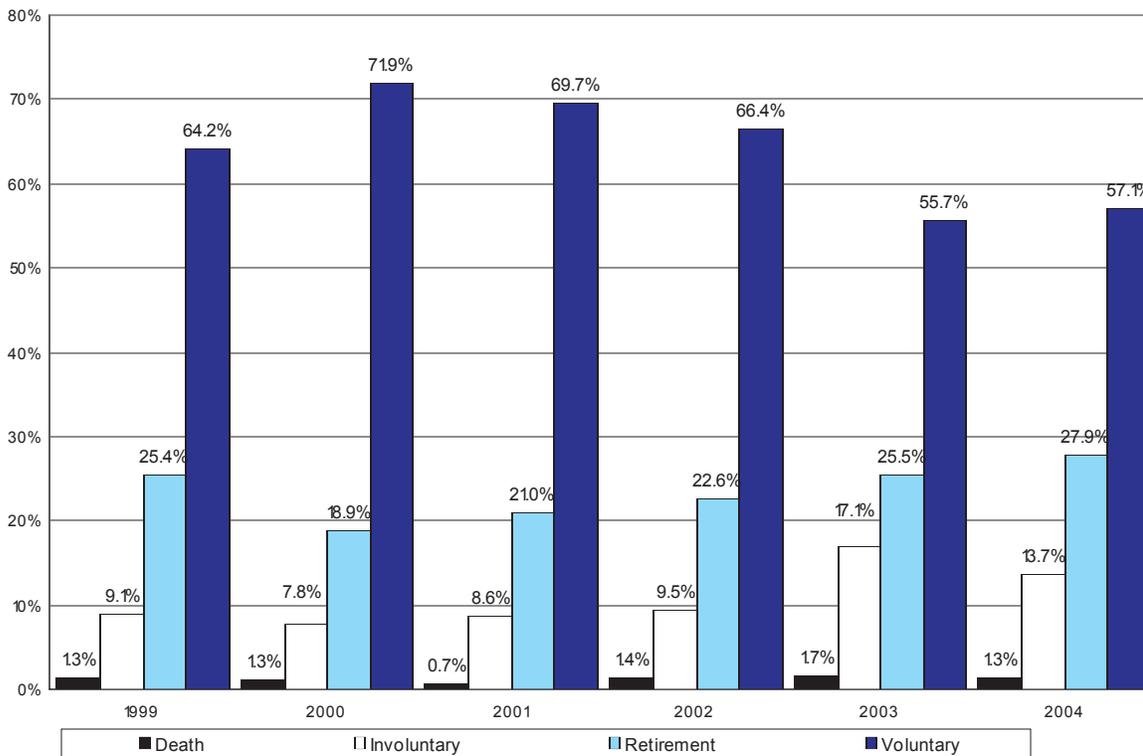

2. WORKFORCE TRENDS

Number of Separations by Type from FY 99 - FY 04*

The scales vary greatly in order to accommodate the representation of the four basic types of separations.

Percent of Separations by Type from FY 99 - FY 04*

*Includes CU data for FY 02-03 and FY 03-04 and CSU data for FY 03-04

TURNOVER

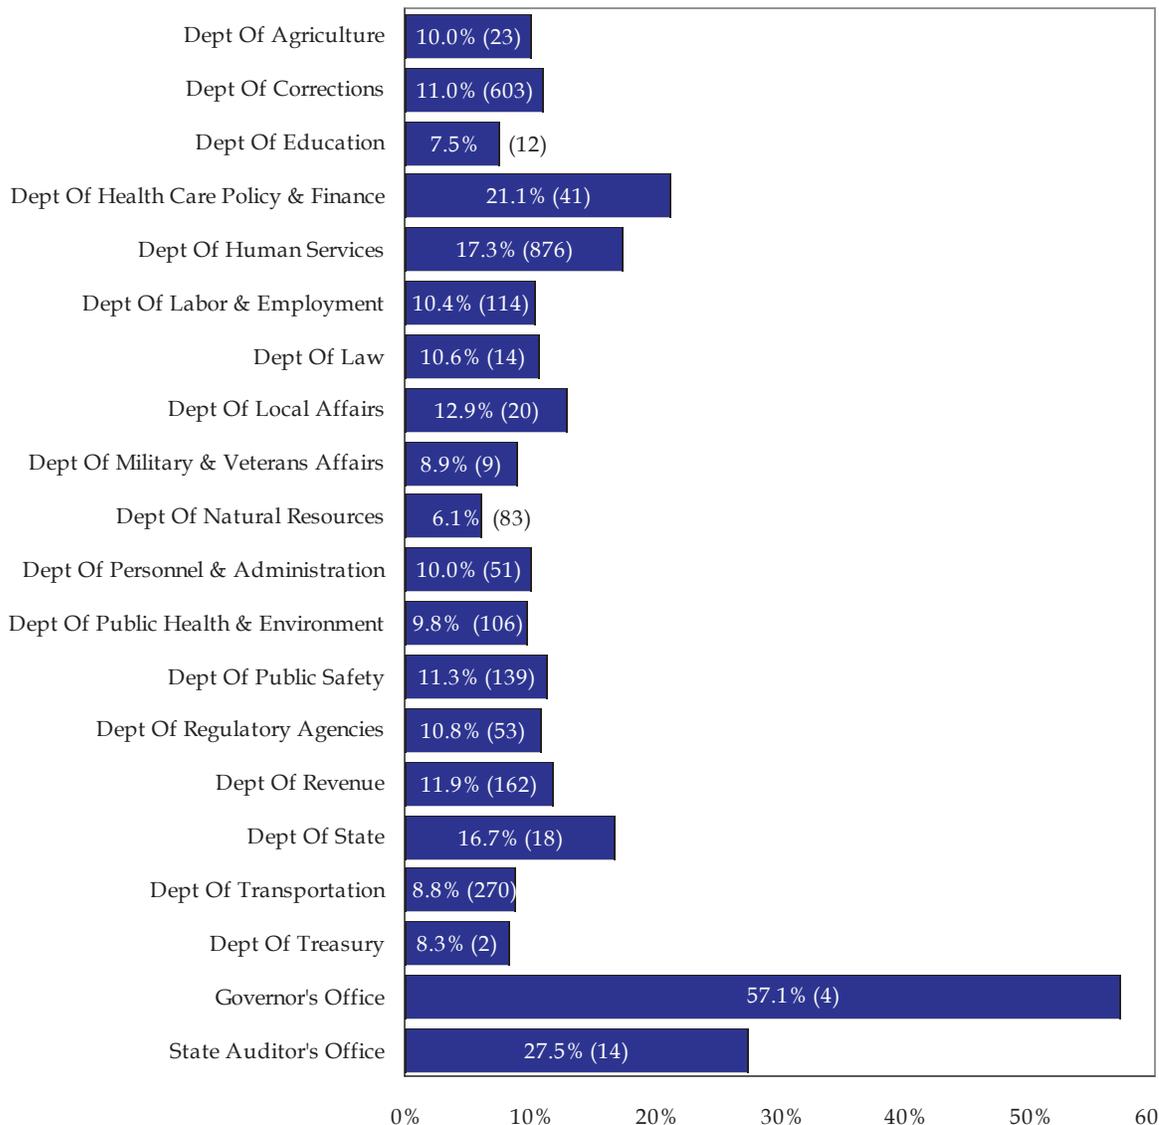

The turnover rate for state personnel system employees has increased by 1% in the last year.

The number of involuntary separations, which includes layoffs has decreased by 3.4% in the last year. The percent and number of separations by the categories "Retirement" and "Voluntary" increased in the last year – retirements by 2.4% and voluntary by 1.4%.

Data continue to show that most employees leave state employment in the first three years of employment, which is similar to the market as reported by U.S. Department of Labor and by MSEC.

2. WORKFORCE TRENDS

Percent and Number of Separations within Each Department

*A total of 2,644 employees separated from employment from *general government departments*. Percentages are based on total employee turnover within each department.

TURNOVER

Although the Governor's Office shows the highest percentage of turnover, only 4 employees left.

The State Auditor's Office shows a high percentage of turnover – 27.5%. Fourteen employees left the office during the year.

The Department of Health Care Policy & Finance had a turnover rate of 21.1% (41 employees) and also experienced an overall increase in the number of employees through the year (15) as illustrated on page 4 of this report.

The chart does not reflect transfers from one department to another.

2. WORKFORCE TRENDS

Percent of Separations by Department from FY 99 - FY 04

Department	FY 99	FY 00	FY 01	FY 02	FY 03	FY 04

State Auditor's Office	32.1%	35.3%	15.8%	1.8%	10.9%	27.5%

TURNOVER

Thirteen general government departments saw higher turnover rates in 2004 as compared to the previous year.

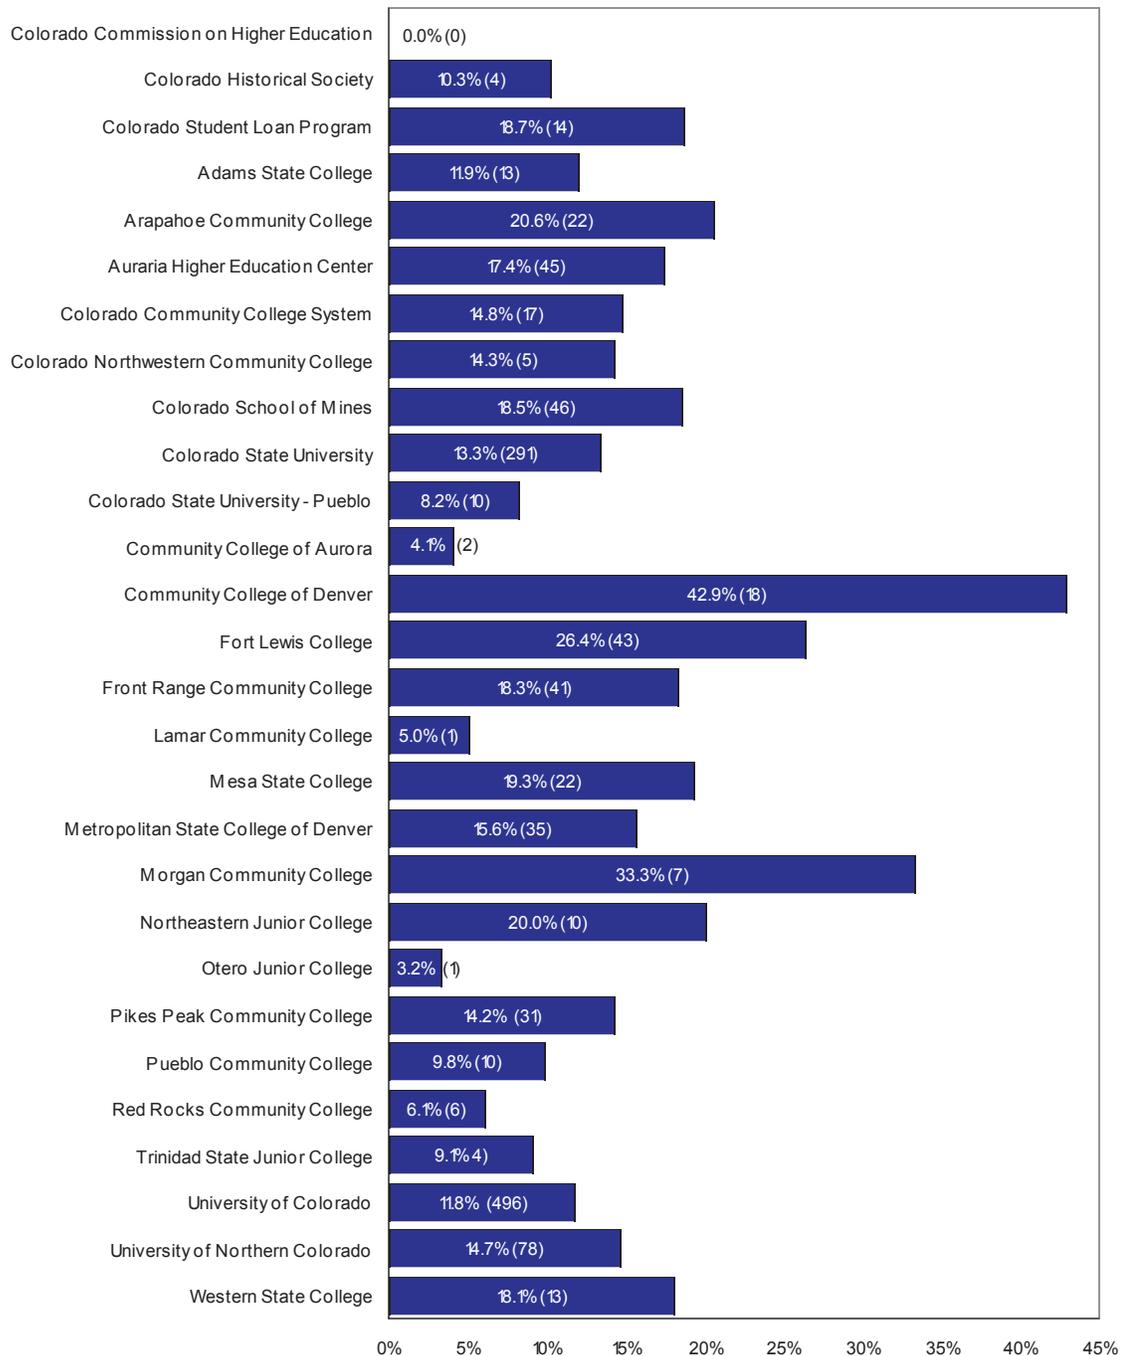

Over the past five years, Transportation and the Natural Resources have consistently had lower turnover in comparison to other general government departments.

Six general government departments have turnover rates higher than the statewide average of 12.4%.

The overall average turnover for general government institutions for FY 03-04 is 11.9%.

2. WORKFORCE TRENDS

Percent and Number of Separations within Each Higher Education Institution

A total of 1,285 employees separated from employment from *higher education institutions*. Percentages are based on total employee turnover within each institution.

TURNOVER

Of the higher education institutions with 100 or more employees, Ft. Lewis College had the highest turnover (26.4%), followed by Arapahoe Community College (20.6%) and Mesa State College (19.3%).

The chart does not reflect transfers from one department to another.

2. WORKFORCE TRENDS

Western State College	15.7%	16.5%	16.5%	20.3%	4.2%	18.1%

TURNOVER

Generally, turnover rates for higher education institutions have been higher than those of general government departments over the past five years.

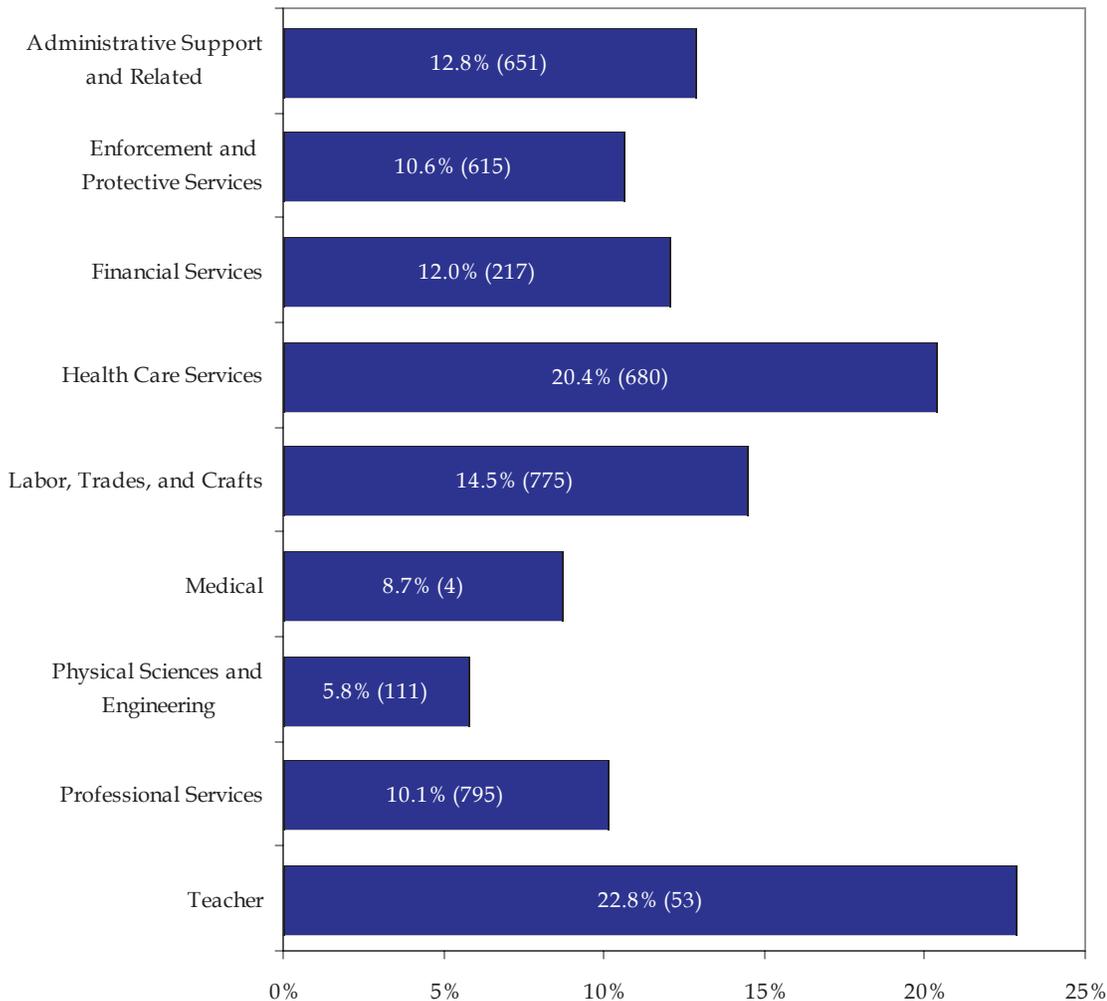

Seventeen institutions had turnover rates higher than the statewide average of 12.4%.

The overall average turnover for higher education institutions for FY 03-04 is 13.5%.

Colorado Student Loan reported the highest turnover rate for FY 02-03 (39.8%). In the last year, the turnover rate has dropped to 18.7%.

2. WORKFORCE TRENDS

Percent and Number of Separations within Each Occupational Group

*A total of 3,396 employees separated from employment in the state personnel system. Percentages are based on total employee turnover within each occupational group.

TURNOVER

Seven occupational groups experienced an increase in the turnover rate from the previous year – Enforcement and Protective Services (9.9% to 10.6%), Financial Services (10.5% to 12.0%), Health Care Services (18.3% to 20.4%), Labor, Trades, and Crafts (12.6% to 14.5%). Professional Services (9.1% to 10.1%), (Physical Sciences and Engineering (5.2% to 5.8%), and Teacher (14.7% to 22.8%).

Two occupational groups had lower turnover rates than the previous year – Administrative Support and Related (13.3% to 12.8%), and Medical (27.7% to 8.7%).

2. WORKFORCE TRENDS

Percent of Separations by Occupational Group from FY 99 - 04

Occupational Group	FY 99	FY 00	FY 01	FY 02	FY 03	FY 04
Administrative Support and Related	14.70%	16.10%	15.30%	12.90%	13.30%	12.8%
Enforcement and Protective Services	8.30%	9.70%	11.20%	8.50%	9.90%	10.6%
Financial Services	10.60%	12.00%	9.30%	8.50%	10.50%	12.0%
Health Care Services	16.70%	18.40%	20.50%	17.50%	18.30%	20.4%
Labor, Trades, and Crafts	14.80%	15.10%	14.90%	13.00%	12.60%	14.5%
Medical	13.30%	12.50%	3.90%	14.30%	27.70%	8.7%
Physical Sciences and Engineering	7.40%	6.80%	6.50%	5.60%	5.20%	5.8%
Professional Services	8.90%	9.50%	9.90%	7.70%	9.10%	10.1%
SES (included in PS for FY 03-04)	14.30%	14.00%	14.30%	13.00%	15.30%	NA
Teacher	14.70%	19.50%	15.60%	14.40%	14.70%	22.8%

TURNOVER

Two occupational groups – Health Care Services and Teacher - have experienced the highest turnover rates for the six years shown except for one year. The Medical group had the highest turnover rate for all occupational groups for all six years shown – FY 02-03 (27.7%).

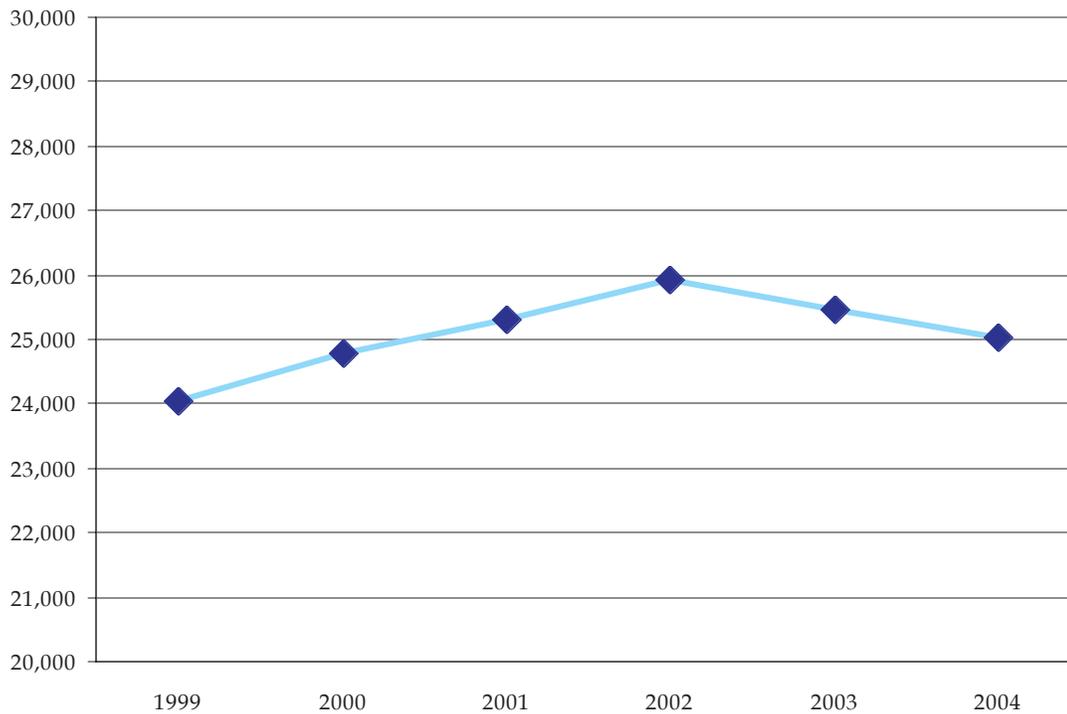

Physical Sciences and Engineering has had the lowest turnover rate for the past six years, except for FY 00-01 when the Medical group had the lowest annual turnover rate for all groups and all six years shown (3.9%).

2. WORKFORCE TRENDS

JOB GROWTH

In 2003, for the first time in recent history, the state personnel system saw a decline in job growth.

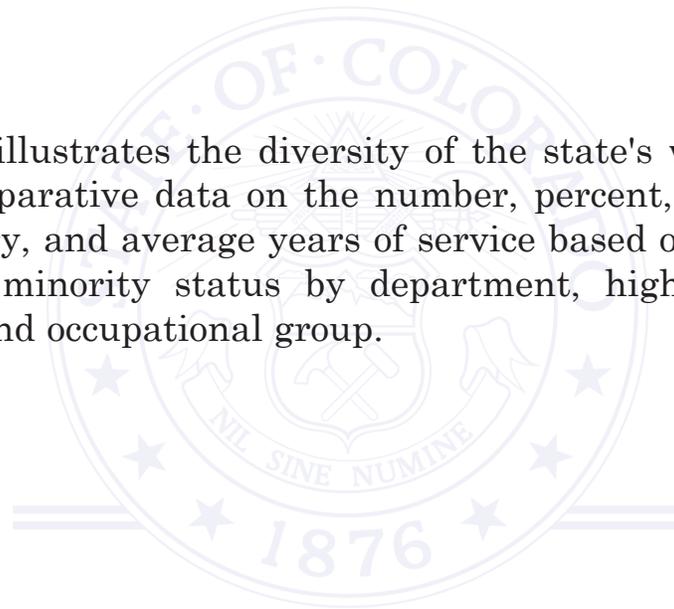

Job Growth History Since FY 99*

Year	June 30, 1999	June 30, 2000	June 30, 2001	June 20, 2002	June 30, 2003	June 30, 2004
Employees	24,047	24,789	25,298	25,913	25,474	25,041
% Change	3.6%	3.1%	2.1%	2.4%	-1.7%	-1.7%

* Does not include CU or CSU data. CU data is not included in either the table or the chart. CU represents an additional 4,215 and CSU represents an additional 2,180 employees, making the total number of employees 31,436. Using CU and CSU data inaccurately represents job growth for FY 02-03 and FY 03-04.

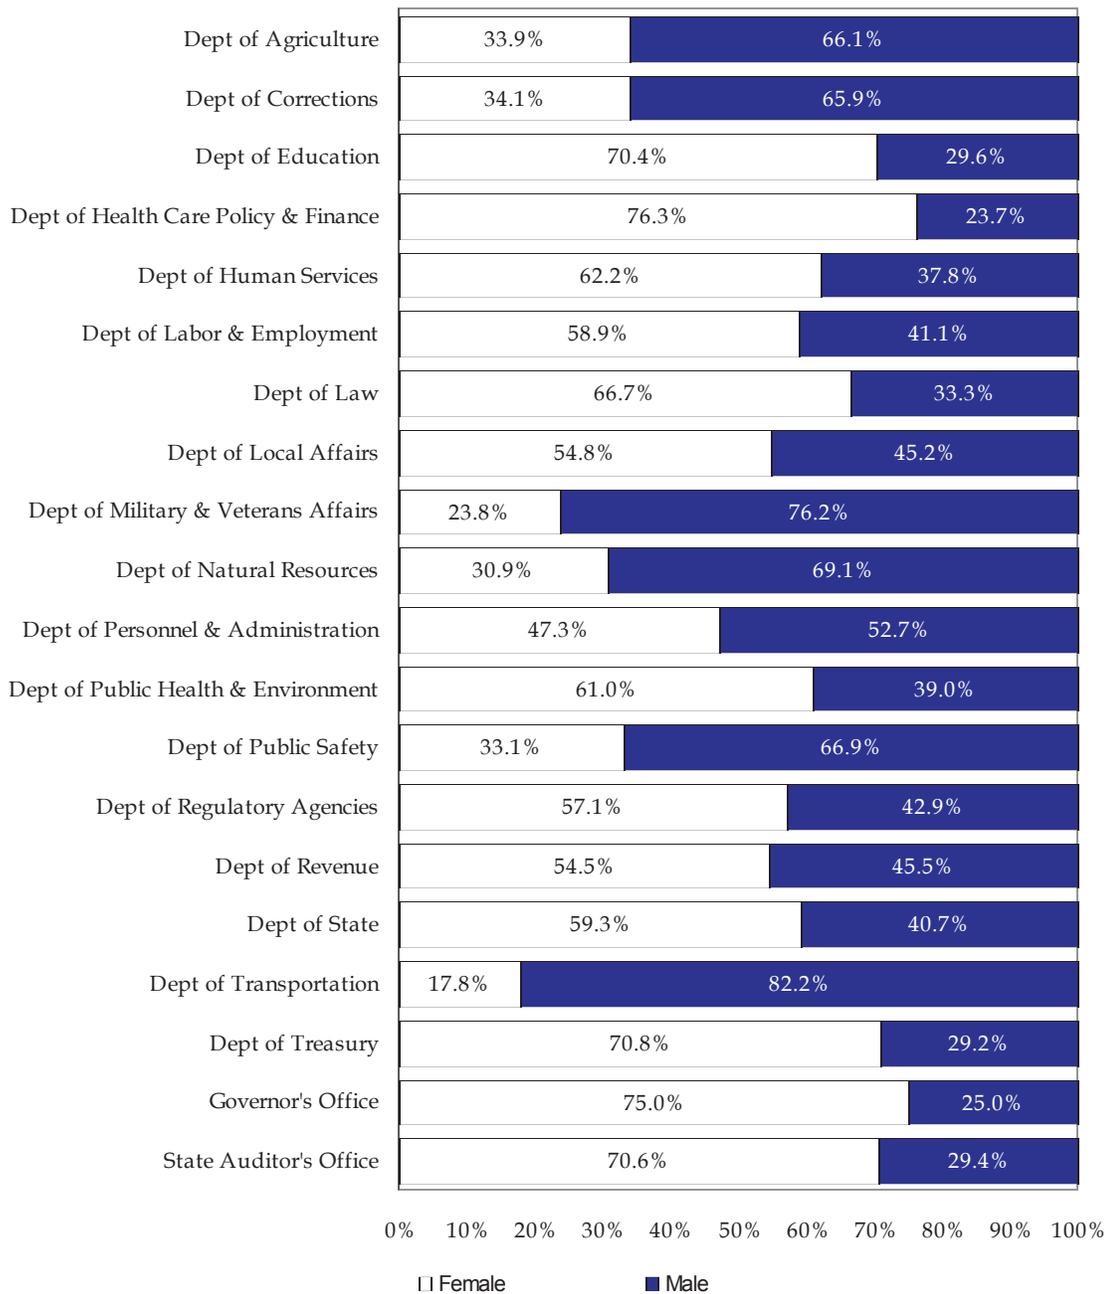

This section illustrates the diversity of the state's workforce. It provides comparative data on the number, percent, average age, average salary, and average years of service based on gender and minority/non-minority status by department, higher education institution, and occupational group.

DPA

3. GENDER & MINORITY/NON-MINORITY STATISTICS

Comparative Gender Percentages

GENERAL GOVERNMENT DEPARTMENTS

The percentage of female employees is greater in 13 of the general government departments. The percentage of female employees in the overall general government workforce is 12.2% less than that of male employees.

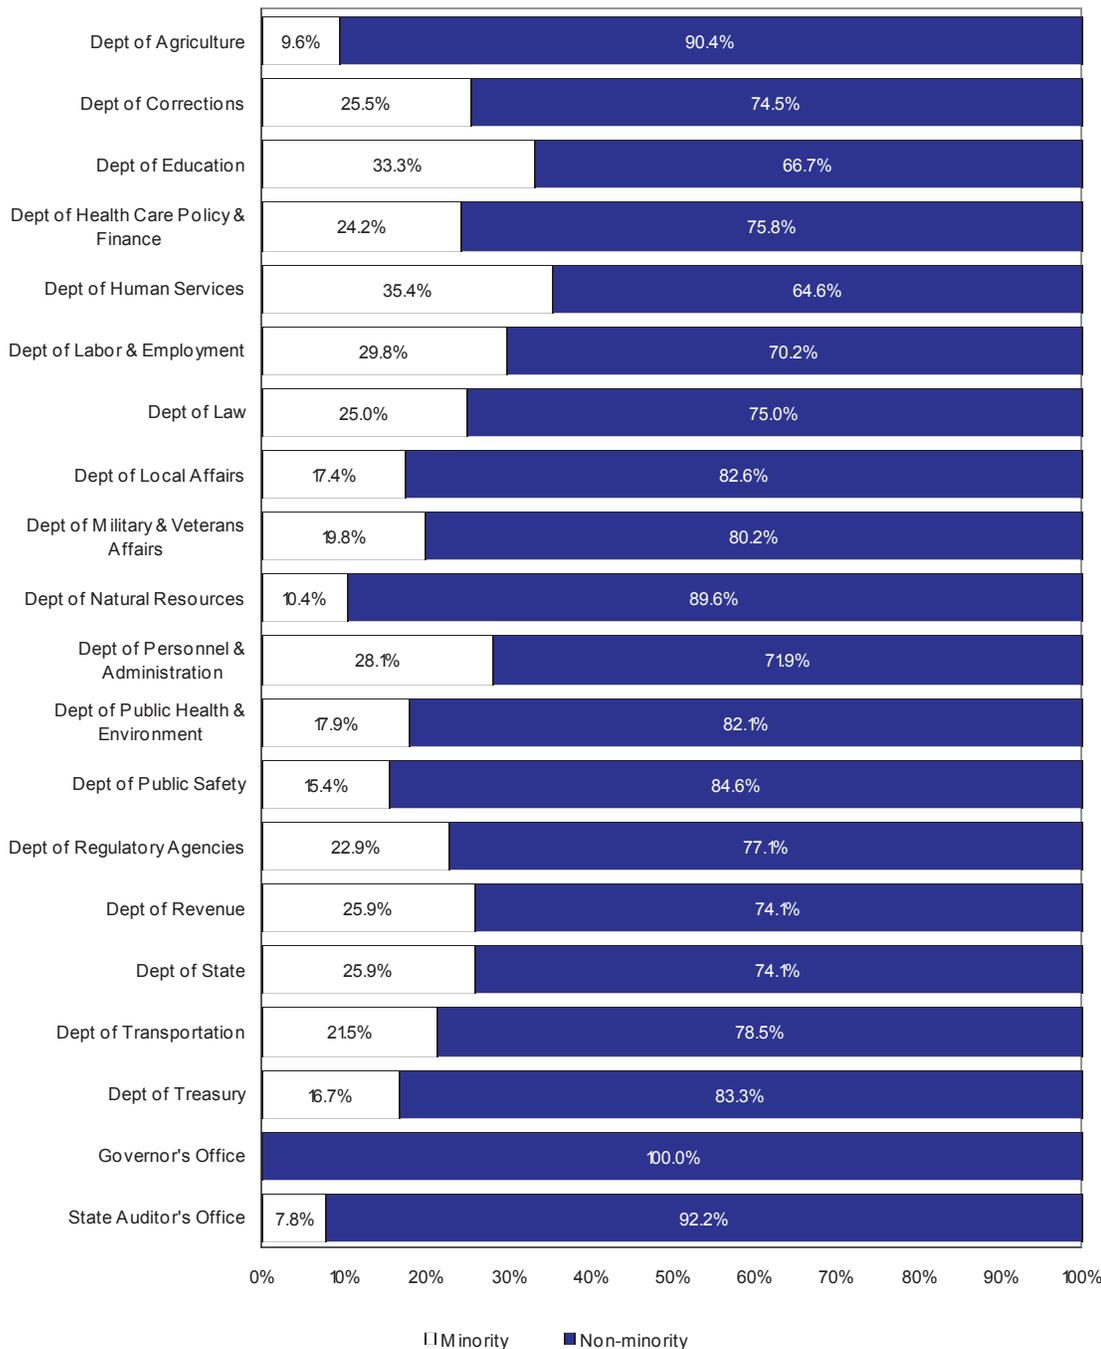

In general government the overall percent of male employees is 56.1% and female employees is 43.9%.

Statewide, there are 51.1% male employees and 48.9% female employees for FY 03-04, a difference of 2.1%.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

GENERAL GOVERNMENT DEPARTMENTS

Comparative Minority/Non-minority Percentages

Six of the general government departments have a minority workforce greater than the statewide average of 25.8% – Education, Human Services, Labor & Employment, Personnel & Administration, Revenue and State.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

GENERAL GOVERNMENT DEPARTMENTS

In five general government departments the average annual salary of male employees is \$10,000 greater than the average annual salary of female employees.

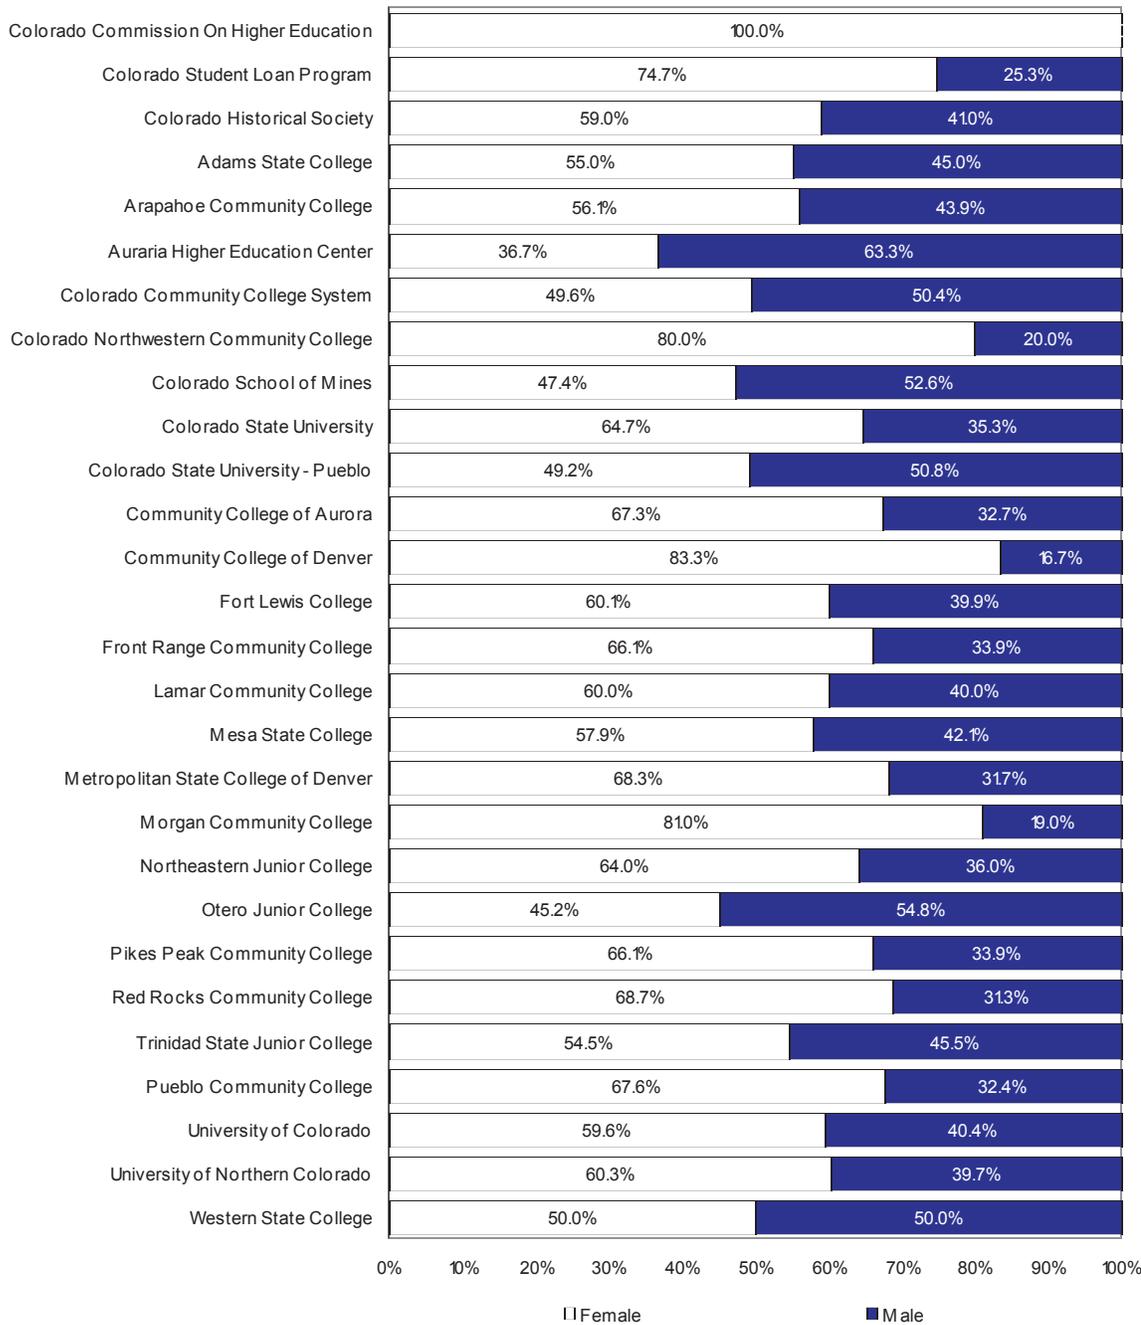

In five general government departments, the average annual salary of non-minority employees is \$10,000 greater than the average annual salary for minority employees.

In one department, the State Auditor's Office, the average annual salary of female employees is more than \$10,000 greater than the average annual salary of male employees.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

HIGHER EDUCATION INSTITUTIONS

Comparative Gender Percentages

The disproportionate percentage of women in higher education institutions reflects that the majority of higher education employees in the state personnel system are in the Administrative Support and Related occupational group, which is predominantly female.

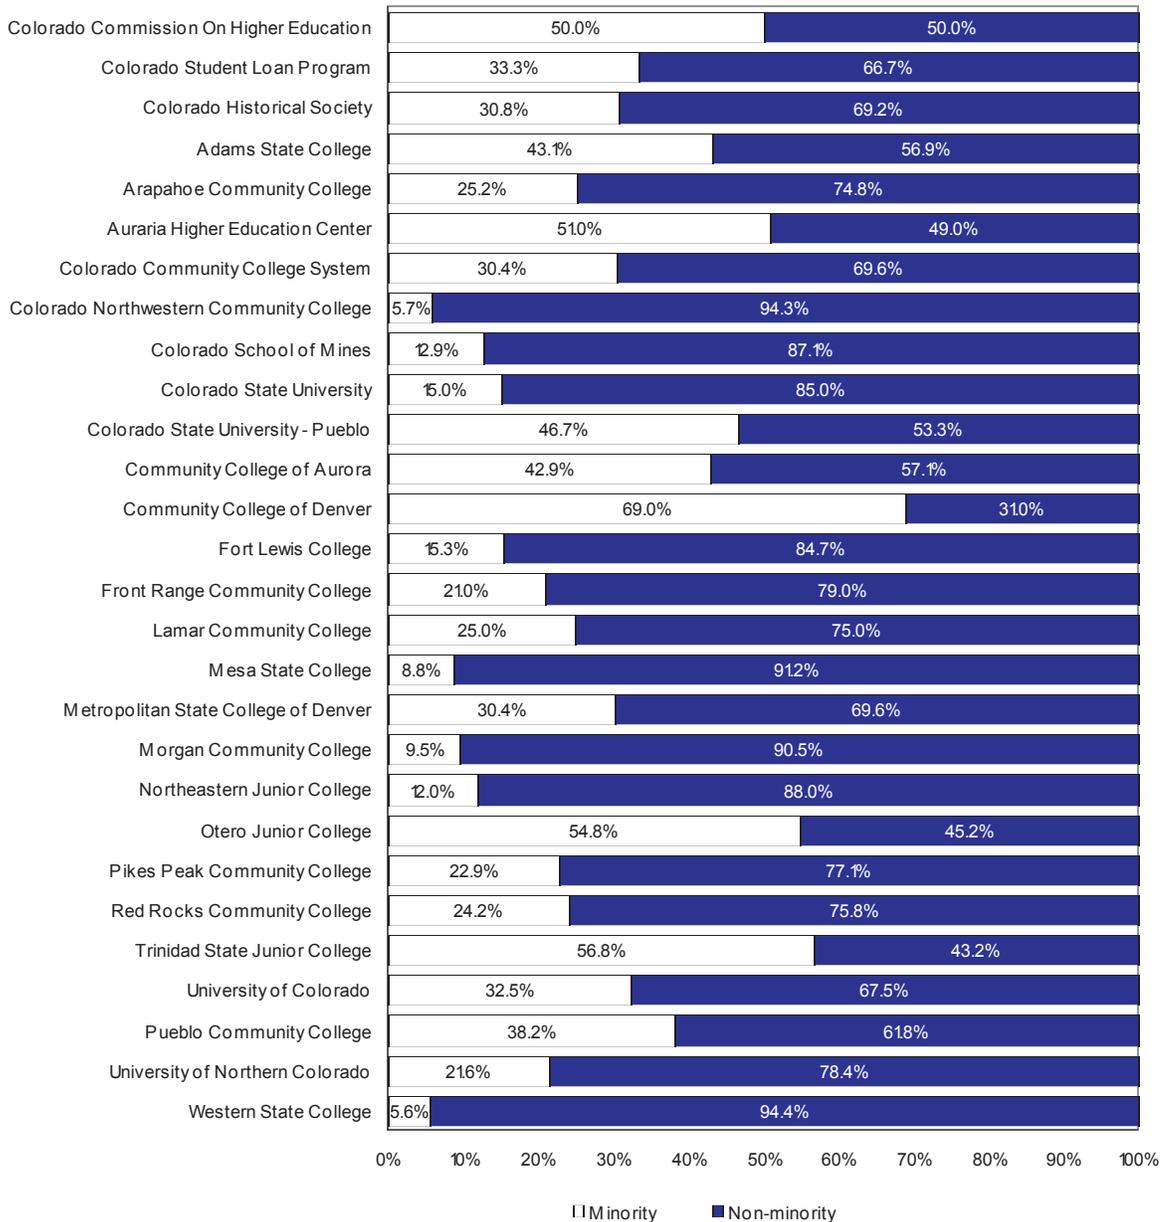

The percentage of female employees (60.5%) in the overall higher education workforce is 21% more than that of male employees (39.5%).

Statewide, there are 51.1% male employees and 48.9% female employees for FY 03-04, a difference of 2.2%.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

HIGHER EDUCATION INSTITUTIONS

Comparative Minority/Non-minority Percentages

Among higher education institutions, 15 of the 28 institutions have a minority workforce greater than the statewide average of 26.6%.

Data reflect only a portion of higher education institutions' total workforce – faculty and administrators are exempt from the state personnel system.

HIGHER EDUCATION INSTITUTIONS

On average, state personnel system employees at 25 higher education institutions have lower average salaries than the statewide average of \$45,425 in all four categories.

Fourteen institutions have average annual salaries lower than the higher education average of \$38,438 in all four categories.

On average, six institutions – Auraria Higher Education Center, Community College of Aurora, Lamar Community College, Mesa State College, Northeastern Junior College, and Trinidad Junior College – have employees older than the statewide average of 45.6 in all four categories. CCHE is not included in this count because only three categories apply.

Annual salary averages were higher for men than for women in all but four institutions.

Auraria Higher Education Center, Community College of Denver, Otero Junior College, and Trinidad Junior State College have the highest percentages of minorities.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

**Comparative Gender Percentages –
Statewide**

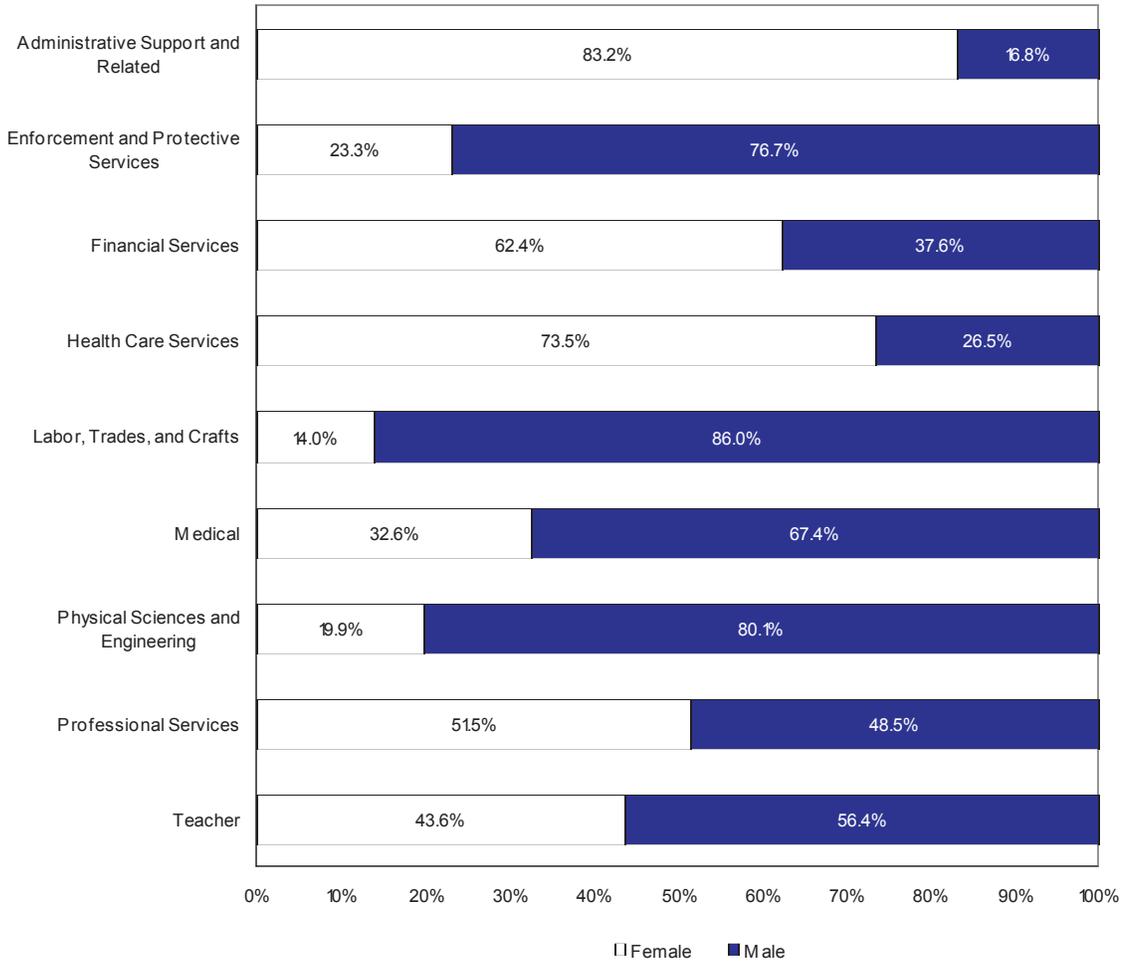

OCCUPATIONAL GROUPS

Three occupational groups have noticeably higher percentages of women than the statewide average of 48.9% – Administrative Support and Related (86.4%), Financial Services (70.0%), and Health Care Services (73.7%).

Four occupational groups have noticeably higher percentages of men than the statewide average of 51.1% – Enforcement and Protective Services (77.7%), Labor, Trades, and Crafts (79.1%), Medical (67.4%), and Physical Sciences and Engineering (79.6%).

3. GENDER & MINORITY/NON-MINORITY STATISTICS

Comparative Gender Percentages – General Government Departments

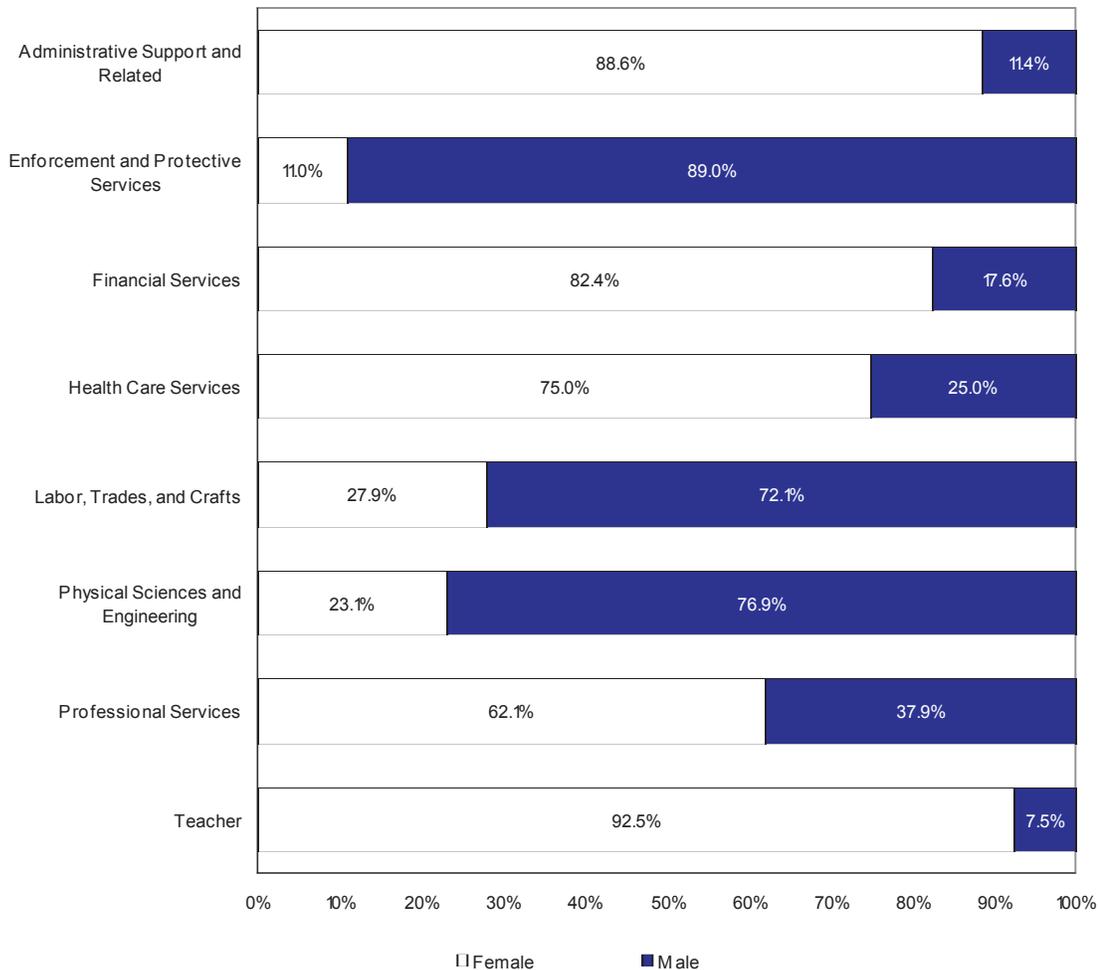

OCCUPATIONAL GROUPS

Three occupational groups have noticeably higher percentages of women than the statewide average of 48.9% – Administrative Support and Related (83.2%), Financial Services (62.4%), and Health Care Services (73.5%).

Four occupational groups have noticeably higher percentages of men than the statewide average of 51.1% – Enforcement and Protective Services (76.7%), Labor, Trades, and Crafts (86.0%), Medical (67.4%), and Physical Sciences and Engineering (80.1%).

3. GENDER & MINORITY/NON-MINORITY STATISTICS

Comparative Gender Percentages – Higher Education Institutions

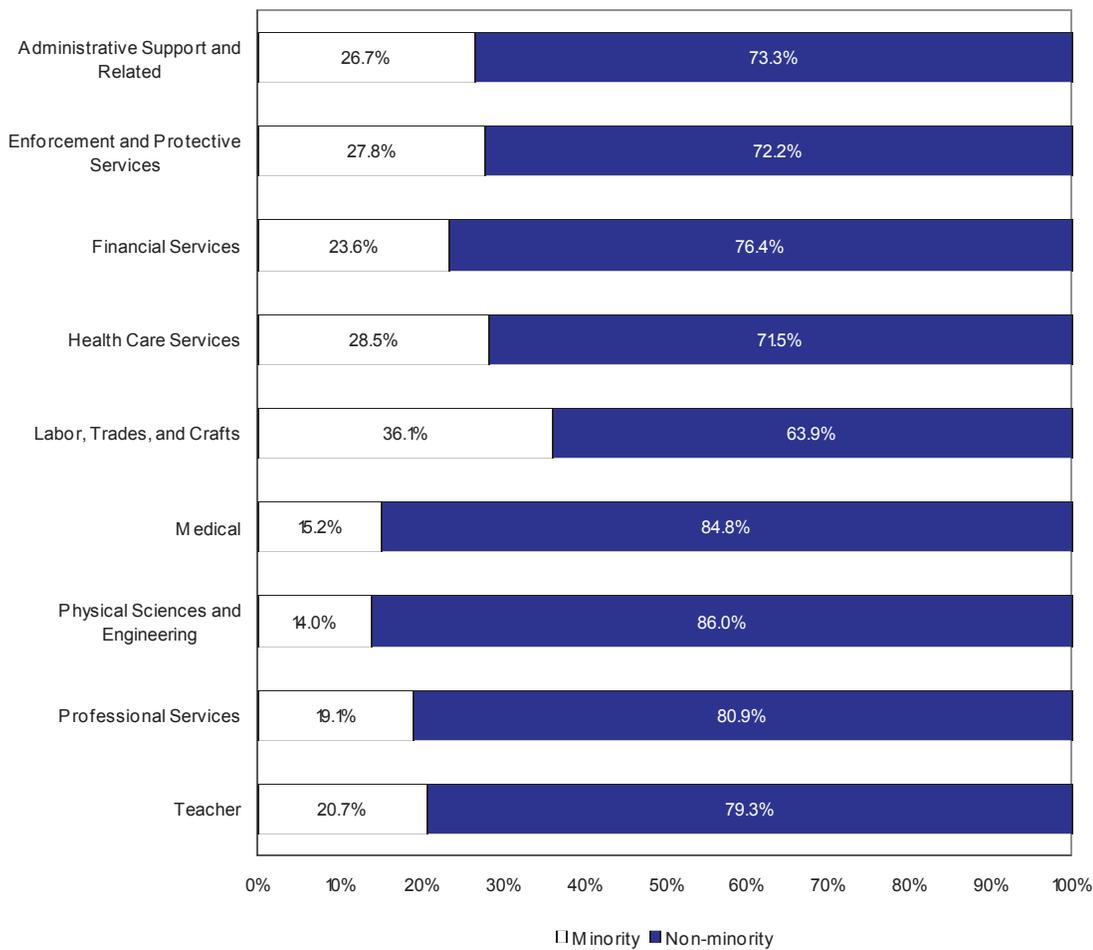

OCCUPATIONAL GROUPS

Five occupational groups have noticeably higher percentages of women in the workforce than the statewide average of 48.9% – Administrative Support and Related (88.6%), Financial Services (82.4%), Health Care Services (75.0%), Professional Services (62.1%), and Teacher (92.5%).

Three occupational groups have noticeably higher percentages of men than the statewide average of 51.1% – Enforcement and Protective Services (89.0%), Labor, Trades, and Crafts (72.1%), and Physical Sciences and Engineering (76.9%).

3. GENDER & MINORITY/NON-MINORITY STATISTICS

Comparative Minority/Non-minority Percentages – Statewide

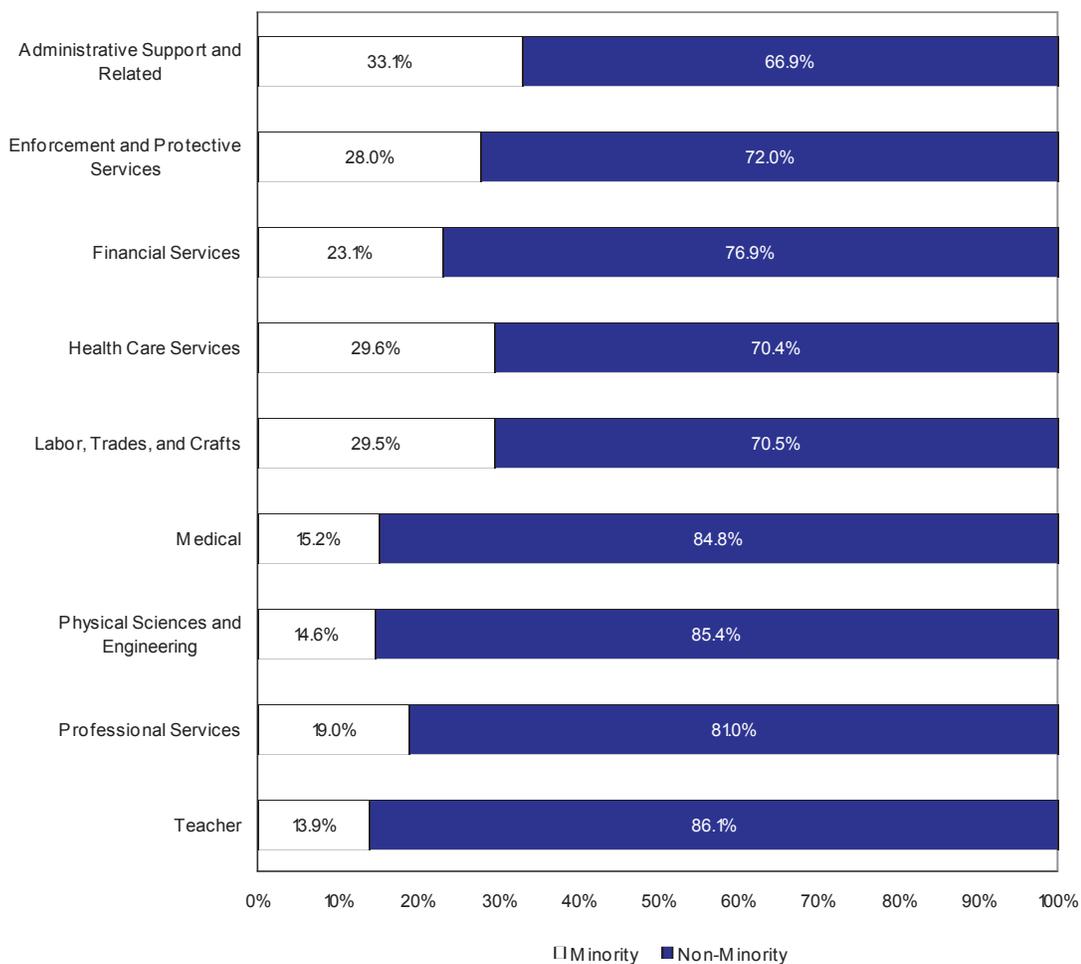

OCCUPATIONAL GROUPS

Four occupational groups have minority representation above the statewide average of 25.8% – Administrative Support & Related (26.7%), Enforcement and Protective (27.8%), Health Care Services (28.5%), and Labor, Trades, and Crafts (36.1%).

3. GENDER & MINORITY/NON-MINORITY STATISTICS

Comparative Minority/Non-minority Percentages – General Government Departments

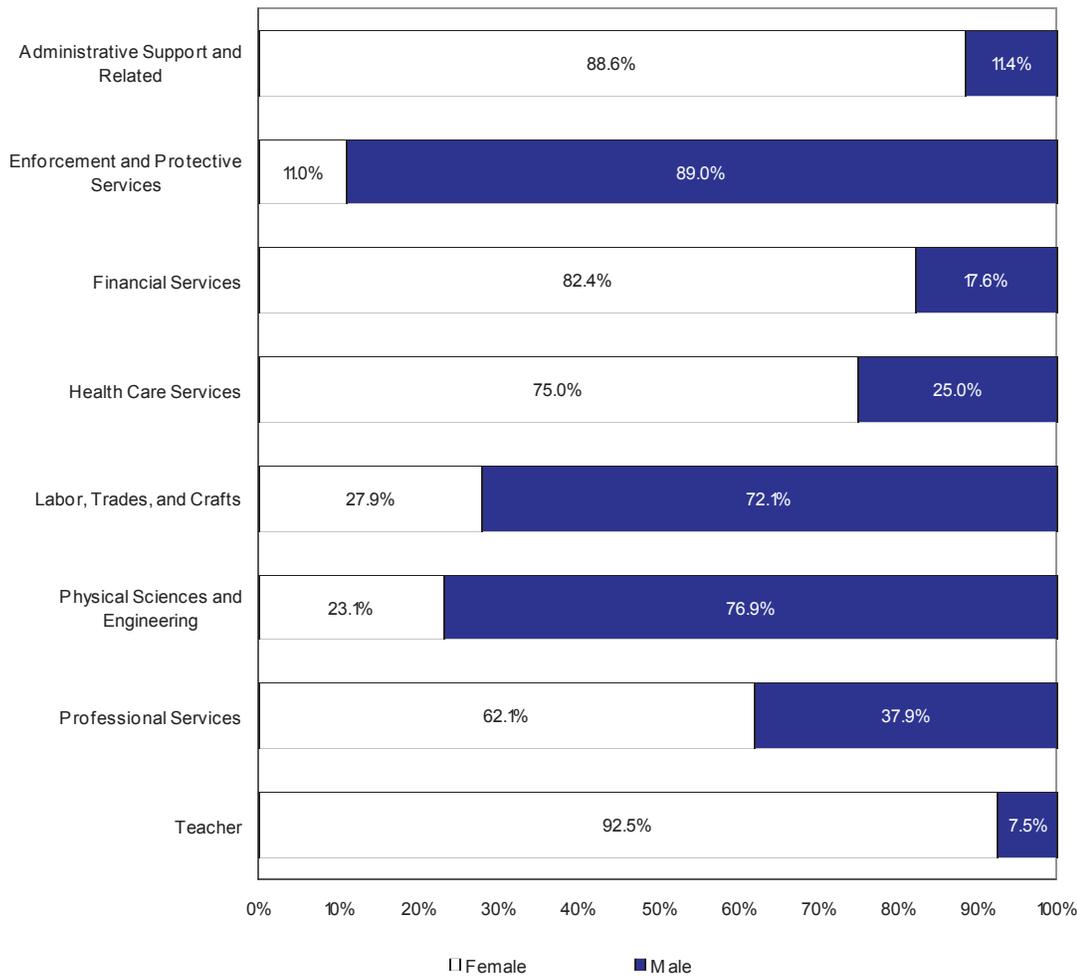

OCCUPATIONAL GROUPS

Four occupational groups in general government have minority representation above the statewide average of 25.8% – Administrative Support & Related (33.1%), Enforcement and Protective Services (28.0%), Health Care Services (29.6%), and Labor, Trades, and Crafts (29.5)%.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

Comparative Minority/Non-minority Percentages – Higher Education Institutions

OCCUPATIONAL GROUPS

Six occupational groups have minority representation above the statewide average of 25.8% – Administrative Support & Related (88.6%), Financial Services (82.4%), Health Care Services (75%), Labor, Trades, and Crafts (27.9%), Professional Services (62.1%), and Teacher group (92.5%).

OCCUPATIONAL GROUPS

Except for the Medical occupational group, average annual salaries for general government employees are higher for non-minorities than for minorities in the other occupational groups.

The Administrative Support & Related Medical group are the only two groups where women have higher average salaries than men.

Professional Services employees have a higher average salary and higher average years of service than the statewide averages of 45.6% and 9.7 years.

3. GENDER & MINORITY/NON-MINORITY STATISTICS

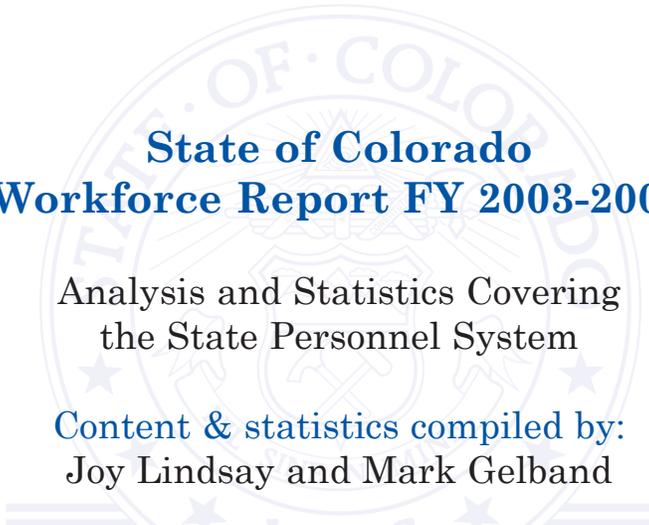

Detailed Gender & Minority/Non-minority Statistics – Higher Education Institutions

	Number of Employees	Percent of Employees	Average Annual Salary	Average Age	Average Years of Service
Administrative Support and Related					
Female	2,427	88.6%	\$33,129	48.4	9.9
