## Renewable Energy Conference Offers Russian Expertise to Denver Companies

**Arlington, VA-02/28/05**-Rocky Mountain area CEOs can engage new, ecologically and economically sound models of sustainable energy; and opportunities to discuss commercialization and development collaboration with scientists and engineers from Russia, Ukraine, Moldova Armenia, Uzbekistan, as part of the **Renewable Energy Technologies** conference in **Denver, CO March 31- April 1, 2005**.

The conference—a partnership between the **Civilian Research & Development Foundation (CRDF)**, **Sustainable Profitability Group (SPG)**, and the **North Atlantic Treaty Organization (NATO)**—seeks to make solar, wind, biomass, fuel cells, energy efficiency and other unique innovative technologies accessible to US businesses.

During the two-day conference, attendees will participate in educational sessions, learn about the technologies from the visiting scientists and engineers, and partake in a networking reception at the University Club.

The conference will feature **Rick Grice**, executive director of the **Governor's Office of Energy Management and Conservation** who will provide insight into Colorado's state initiatives on emerging and renewable energy technologies and energy efficiency.

For more information or to register to attend the conference contact Yuliya Tsaplina of SPG at 212-736-1905 or [www.sustainableprofit.com](http://www.sustainableprofit.com).

**Members of the media are encouraged to confirm their attendance.** Contact [pr@crdf.org](mailto:pr@crdf.org).

### **About CRDF**

The U.S. Civilian Research & Development Foundation (CRDF) is a nonprofit organization authorized by the U.S. Congress and established in 1995 by the National Science Foundation. This unique public-private partnership promotes international scientific and technical collaboration, primarily between the United States and Eurasia, through grants, technical resources, and training.

### **About SPG**

Founded in 2003, Sustainable Profitability Group, Inc. (SPG) is a business development, investment, and research firm with a unique perspective on emerging opportunities in the alternative energy and distributed energy sectors.
