Denver, CO 80246-1530

Re: Request for Extension to Response No. 2 to Request for Information No. 2  
Piñon Ridge Mill License Application, Montrose County, Colorado

Dear Steve:

Energy Fuels would like to request an extension to Response No. 2 to Request for Information No. 2 (RFI #2). This response will address tailings cover design issues in RFI #2. In order to address the cover design issues, Kleinfelder West Inc. is currently redesigning the cover with significant changes from the original proposed design. Energy Fuels and Kleinfelder have been working with Larry Bruskin at CDPHE to ensure that the new design is acceptable to the Division. However, due to the extensive nature of this work, Energy Fuels does not anticipate that Kleinfelder West will complete the redesign until mid-September 2010. Accordingly, Energy Fuels requests an additional 30-day extension to the previously requested 45-day extension. This requested extension would put the Response No. 2 to RFI #2 submittal date no later than September 22, 2010.

Please contact me should you have any questions or need additional information regarding this request.

Sincerely,

Zach Rogers, EIT  
Environmental Engineer

Cc: Alan Kuhn (Kleinfelder)
