Subject: Request for Extension to Request for Information #3.

Dear Frank,

The Radiation Management Unit has reviewed your request for additional time to respond to our recent request for additional information.

The first request is for an extension to October 18, 2010 for updates to Attachments 1, Parts 1 and 2 of Attachment 3 (the Facility Operating Plan, and MILDOSE report) and Part 1 of Attachment 4 (the Health and Safety Plan). That extension is acceptable to the Department.

The second request is for an extension to on or about November 3 for Attachment 2 and Part 2 of Attachment 4 (the Emergency Response Plan.) The Attachment 2 response will also include updated construction quality control plans, construction and closure specifications. The response to RFI #4 will also be submitted at the same time. These deliverables shall be submitted no later than close of business on Friday, November 5, 2010.

The third request relates to Parts 3 and 4 of Attachment 3 (Pathways analysis and risk assessment reports.) You also state that you will submit an off-site Habitat Improvement Plan. The Department is not comfortable with the suggested submittal date of November 18, 2010. The Pathways Analysis report will be due on November 5. The Risk Assessment and Habitat Improvement Plans shall be submitted no later than close of business on Friday, November 12.

No further extensions will be granted. If you have any additional questions relative to this review, please contact me at (303) 692-3423 or steve.tarlton@state.co.us or Phil Egidi at (970) 248-7162 or phil.egidi@state.co.us.

Sincerely,

Steve Tarlton, Manager
Radiation Program
