Emergency Shower- Emergency Eyewash Combo Freeze Proof

Haws Emergency Shower- Emergency Eyewash- Model 8300FP freeze-proof combination emergency shower and eyewash

The **Haws 8300FP** combines the use of an ABS showerhead and anti-surge Soft-Flo eyewash heads for the irrigation process. Emergency combination unit is equipped with an in-line 50 x 50 mesh water strainer and pop-off dust covers, so when debris is present, the irrigation process stays protected. Virtually eliminating mishaps, the unit's safety features include: universal emergency sign, high visibility stripe, two labeled push plates, and two self-draining bleed valves to protect from internal freezing.

- * A great addition to unsafe environments where the eyes and body may be exposed to corrosive materials.
 - * Requires minimal maintenance and is equipped with test card to record weekly testing.
 - * Reducing installation time, eyewash is pre-built and fully water/pressure tested.
- Solid galvanized steel construction make for one sturdy piece of emergency equipment.

Certified by CSA to meet the ANSI Z358.1 Standard for Emergency Eyewash and Shower Equipment.

Specify depth of valves required.

Available in 24", 42" and 66" depths. Individual push plates activate shower and eyewash. Pipe and fitting: 1-1/4" Schedule 40 hot-dipped galvanized steel. Supply: 1-1/4" and 3/4". Waste: 1-1/4" IPS.

Haws Model 8300FP is certified by CSA to meet the ANSI Z358.1 Standard for Emergency Eyewash and Shower Equipment.

*See below for spec sheet on this Haws 8300FP Emergency Shower

This unit contains:

- Haws 8300FP
- MK8A Freeze resistant eyewash valve 3/4" (specify bury depth)
