EXECUTIVE ORDER

I. Background and Purpose

On March 5, 2020, the Colorado Department of Public Health and Environment’s (CDPHE) public health laboratory confirmed the first presumptive positive COVID-19 test result in Colorado. Since then, the number of confirmed cases has continued to climb, and we have evidence of widespread community spread throughout the State. I verbally declared a disaster emergency on March 10, 2020, and on March 11, 2020, I issued the corresponding Executive Order D 2020 003, as amended and extended by Executive Orders D 2020 018, D 2020 032, D 2020 058, D 2020 076, D 2020 109, D 2020 125, D 2020 152, D 2020 176, D 2020 205, D 2020 234, D 2020 258, D 2020 264, D 2020 268, D 2020 284, D 2020 290, and D 2020 296. On March 25, 2020, I requested that the President of the United States declare a Major Disaster for the State of Colorado, pursuant to the Stafford Act. The President approved that request on March 28, 2020.

My administration, along with other State, local, and federal authorities, has taken a wide array of actions to mitigate the effects of the pandemic, prevent further spread, and protect against overwhelming our health care resources. While we have seen indications that our efforts to “flatten the curve” are working, transmission of the virus continues to threaten Coloradans’ way of life and livelihoods and current data shows a recent increase in COVID infections. As we take steps to return Coloradans to work, we must continue to take measures to facilitate reopening the economy while protecting public health by taking steps to incorporate best practices to protect individuals from infection.
We have learned that widespread mask use is a low cost and highly effective way to reduce the spread of COVID-19 infections by as much as 65%. Broad adoption of mask wearing in Colorado may have significant economic benefits by allowing the State to prevent re-closures of businesses and schools and, ultimately, return to our normal lives more quickly. A recent study from Goldman Sachs concluded that a federal mask mandate could save the U.S. economy from taking a 5% hit to the Gross Domestic Product (GDP). When I first implemented this Executive Order, thirty-nine Colorado counties and municipalities already had mandatory mask orders in place.

Under Executive Order D 2020 110, mask wearing is mandatory for employees, contractors, and others providing services for Mass Transportation Operations and Critical Businesses as well as for State and county employees and the individuals they serve at Government Offices and Facilities. These requirements remain intact with this Executive Order.

This Executive Order extends Executive Orders D 2020 039, D 2020 067, D 2020 092, D 2020 110, D 2020 138, D 2020 164, D 2020 190, D 2020 219, D 2020 237, D 2020 245, D 2020 276, and D 2020 281 to protect Coloradans by requiring individuals in Colorado to wear a non-medical face covering over their nose and mouth, subject to several exceptions.

II. **Duration**

GIVEN under my hand and the Executive Seal of the State of Colorado, this sixth day of January, 2021.

Jared Polis
Governor
