

TABLE 38 DEMILITARIZATION CODES

A DEMIL Code is assigned to DoD personal property by the Integrated Material Manager. It indicates the degree of required physical destruction, identifies items requiring specialized capabilities or procedures, and identifies items which do not require DEMIL, but may require Trade Security Controls (TSC). It is used throughout the life-cycle to identify control requirements required before release of DoD personal property from DoD control.

CODE EXPLANATION

- A No-USML/Non-CCLI – No DEMIL or DoD TSC required. Department of Commerce may impose licensing requirements to certain destinations. (Note 9).
- B USML Items – Mutilation to the point of scrap required worldwide. (Note 7). (See DODI 2030.08 for scrap definition).
- C USML Items – DEMIL required. Remove and demilitarize installed key point(s). (Note 4).
- D USML Items – DEMIL required. Destroy item and components to prevent restoration or repair to a usable condition. (Note 5).
- E DoD Demilitarization Program Office (DDPO) reserves this code for their exclusive-use only. DEMIL instructions will be furnished by the DDPO. (Note 6).
- F USML Items – DEMIL required. Item/Technical Managers or Equipment/Product Specialists will furnish Special DEMIL instructions. (Note 3).
- G U.S. Munitions List (USML) Items – DEMIL required – Ammunition and Explosives (AE). This code applies to both unclassified and classified AE items. (Note 1).
- P USML Items – DEMIL required. Security Classified Items. (Note 2).
- Q Commerce Control List Items (CCLI) – Mutilation to the point of scrap required outside the United States. In the United States, mutilation requirement determined by the DEMIL Integrity Code. DoD Trade Security Controls (TSC) required in the United States. (Note 8).

NOTES:

1. DEMIL Code “G”. This code applies to both unclassified and classified AE items.
 - a. The appropriate Controlled Inventory Item Codes (CCIC) in FLIS Table 61, Volume 10 of DoD 4100.39M, shall be assigned to categorize classification, security and storage applications.
 - b. The Military Services have DEMIL and disposal responsibility according to DoD Instruction 5160.68 and Volume 1 of the Defense DEMIL Manual.
2. DEMIL Code “P”. DEMIL of these items consists of:
 - a. Destruction to reduce the risk of reconstituting classified information. Declassification can only be determined based on information from the Original Classification Authority (OCA) according to DoD 5200.1-R.

b. DEMIL and removal of any sensitive markings or information accomplished and certified prior to physical transfer to a Defense Reutilization and marketing office (DRMO) or release from DoD control.

c. For Communication Security (COMSEC) items, refer to Volume 3 of the Defense DEMIL Manual.

d. This code does not apply to AE.

3. DEMIL Code "F". This code requires special instructions for DEMIL required property.

a. The purpose for the instructions is to identify special provisions; e.g.; environmental, safety, and health hazards, required occupational expertise, and specific disposition directions.

b. Disposal activities should not accept DEMIL code "F" items for processing without the National Stock Number (NSN) and instructions provided. (See Volume 1 of the Defense DEMIL Manual for more information on DEMIL code "F" instructions).

4. DEMIL Code "C". Key points include designed parts, components, alignment points, attachment fittings or areas which, when demilitarized, cannot feasibly be restored and which are necessary factors in restoring the next higher assembly to design capability; e.g.; "gun barrel, up-armor kit, aircraft fuselage, wing spar attachment fittings." "Key points for DEMIL" include the parts, components, alignment points, attachment fittings or areas which, when demilitarized, cannot feasibly be repaired, restored, replaced, improvised or commercially procured and which are necessary factors in restoring the next higher assembly to design capability.

a. Key points are assigned or treated as DEMIL code "D". The remaining residual portion shall, at a minimum, be processed as DEMIL code "B" or "Q".

b. Items submitted to a DRMO for disposal must have either the key points already removed or the key points positively identified and tagged for removal by the DRMO or other disposal activity. Key point NSNs, if applicable, shall be identified on the Disposal Turn-In Document, as well as on any attached identification tags.

5. DEMIL Code "D". DEMIL to the level of scrap will ensure the requirements for this code have been met. (See DoD Instruction 2030.08 for definition of scrap). Property sold with DEMIL as a condition of sale shall not be released without positive controls and the DEMIL witnessed by U.S. Government representatives unless otherwise authorized by the DoD DEMIL Program Manager (DDPM).

6. DEMIL Code "E". The DDPO reserves this code for their use only. DoD personal property assigned this code may be pending a commodity jurisdiction and are generally treated DEMIL code "D".

7. DEMIL Code “B”. Mutilation to the point of scrap required worldwide after reutilization within DoD, Foreign Military Sale (FMS) programs, Federal agencies, and designated special programs. (See DoD 4160.21-M).

8. DEMIL Code “Q”. This code is specifically for the Commerce Control List Items (CCLI) that are under the jurisdiction of the Bureau of Industry and Security (BIS), United States Department of Commerce, according to parts 730 through 774 of Title 15 Code of Federal Regulation and Indicated on the Commerce Control List (CCL) by a five-digit Export Control Classification Number (ECCN). DEMIL code “Q” items are further categorized as sensitive or non-sensitive based on criteria established by the DDPM.

a. CCLI identified as sensitive requires mutilation inside the United States. Such property is assigned a DEMIL Integrity Code (IC) of “3” in accordance with Volume 1 of the Defense DEMIL Manual.

b. CCLI identified as non-sensitive requires DoD TSC inside the United States according to DoD Instruction 2030.08. Such property is assigned a DEMIL Integrity Code (IC) of “6” in accordance with Volume 1 of the Defense DEMIL Manual. CCLI with a DEMIL IC of “6” does not require mutilation prior to release within the United States.

c. Mutilation is required outside the United States and its territories for all CCLI.

9. DEMIL Code “A”. This code is for items that are neither MLI nor CCLI. Items that have not been modified or redesigned and which are identical in design, structure, composition and utility to an equivalent item in the commercial market, will be coded DEMIL code “A”. For export purposes, these items are still subject to the EAR as “EAR99” according to part 734 of Title 15 Code of Federal Regulation.

10. The Demilitarization Code is mandatory when the major Organizational Entity pre-established in the MOE Rule table is a Military Service or Defense Agency manager recorded Primary/Secondary Inventory Control Activity (PICA/SICA) (activity code AC through XC, XF through XW).

11. The Demilitarization Code is not required when the MOE pre-established in the MOE Rule table is a Civil Agency (numeric activity code) PICA/SICA on submitted MOE Rule Number. However, if the Civil Agency is supporting a Military Service, the DEMIL Code is required (activity code of AC through XC, XF through XW as the PICA/SICA on submitted MOE Rule Number).

12. See volume 12, DRN 0167, for format and definition.

13. Codes for Department of Energy (DOE) Special Design and Quality Controlled Items under management control of the Defense Threat Reduction Agency (DTRA) (identified by CAGE Code 87991) in the FLIS data base will be assigned and processed in accordance with DOE-DSWA TP100-1, Supply Management of Nuclear Weapon Materiel.

TABLE 216
DEMIL INTEGRITY CODES

A table of codes that signify the status of a currently assigned demilitarization (DEMIL) code. DEMIL Integrity Codes (IC) are management codes to be used by the DoD Components to determine the validity of an items DEMIL code as assigned by the Primary Inventory Control Activity and verified by the DoD DEMIL Coding Management Office (DCMO). See NOTE below.

DEMIL INTEGRITY

CODE	DEFINITION
BLANK	DEMIL code has not been reviewed by DCMO.
0	DEMIL code reviewed by DCMO. Recommended DEMIL code and current ICP DEMIL code are not equal. Presently in collaboration cycle.
1	DEMIL code reviewed by DCMO, recommended DEMIL code adopted by ICP, or no DEMIL code change recommended.
2	DEMIL code reviewed by DCMO and accepted by ICP (DEMIL Integrity Code = 1) however, ICP has since overridden/changed code.
3	Critical FSC/FSG MLI or Sensitive CCLI. Requires mutilation worldwide.
4	DEMIL code could not be validated — insufficient technical data available.
5	(1) Item reviewed and coded by Service/Agency ICP -without DCMO collaboration; or, (2) Service/Agency ICP changed the DEMIL code prior to completion of IC-0 review/collaboration cycle.
6	Non-Critical FSC/FSG MLI or Non-Sensitive CCLI. Requires mutilation overseas.
7	Forced Concurrence. DCMO has forced a DEMIL code change in FLIS. ICP has not responded to collaboration request (over 90 days old) or failed to update the DEMIL code in the ICPs legacy system.
8	ICP has non-concurred with a DCMO recommended DEMIL Code. Item DEMIL coding pending resolution.
9	Reserved for future use.

NOTE:

DEMIL IC 1, 3, 6 or 7 signifies that DCMO has verified DEMIL code as accurate and locked it in FLIS. DoD DEMIL Manual (DoD 4160.21-M-1) provides instructions regarding DEMIL Code changes after the lock is installed.

*Questions concerning any of the material listed in this instruction guide may be directed to the LESO via email at DRMSLESO@DLA.MIL or by calling 1-800-532-9946.
